5. OPERATING INSTRUCTIONS: CONVERTING THE SECTIONAL

The Zinus Hudson Sectional offers flexible configurations to suit your needs. The key to its versatility is the detached ottoman and reversible cushions.

5.1 Standard Sofa Configuration

In this setup, the ottoman functions as a separate piece, usable as a footrest, extra seating, or a coffee table when paired with a tray.

5.2 Chaise Configuration (Left or Right-Facing)

To create a chaise lounge, follow these steps:

1. **Identify Chaise Side:** Decide whether you want a left-facing or right-facing chaise.
2. **Reposition Ottoman:** Move the detached ottoman to either the left or right end of the sofa, aligning it with the front edge of the sofa seat.
3. **Adjust Seat Cushion:** Take one of the sofa's seat cushions and place it on top of the ottoman, extending the seating area. Ensure the cushion is securely positioned.
4. **Adjust Back Cushion:** If necessary, adjust the corresponding back cushion to align with the new chaise configuration.

6. MAINTENANCE AND CARE

Proper care will extend the life and appearance of your Zinus Hudson Sectional Sofa.

- **Regular Cleaning:** Vacuum upholstery regularly using a soft brush attachment to remove dust and debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Do not rub, as this can spread the stain. For stubborn stains, use a mild fabric cleaner and test on an inconspicuous area first. Follow the cleaner's instructions carefully.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fabric fading. Position your sofa away from direct sunlight or use curtains/blinds.
- **Rotate Cushions:** Periodically rotate and flip seat and back cushions to ensure even wear and maintain their shape.
- **Check Connections:** Every few months, check all bolts and connections to ensure they remain tight. Retighten if

necessary.

- **Professional Cleaning:** For deep cleaning or significant stains, consider professional upholstery cleaning services.

7. TROUBLESHOOTING

This section addresses common issues you might encounter with your Zinus Hudson Sectional Sofa.

- **Sofa feels wobbly:**

Ensure all legs are securely tightened. Check the connections between the sofa frame sections to confirm they are properly engaged and fastened. Uneven flooring can also cause wobbling; try repositioning the sofa or using furniture pads to level it.

- **Cushions are shifting:**

Many Zinus cushions have Velcro strips on the underside to prevent shifting. Ensure these strips are aligned and pressed firmly against the corresponding strips on the sofa frame. Regularly adjust cushions to their original

position.

- **Fabric appears wrinkled or creased:**
During shipping, fabric may become compressed. Light steaming can help remove wrinkles. Gently smooth the fabric by hand. Over time, regular use will also help the fabric settle.
- **Difficulty assembling a part:**
Double-check the assembly instructions and diagrams. Ensure you are using the correct hardware for each step. If a part does not fit, do not force it. Contact customer support for assistance.
