Cecotec Cremmaet Compactccino Connected Black Rose Superautomatic Espresso Coffee Machine

USER MANUAL

Introduction

This manual provides comprehensive instructions for the safe and efficient operation, setup, and maintenance of your Cecotec Cremmaet Compactccino Connected Black Rose Superautomatic Espresso Coffee Machine. This advanced coffee machine features a 19-bar pressure pump, TFT display, Wi-Fi connectivity, an integrated grinder, and automatic cleaning functions, allowing you to prepare a variety of coffee beverages from freshly ground beans.

Please read this manual thoroughly before first use and keep it for future reference.

Setup

1. **Unpacking:** Carefully remove all components from the packaging. Ensure all parts are present: main unit, milk tank, water tank, power cord, and cleaning accessories.
2. **Initial Cleaning:** Before first use, clean the water tank, milk tank, and drip tray with warm water and a mild detergent. Rinse thoroughly.
3. **Fill Water Tank:** Remove the water tank from the machine. Fill it with fresh, cold drinking water up to the MAX level indicated. Reinsert the tank securely into the machine.

Figure 2: Filling the removable water tank.

4. **Load Coffee Beans:** Open the lid of the coffee bean hopper located on top of the machine. Pour fresh coffee beans into the hopper. Do not overfill. The hopper has a capacity of 150g.

Figure 3: Loading coffee beans into the integrated grinder.

5. **Connect Milk Tank (Optional):** If preparing milk-based beverages, fill the milk tank with fresh milk (up to 400ml). Connect the milk tube from the machine to the milk tank.
6. **Power Connection:** Plug the power cord into a grounded electrical outlet.
7. **Initial Start-up:** Press the power button. The machine will perform an automatic rinsing cycle. Follow the on-screen instructions on the TFT display for initial setup, including language selection and Wi-Fi connection.

Operating Instructions

The Cecotec Cremoet Compactccino offers a user-friendly TFT display and Wi-Fi connectivity for easy operation.

1. **TFT Display Navigation:** Use the touch screen to navigate through the menu options. You can select different coffee types, customize settings, and access cleaning functions.

Figure 4: Interacting with the TFT display.

2. Making Coffee:

- Place a cup under the coffee dispenser.
- Select your desired beverage (e.g., Espresso, Americano, Latte, Cappuccino) from the main menu.
- The machine will automatically grind the beans, brew the coffee, and dispense it into your cup. For milk-based drinks, it will also froth and dispense milk.

