

SMALLRIG 3591C

SmallRig All-in-One Video Kit Ultra User Manual

Model: 3591C

INTRODUCTION

The SmallRig All-in-One Video Kit Ultra (Model 3591C) is a comprehensive solution designed for mobile video creators. This kit provides enhanced stability, lighting, and audio capabilities for smartphones, making it ideal for vlogging, live streaming, and professional video production. It features a universal phone cage, quick-release tripod, wireless control handles, an RGB LED light, and a microphone.

SETUP GUIDE

Follow these steps to assemble your SmallRig All-in-One Video Kit Ultra:

1. Attach the Phone Cage to the Tripod:

Remove the quick release plate from the tripod. Securely attach this plate to the bottom of the universal phone cage. Then, mount the cage onto the tripod by re-inserting the quick release plate into the tripod head.

Quick Release Ball Head

- One-click locking, fast push-to-release button
- Quickly switch between handheld and tripod shooting

Image: Detailed view of the quick release ball head, illustrating how to attach and detach the phone cage from the tripod.

2. Mount the Power Bank Holder:

Attach the power bank holder to the back of the phone cage using the provided 1/4"-20 screws and Allen wrench. Ensure it is tightened securely.

3. Attach the Handles:

Mount the wireless control side handle and the standard side handle to the sides of the phone cage using the 1/4"-20 screws. Use the Allen wrench to tighten them firmly.

4. Install the RGB LED Light:

Insert the RGB LED light into the cold shoe mount on one of the handles and tighten it clockwise until secure.

5. Install the Microphone:

Attach the microphone to the shock mount, then insert the shock mount into the cold shoe mount on the other handle. Connect the microphone to your smartphone using the appropriate 3.5mm audio cable and adapter (Lightning to 3.5mm or USB-C to 3.5mm) as shown in the video.

Video: Step-by-step guide on how to install the microphone and connect it to your smartphone using the provided cables and adapters.

6. Insert Your Smartphone:

Open the phone holder on the cage and carefully place your smartphone inside. Turn the knob clockwise to lock it securely.

7. Connect Power Bank (Optional):

If using a power bank, place it in the power bank holder and connect it to your phone using a suitable cable to ensure continuous power during recording.

"Fully Charged" Always

Capable to attach external power banks for long life and recording

*Power bank not included

Image: The phone cage with a power bank securely mounted and connected to the smartphone, ensuring extended recording time.

8. Bluetooth Pairing for Wireless Control:

Turn on the wireless control side handle. On your smartphone, go to Bluetooth settings and pair with the device named "SR WR-02". This enables remote start/stop recording.

OPERATING INSTRUCTIONS

Using the Wireless Control Handle

Once paired via Bluetooth, press the button on the wireless control side handle to remotely start or stop video recording on your smartphone. This allows for stable, shake-free recording initiation.

Adjusting the RGB LED Light

The RGB LED light features stepless color temperature adjustment (2700K-6500K) and 36,000 RGB colors with 12 FX light effects. Use the control dial on the light to cycle through modes and adjust brightness and color to suit your shooting environment.

Professional RGB LED Video Light

3 cold shoe mounts on the sides and the top offer more mounting options for microphones, LED lights, and other compatible devices

2700K-6500K Color Temperature

Switching Between Handheld and Tripod Modes

The quick-release ball head allows for rapid transitions between handheld and tripod shooting. Simply press the quick-release button to detach the cage for handheld use, or re-attach it to the tripod for stable, stationary shots.

Dual Handheld

Single Handheld

Tripod Mode

MAINTENANCE

To ensure the longevity and optimal performance of your SmallRig Video Kit, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe down the metal components. For the microphone's foam and furry windshield, gently brush off dust. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the kit in its provided storage bag or a clean, dry environment away from extreme temperatures and humidity.
- **Screw Tightness:** Periodically check all screws and connections to ensure they are tight. Re-tighten with the provided Allen wrenches if necessary to prevent components from loosening during use.

TROUBLESHOOTING

If you encounter any issues, refer to the following common troubleshooting tips:

- **Wireless Control Not Connecting:** Ensure the wireless control handle is charged and powered on. Check your phone's Bluetooth settings to confirm it's paired with "SR WR-02". If issues persist, try unpairing and re-pairing the device.
- **Microphone Not Recording Audio:** Verify that the microphone is correctly plugged into the 3.5mm adapter,

and the adapter is fully inserted into your phone's port. Check your phone's audio input settings to ensure the external microphone is selected. Some phones may display "headset" when an external microphone is connected, which is normal.

- **LED Light Not Turning On:** Ensure the RGB LED light is charged. Check the power button and control dial for proper operation.
- **Unstable Phone Mount:** Make sure the phone holder knob is fully tightened clockwise after inserting your smartphone. Ensure the quick release plate is securely locked into the tripod head.

SPECIFICATIONS

Brand	SMALLRIG
Model Number	3591C
Connectivity Technology	USB
Hardware Interface	USB Type C
Product Dimensions	4.92"W x 2.28"H
Compatible Shoe Mount Type	Cold Shoe
Flash Modes Description	Constant illumination, adjustable brightness, adjustable color temperature
Water Resistance Level	Waterproof
Item Weight	1129 Grams
Compatible Devices	Cage supports phones 57mm~90mm (2.24~3.54 inches) wide (with case); for iPhone 15/15 Plus/15 Pro/15 Pro Max/14/14 Plus/14 Pro/14 Pro Max/13/13 Pro/13 Mini/13 Pro Max/12/12 Pro/12 Mini/12 Pro Max/11/11 Pro/11 Pro Max; for Samsung Galaxy S23/S22/S21/S20 Ultra/ Note20/10, Pixel 7/6/5 series; for Huawei P60/60 Pro/60Pro Max/50/50 Pro/50 Pro Max/40/ 40 Pro/ 40 Pro Max, Mate Series; for Xiaomi, etc.
