LANMU DCV501HB

LANMU DCV501HB HEPA Filter Instruction Manual

For DEWALT 20V Cordless Handheld Vacuum (DCV501HB)

1. PRODUCT OVERVIEW

This LANMU replacement HEPA filter is specifically designed for use with DEWALT 20V Cordless Handheld Vacuum models, including DCV501HB. It serves as a direct replacement for part number DCV5011H, ensuring optimal filtration performance for your vacuum cleaner.

COMPATIBILITY

DCV501HB

2. INSTALLATION GUIDE

Follow these steps to correctly install the replacement HEPA filter into your DEWALT DCV501HB handheld vacuum:

1. **Turn off and unplug the vacuum:** Ensure the vacuum is powered off and disconnected from any power source before beginning installation.
2. **Remove the dirt cup:** Locate the lock button on the vacuum and press it to detach the dirt cup.
3. **Remove the old filter:** Carefully pull out the used HEPA filter from the dirt cup.
4. **Install the new filter:** Insert the new LANMU HEPA filter into the dirt cup, ensuring it is seated correctly.
5. **Reattach the dirt cup:** Align the dirt cup with the vacuum body and push until it clicks securely into place.

EASY TO INSTALL

Turn the vacuum off and unplug it from the electrical outlet.

Push the lock button and pull out the old hepa filter.

Replace the new filter in place.

Video: This video demonstrates the installation process of the LANMU DCV501HB HEPA filter into the DEWALT 20V Cordless Handheld Vacuum, followed by a demonstration of its cleaning performance and filter washing.

3. MAINTENANCE AND CLEANING

Regular cleaning of your HEPA filter is crucial for maintaining the vacuum's optimal cleaning performance and extending the filter's lifespan. This handheld filter is washable.

1. **Rinse the filter:** Gently rinse the filter under running water to remove accumulated dust and debris.
2. **Air-dry completely:** After rinsing, allow the filter to air-dry completely for at least 24 hours before placing it back into your hand vacuum. Do not use heat to dry the filter.
3. **Frequency:** It is recommended to rinse the filter once every month for optimum performance, depending on usage.

EASY TO CLEAN

Air-dry the filter completely for at least 24 hours before putting it back.

Tips:

Suggest rinsing the filter once every month for optimum performance.