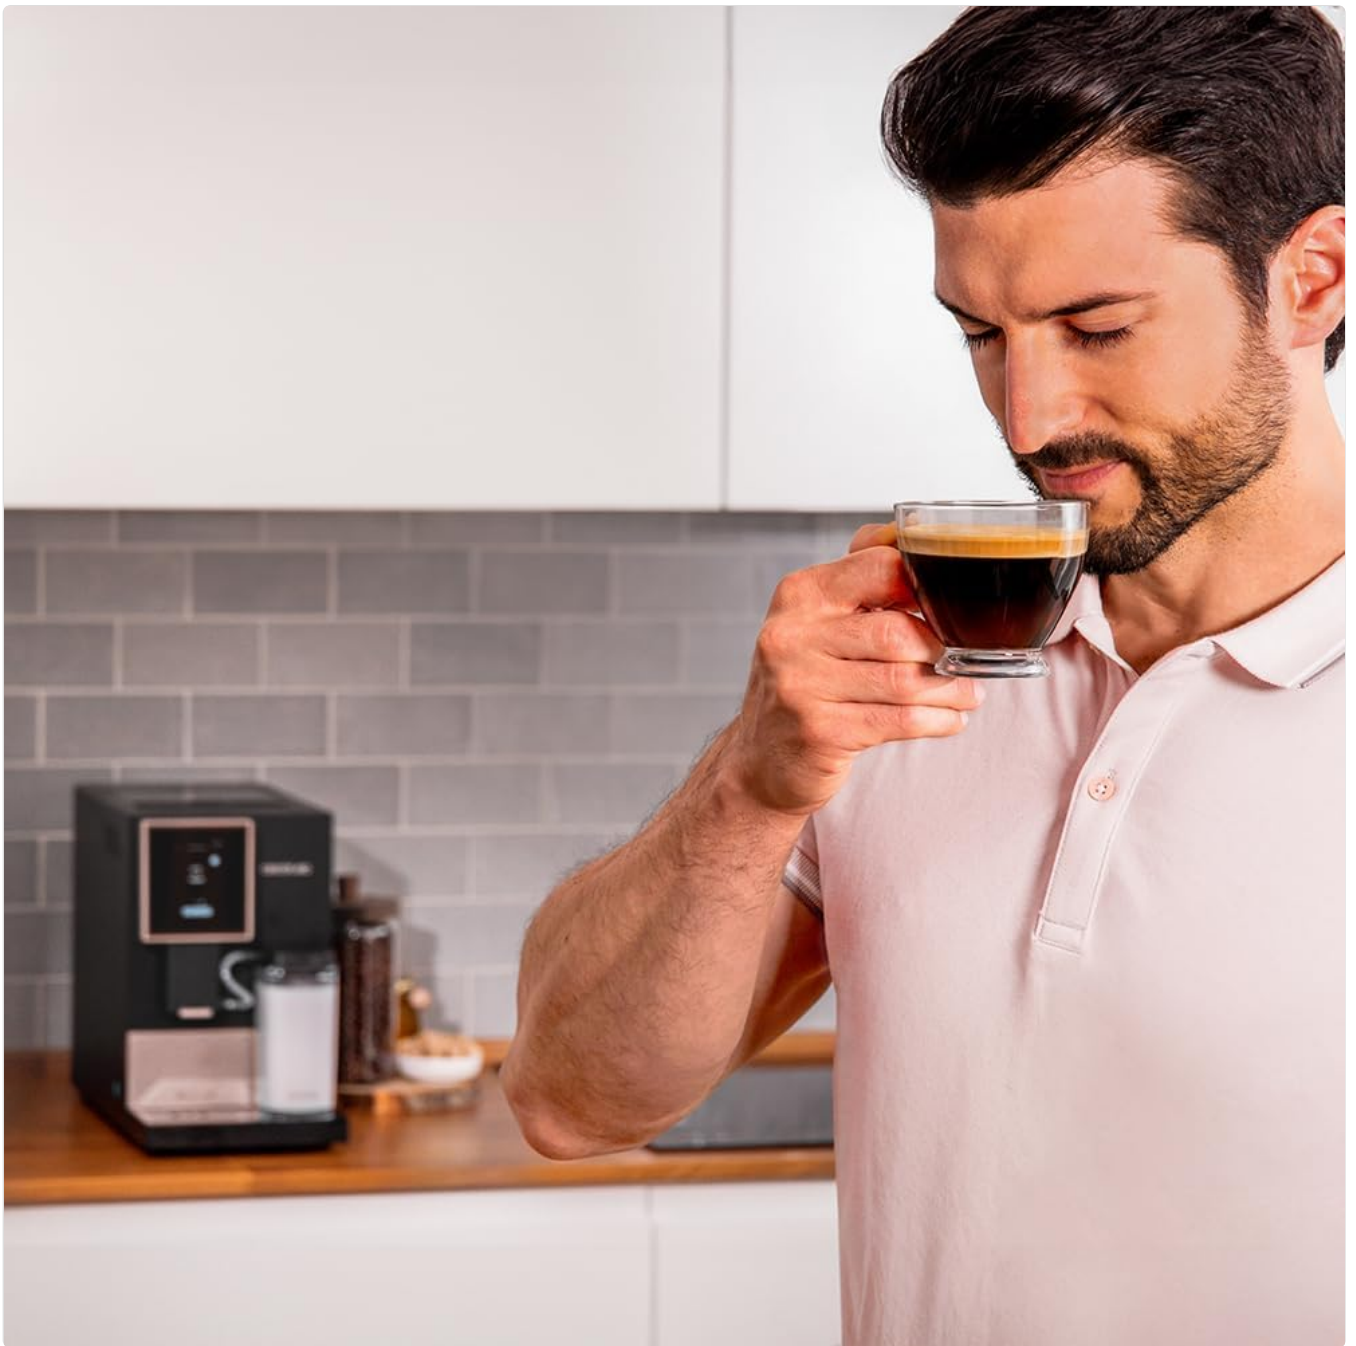

Figure 5: Coffee being dispensed.

