ELENKER All-Terrain Rollator Walker

ELENKER All-Terrain Rollator Walker User Manual

Model: All-Terrain Rollator Walker

INTRODUCTION

This manual provides essential information for the safe and effective use of your ELENKER All-Terrain Rollator Walker. Please read these instructions carefully before assembly and first use. Keep this manual for future reference.

SAFETY INFORMATION

- Always ensure all parts are securely assembled and locked before use.
- Regularly check the brakes for proper function.
- Do not exceed the maximum weight capacity of 300 pounds.
- Use the rollator on stable, level surfaces. Exercise caution on uneven terrain.
- Engage the parking brakes before sitting on the seat.

- Do not use the rollator as a wheelchair or for transporting others.

ASSEMBLY AND SETUP

The ELENKER All-Terrain Rollator Walker is designed for straightforward assembly, often requiring no tools.

1. **Unfolding the Walker:** Carefully unfold the rollator until it clicks into its open position. Ensure all frame components are fully extended and locked.
2. **Handlebar Height Adjustment:** Locate the adjustment mechanisms on the handlebars. Press the release buttons or turn the knobs to adjust the handlebar height to a comfortable position. The handles should be at wrist level when standing upright with arms relaxed. Securely lock the handlebars in place after adjustment.
3. **Seat Height Adjustment:** If applicable, adjust the seat height to a comfortable level. Ensure the seat is securely locked before use.
4. **Brake Check:** Before first use, test both hand brakes. Squeeze the handgrips to engage the slowing mechanism. Push down on the handgrips to lock the parking brakes. Ensure the wheels are fully locked when the parking brakes are engaged.

For visual guidance on adjustments, refer to the video below.

OPERATING INSTRUCTIONS

Walking with the Rollator

To use the rollator for walking, stand behind it and grasp both handgrips firmly. Push the rollator forward a short distance, then step forward, maintaining a comfortable distance from the frame. Apply gentle pressure on the handgrips for support and balance.

Braking System

- **To Slow Down:** Squeeze the handgrips towards you to engage the slowing brakes. Release to resume normal movement.
- **To Lock Brakes (Parking Brake):** Push the handgrips down firmly until they click into the locked position. This will prevent the rollator from moving, allowing you to sit or stand securely. Pull the handgrips up to release the parking brakes.

Using the Seat

Before sitting, ensure the rollator is on a level surface and the parking brakes are fully engaged. Turn around and slowly lower yourself onto the padded seat. Use the backrest for support. To stand up, push off the seat and handgrips, ensuring the brakes

remain locked until you are stable.

FEATURES

- **8" Non-Pneumatic Wheels:** These durable wheels are designed for flexible maneuvering both indoors and outdoors, providing stability on various terrains including grass, gravel, dirt, and uneven sidewalks.

MAINTENANCE

- **Cleaning:** Wipe down the frame and seat with a damp cloth and mild soap. Avoid abrasive cleaners.
- **Wheel Inspection:** Periodically check the wheels for wear and tear. Ensure they rotate freely and are free of debris.
- **Brake Cables:** Inspect brake cables for fraying or damage. Ensure they are properly tensioned for effective braking.
- **Storage:** Store the rollator in a dry place away from direct sunlight and extreme temperatures. The rollator is foldable for compact storage.

TROUBLESHOOTING

- **Rollator is unstable:** Ensure all frame components are fully extended and locked. Check that the handlebar and seat height adjustment mechanisms are securely fastened.
- **Brakes are not working effectively:** Inspect brake cables for proper tension. If the brakes feel loose, they may need adjustment by a qualified technician. Ensure no debris is obstructing the brake mechanism.

- **Wheels are not rolling smoothly:** Check for debris (hair, lint, etc.) wrapped around the wheel axles. Clean as necessary. Ensure wheels are securely attached.

SPECIFICATIONS

Product Dimensions	32 x 24 x 36 inches
