Cecotec ForceClima 12650

Cecotec ForceClima 12650 Style Heating Portable Air Conditioner User Manual

Model: ForceClima 12650

1. INTRODUCTION

Thank you for choosing the Cecotec ForceClima 12650 Style Heating Portable Air Conditioner. This appliance is designed to provide optimal climate control for your space, offering cooling, heating, dehumidification, and fan functions. With a powerful 12000 BTU capacity, it is suitable for rooms up to 28 m². Please read this manual thoroughly before use to ensure proper operation, maintenance, and safety.

2. SAFETY INSTRUCTIONS

To prevent injury to the user or others and property damage, the following instructions must be followed. Incorrect operation due to ignoring instructions may cause harm or damage.

- Always use the appliance on a flat, stable surface.
- Do not operate the unit with wet hands.
- Ensure the power cord is not damaged and is properly grounded.
- Keep the air inlet and outlet clear of obstructions.

- Do not insert objects into the air vents.
- This appliance uses R-290 refrigerant, which is environmentally friendly but flammable. Handle with care and ensure adequate ventilation during installation and maintenance.
- Do not attempt to repair or modify the unit yourself. Contact qualified service personnel.
- Supervise children to ensure they do not play with the appliance.

3. PRODUCT COMPONENTS

The Cecotec ForceClima 12650 portable air conditioner comes with the following components:

- Portable Air Conditioner Unit
- Remote Control
- Window Installation Kit (for exhaust hose)
- Drainage Tube
- Instruction Manual
- Multidirectional Wheels (may require assembly)

4. SETUP AND INSTALLATION

Follow these steps to set up your portable air conditioner:

1. **Unpacking:** Carefully remove the unit and all accessories from the packaging. Inspect for any damage.
2. **Wheel Assembly:** If the multidirectional wheels are not pre-installed, attach them to the bottom of the unit according to the diagrams in the separate assembly guide (if provided).
3. **Placement:** Place the air conditioner on a firm, level surface, ensuring there is at least 30 cm of clearance around the unit for proper airflow.
4. **Exhaust Hose Installation:**
 - Connect one end of the exhaust hose to the exhaust port on the back of the unit.

- Assemble the window installation kit and secure the other end of the exhaust hose to the window kit.
- Extend the window kit to fit your window opening, ensuring a tight seal to prevent outside air from entering.

5. **Drainage Tube (for continuous drainage):** For dehumidification or prolonged use in cooling mode, you may connect the drainage tube to the continuous drain outlet and direct it to a suitable drain or container.

6. **Power Connection:** Plug the power cord into a grounded electrical outlet.

5. OPERATING INSTRUCTIONS

The unit can be operated using the touch control panel on top of the unit or the included remote control.

5.1 Control Panel and Remote Control

The control panel features an LED display and touch buttons for various functions. The remote control duplicates these functions for convenience.

Image 5.1: The touch control panel on the unit and the remote control for easy operation.

5.2 Operating Modes

Press the 'Mode' button to cycle through the following operating modes:

- **Cooling Mode:** Provides powerful cooling for your room. Set your desired temperature using the temperature adjustment buttons.
- **Heating Mode:** Utilizes the heat pump function to warm your room, suitable for colder seasons. Set your desired temperature.
- **Fan Mode:** Circulates air without cooling or heating. You can select fan speed.
- **Dehumidification Mode:** Removes excess moisture from the air, capable of extracting up to 29 liters per day.
- **Sleep Mode:** Operates at a lower noise level and adjusts temperature gradually for comfortable sleep.

Image 5.2: Visual representation of the five available operating modes.

5.3 Fan Speed

In Cooling, Heating, and Fan modes, you can select between two fan speeds: Low and High, to adjust airflow intensity.

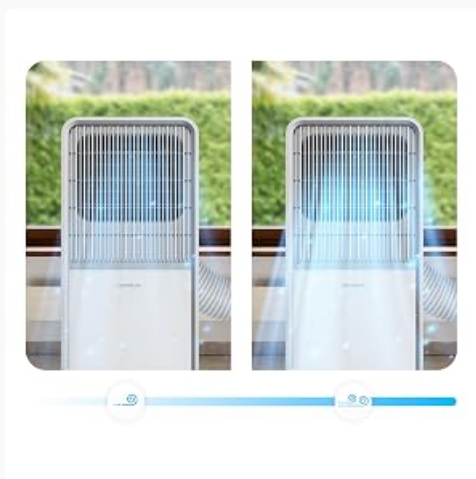

Image 5.3: Illustration of adjustable fan speeds.

5.4 Timer Function

The timer function allows you to program the unit to turn on or off automatically after a set period, up to 24 hours. Press the 'Timer' button and use the temperature adjustment buttons to set the desired duration.

Image 5.4: The 24-hour timer function on the control panel.

6. MAINTENANCE

Regular maintenance ensures optimal performance and extends the lifespan of your air conditioner.

- **Cleaning the Air Filter:** The air filter should be cleaned every two weeks or more frequently depending on usage. Turn off and unplug the unit. Remove the filter, wash it with lukewarm water and mild detergent, rinse thoroughly, and allow it to air dry completely before reinserting.
- **Draining Condensed Water:** The unit has an internal water tank. When full, an indicator light will illuminate, and the unit will stop operating. Drain the water by removing the drain plug and allowing the water to flow into a suitable container. For continuous drainage, connect the provided drainage tube.
- **Cleaning the Exterior:** Wipe the exterior of the unit with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Before long-term storage, drain all water from the unit, clean the air filter, and ensure the unit is dry. Store in a cool, dry place, covered to protect from dust.

7. TROUBLESHOOTING

If you encounter issues with your air conditioner, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Unit does not turn on	No power, power cord damaged, water tank full	Check power connection, inspect cord, drain water tank
Insufficient cooling/heating	Air filter dirty, exhaust hose blocked/leaking, room too large, doors/windows open	Clean filter, check hose connection, close doors/windows, ensure room size is within limits
Unit is noisy	Unit not on a level surface, fan speed too high, normal operating sound	Place on level surface, reduce fan speed, some noise is normal for portable AC units
Water leakage	Drain plug not secure, drainage tube blocked	Ensure drain plug is tight, clear drainage tube

If the problem persists after attempting these solutions, please contact Cecotec customer support.

8. SPECIFICATIONS

Brand	Cecotec
Model Number	08167
Cooling Capacity	12000 BTU (3000 frigories)
Coverage Area	Up to 28 m²

Power	1000 Watts
Voltage	2.6 Kilovolts
Refrigerant	R-290
Dimensions (L x W x H)	27.5 x 68.5 x 33 cm
Weight	2.3 Kilograms
Energy Efficiency Rating	A
Seasonal Energy Efficiency Ratio (SEER)	12
Special Features	Dehumidifier, Heating and Cooling Function, Remote Controlled
Included Components	Instructions, Window installation kit, Wheels, Drainage tube

9. WARRANTY AND SUPPORT

Your Cecotec ForceClima 12650 Portable Air Conditioner comes with a manufacturer's warranty.

- **Manufacturer Warranty:** 3 years.
- **Spare Parts Availability:** 10 years.

For warranty claims, technical support, or to inquire about spare parts, please contact Cecotec customer service through their official website or the contact information provided with your purchase documentation. Please have your model number (08167) and purchase date available when contacting support.
