## Yaheetech B0BQ67M7MR

# Yaheetech Rolling Kitchen Island Cart User Manual

Model: B0BQ67M7MR

## PRODUCT OVERVIEW

The Yaheetech Rolling Kitchen Island Cart is a versatile and stylish storage solution designed to enhance your kitchen or living space. It features a durable rubberwood top, multiple storage compartments including drawers, open shelves, and a double-door cabinet, all supported by hidden wheels for easy mobility. The design incorporates beadboard panels and soft-close hinges for both functionality and aesthetic appeal.

This utility cart offers ultra-large capacity, capable of holding up to 230 kg (507 lb) in total, with the countertop supporting up to 80 kg (176 lb). It provides ample space for kitchen appliances, culinary tools, food items, and more, helping to keep your space organized and clutter-free.

## SETUP AND ASSEMBLY

Assembly of the Yaheetech Rolling Kitchen Island Cart is required. For detailed step-by-step instructions, please refer to the official installation manual and video provided by the manufacturer.

Ensure all components are present before beginning assembly. A cordless drill may expedite the process, though a screwdriver can also be used. It is recommended to assemble the unit on a soft surface, such as a blanket, to prevent scratching, especially if working on wood or cement floors.

## OPERATING INSTRUCTIONS

The Yaheetech Kitchen Island Cart is designed for ease of use and maximum storage efficiency.

- **Storage Compartments:** Utilize the wide countertop for appliances, the large central drawer for frequently used

culinary tools, and the two side drawers for smaller items. The double-door cabinet and side open shelves are ideal for storing food, bottles, and jars.

- **Adjustable Shelves:** The interior shelves within the double-door cabinet and side open shelves are adjustable, allowing you to customize the storage space to fit items of various heights. Simply reposition the shelf pins to your desired level.
- **Mobility:** The cart is equipped with 4 hidden wheels for effortless movement. Two of these casters include locking mechanisms to secure the island in place when needed. To move, simply unlock the casters and push the island to its new location.
- **Soft-Close Hinges:** The cabinet doors feature soft-close hinges, ensuring quiet and gentle closing even if pushed with force. This mechanism prevents slamming and extends the lifespan of the doors.

## MAINTENANCE AND CARE

To ensure the longevity and appearance of your Yaheetech Kitchen Island Cart, follow these maintenance guidelines:

- Cleaning:** The rubberwood countertop and engineered wood frame are designed to be water-resistant and easy to clean. Wipe surfaces with a damp cloth and mild detergent. Avoid abrasive cleaners that may damage the finish.
- Spills:** Promptly clean up any spills, especially on the wooden countertop, to prevent staining or water damage.
- Weight Capacity:** Adhere to the maximum weight recommendations for the countertop (80 kg / 176 lb) and overall unit (230 kg / 507 lb) to prevent structural damage.
- General Care:** Avoid prolonged exposure to direct sunlight or extreme temperatures. Do not sit or stand on the countertop for safety reasons.

## Universal Wheels

4 hidden wheels at the bottom provide easy movement

### TROUBLESHOOTING

If you encounter any issues with your kitchen island cart, consider the following common solutions:

- **Wobbly Unit:** Ensure all screws and fasteners are tightened securely. If the unit still wobbles, check if it is placed on an uneven surface. Small padding pieces can be added to the bottom to stabilize it.
- **Drawers Not Sliding Smoothly:** Check the full extension metal slides for any obstructions or debris. Ensure they are properly aligned and lubricated if necessary.
- **Doors Not Closing Quietly:** The soft-close hinges may need adjustment. Refer to the installation manual for instructions on how to adjust the hinges to ensure proper alignment and soft closing.
- **Hidden Wheels Not Locking:** Verify that the locking mechanisms on the casters are fully engaged. If they are difficult to operate, ensure no debris is obstructing the mechanism.
