SAFETY WARNINGS

WHAT'S IN THE BOX

ASSEMBLY INSTRUCTIONS

The Vziimo Purplr Cherry Blossom Bonsai Tree Building Set is designed for an engaging and detailed assembly experience. Due to the micro size of the bricks, patience and careful attention to the included instruction manual are essential. It is recommended to sort pieces by color and type before beginning to facilitate the building process.

General Assembly Tips:

- **Follow the Manual:** Refer to the step-by-step diagrams in the physical instruction manual provided in the box. Each

step illustrates the placement of specific bricks.

- **Sorting:** Although the manual suggests opening inner packaging according to instructions, for micro brick sets, it can be beneficial to sort all pieces by color and shape into separate containers or bags before starting. This can significantly reduce search time.
- **Patience is Key:** Micro bricks require precise placement. Take your time and ensure each piece is securely connected.
- **Use the Brick Separator:** The included brick separator can assist in detaching incorrectly placed bricks or separating tightly connected pieces.

TROUBLESHOOTING

Missing Parts:

If you discover any missing parts in your set, please contact the seller directly with details of the missing components. They will provide assistance to resolve the issue.

Difficulty with Instructions:

The micro brick nature of this set can make some steps challenging. Double-check the diagrams in the instruction manual for clarity. Ensure you are using the correct pieces for each step. If a step seems unclear, try re-examining previous steps or looking ahead to see the final structure. Online communities or video tutorials for similar micro brick sets may also offer visual guidance.

Model is Fragile/Pieces Detach Easily:

Ensure all micro bricks are firmly pressed together. The small size means connections can be less robust than larger building blocks. Avoid moving the model frequently or handling it roughly. If a section repeatedly detaches, carefully reassemble it, ensuring all connection points are secure.
