2. SAFETY INFORMATION

Please read and understand the following safety precautions before using the remote control:

- **Battery Handling:** Always use the correct type and size of batteries (2 AAA batteries).
- **Polarity:** Ensure batteries are inserted with correct polarity (+ and -). Incorrect installation can cause damage.
- **Mixing Batteries:** Do not mix old and new batteries, or different types of batteries (e.g., alkaline and rechargeable).
- **Disposal:** Dispose of used batteries according to local regulations. Do not incinerate batteries.
- **Storage:** Remove batteries if the remote control will not be used for an extended period to prevent leakage.
- **Water Exposure:** Keep the remote control away from water and excessive moisture.

- **Children:** Keep batteries and the remote control out of reach of small children.

3. PACKAGE CONTENTS

Upon opening the package, you should find the following item:

- 1 x Generic Replacement Remote Control

Note: Batteries (2 AAA) and additional instructions are not included in the package and must be purchased separately.

4. SETUP

4.1. Battery Installation

1. Locate the battery compartment on the back of the remote control.
2. Slide the battery compartment cover downwards or in the direction indicated by an arrow to open it.
3. Insert two (2) AAA batteries, ensuring that the positive (+) and negative (-) terminals align correctly with the markings inside the compartment.
4. Replace the battery compartment cover by sliding it back into position until it clicks securely.

Note: Specific functions of each button may vary slightly depending on the exact model of your Twin Star Electric Fireplace Heater. Refer to your fireplace's original user manual for detailed information on its features.

6. MAINTENANCE

6.1. Cleaning the Remote Control

- Wipe the remote control with a soft, dry cloth.
- Do not use abrasive cleaners, solvents, or chemical sprays, as these can damage the surface or internal components.

6.2. Battery Replacement

If the remote control's range decreases or it becomes unresponsive, it is likely time to replace the batteries. Follow the battery installation steps outlined in Section 4.1.

- Always replace both AAA batteries at the same time.
- Ensure proper polarity when inserting new batteries.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Remote control is not working.	Dead or incorrectly installed batteries.	Replace batteries with new AAA batteries, ensuring correct polarity.
Remote control has limited range or intermittent response.	Weak batteries. Obstruction between remote and fireplace.	Replace batteries. Ensure a clear line of sight to the fireplace's infrared receiver.

Problem	Possible Cause	Solution
Specific button functions do not work as expected.	Compatibility issue with a specific fireplace model feature.	While this remote is broadly compatible, some advanced features of your specific fireplace model might not be fully supported. Refer to your fireplace's original manual.

If troubleshooting steps do not resolve the issue, ensure your fireplace heater is functioning correctly with its original controls (if available) or contact the manufacturer of your fireplace heater for assistance.