Figure 6: Preparing a milk-based coffee.

3. **Customizing Drinks:** You can customize the amount of coffee, intensity, and temperature for each beverage. These settings can often be saved for future use.
4. **Wi-Fi Connectivity and App:** Connect your machine to your home Wi-Fi network. Download the Cecotec app to control the machine remotely, customize recipes, and access additional features.

Figure 7: Using the mobile app to control the coffee machine.

Maintenance

Regular maintenance ensures optimal performance and longevity of your coffee machine.

1. **Automatic Cleaning:** The machine performs an automatic rinsing cycle upon power-on and power-off. Ensure a cup is placed under the dispenser to collect the water.
2. **Water Tank Cleaning:** Clean the water tank regularly with warm water. For thorough cleaning, use a soft brush to remove any residue.
3. **Milk Tank Cleaning:** After each use, clean the milk tank and milk tube thoroughly to prevent milk residue buildup. Most parts are dishwasher safe or can be rinsed with warm water.
4. **Drip Tray and Coffee Grounds Container:** Empty and clean the drip tray and the used coffee grounds container daily or when indicated by the machine.
5. **Grinder Cleaning:** Periodically clean the coffee bean hopper and grinder area to remove any stale coffee grounds or oil buildup. Refer to the machine's display for specific instructions on grinder maintenance.

6. **Descaling:** The machine will prompt you when descaling is required. Use a descaling solution recommended by Cecotec and follow the on-screen instructions for the descaling process.

Figure 8: Automatic cleaning cycle in progress.

Troubleshooting

Problem	Possible Cause	Solution
Machine heats up but does not brew coffee.	Possible Wi-Fi connectivity issue or software conflict.	Turn off your Wi-Fi router. Then, power cycle the coffee machine (turn off and on). Once the machine restarts, access the menu via the TFT display and disable the Wi-Fi function. You may need to manually power off the machine after use if the clock function is affected.

Problem	Possible Cause	Solution
No coffee is dispensed.	Water tank empty; coffee beans empty; brewing unit clogged.	Refill water tank; refill coffee beans; clean the brewing unit as per maintenance instructions.
Coffee is too weak/strong.	Incorrect grind setting; insufficient coffee quantity; water temperature too low.	Adjust the grind setting (finer for stronger, coarser for weaker); increase coffee intensity setting; check water temperature settings.
Milk is not frothing properly.	Milk tank/tube dirty; milk type unsuitable; milk temperature.	Clean milk tank and tube thoroughly; use fresh, cold milk (preferably semi-skimmed or whole milk); ensure milk is cold.
Machine leaks water.	Water tank not properly seated; drip tray full; internal component issue.	Ensure water tank is correctly inserted; empty drip tray; if problem persists, contact customer support.

Specifications

Feature	Detail
Brand	Cecotec
Model Number	01461
Colour	Black
Product Dimensions	19 x 40 x 32 cm
Item Weight	9.05 kg
Voltage	230 Volts
Pressure Pump	19 bar
Water Tank Capacity	1.1 L
Milk Tank Capacity	400 ml
Coffee Bean Hopper Capacity	150g
Special Features	Removable Tank, Programmable, TFT Display, Wi-Fi Connectivity, Integrated Conical Grinder (5 levels), Thermoblock Rapid Heating, Automatic Cleaning

Warranty and Support

Your Cecotec Cremmaet Compactccino Connected Coffee Machine comes with a manufacturer's warranty. For detailed information regarding warranty terms and conditions, please refer to the warranty card included in your product packaging or visit the official Cecotec website.

For technical support, spare parts, or service inquiries, please contact Cecotec customer service through their official channels. Ensure you have your product model number (01461) and purchase details ready when contacting support.
