GoveeLife H7171

GoveeLife Smart Electric Kettle H7171 User Manual

Model: H7171

1. Introduction

Thank you for choosing the GoveeLife Smart Electric Kettle H7171. This manual provides essential information for the safe and efficient operation of your new appliance. Please read it thoroughly before first use and retain it for future reference.
The GoveeLife Smart Electric Kettle H7171 is designed to provide precise temperature control for various hot beverages, offering convenience through smart app and voice control features.

2. Important Safety Information

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and injury. Please read all instructions carefully.

- Do not touch hot surfaces. Use handles or knobs.
- To protect against fire, electric shock, and injury to persons, do not immerse cord, plugs, or the appliance in water or other liquid.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts, and before cleaning the appliance.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- The kettle features **automatic shut-off**, **dry boil protection**, and **over-temperature protection** for enhanced safety.
- Ensure the kettle is only connected to a **120V 60HZ voltage** power supply.
- Only connect to **2.4GHz Wi-Fi or Bluetooth** (5G is not supported).

3. Package Contents

Verify that all items are present and in good condition upon unpacking.

- GoveeLife Electric Kettle H7171
- Power Base
- Quick Start Guide
- User Manual (PDF available online)

4. Product Overview

Familiarize yourself with the components of your GoveeLife Smart Electric Kettle.

Image: GoveeLife Smart Electric Kettle H7171 shown with its power base and a smartphone displaying the GoveeLife app interface.

Image: Top-down view of the kettle's power base, highlighting the Mode Presets button (1), Temperature Decrease button (2), LCD Display (3), Temperature Increase button (4), and Power ON/OFF button (5).

- **Kettle Body:** Made with BPA-free food-grade 304 stainless steel for safety and durability.
- **Lid:** Features a one-button lid opening mechanism.
- **Spout:** Designed with an integrated filter for easy pouring.

- **Water Window:** A clear window on the side indicates water level.
- **Handle:** Ergonomically designed for comfortable grip.
- **Power Base:** Contains the heating element and control panel with an LCD display.

5. Setup

Follow these steps for initial setup of your electric kettle.

1. **Unpack:** Carefully remove all packaging materials and inspect the kettle for any damage.
2. **Placement:** Place the power base on a dry, flat, stable, and heat-resistant surface.
3. **Initial Cleaning:** Before first use, fill the kettle with water to the maximum level, boil it, and then discard the water. Repeat this process 2-3 times to remove any manufacturing residues.
4. **Power Connection:** Plug the power cord into a grounded 120V 60HZ electrical outlet.

6. Operating Instructions

Learn how to use your GoveeLife Smart Electric Kettle for various heating needs.

6.1 Filling the Kettle

- Press the lid release button to open the lid.
- Fill the kettle with fresh water between the MIN (0.5L) and MAX (1.7L) marks indicated on the water window. Do not overfill or underfill.
- Close the lid securely.

6.2 Basic Boiling

1. Place the kettle onto the power base.
2. Press the Power ON/OFF button (5) on the base. The kettle will begin heating to the default temperature (usually 212°F/100°C).
3. The LCD display (3) will show the real-time temperature.
4. Once the target temperature is reached, the kettle will automatically shut off and beep.

Image: The GoveeLife Smart Electric Kettle shown with water rapidly boiling inside, illustrating its 1500W rapid boil feature.

6.3 Temperature Control

The kettle offers precise temperature control from 104°F to 212°F.

1. **Preset Modes:** Press the Mode Presets button (1) to cycle through 4 preset temperatures (e.g., for Black Tea,

Green Tea, Coffee).

2. **Custom Temperature (DIY Mode):** Use the Temperature Increase (+) button (4) and Temperature Decrease (-) button (2) to adjust the target temperature in 1°F increments. This can also be customized via the app.
3. The LCD display will show the selected target temperature and the real-time water temperature.

Image: The GoveeLife Smart Electric Kettle surrounded by different beverages (formula, green tea, coffee, black tea) with their

recommended serving temperatures, demonstrating precise temperature control.

6.4 Keep Warm Function

The kettle can maintain the target temperature for up to 2 hours.

- After selecting your desired temperature and starting the heating process, activate the Keep Warm function via the GoveeLife app.
- The default keep warm time is 30-120 minutes (adjustable in the app).
- If the kettle is lifted from the base and returned within 3 minutes, it will automatically resume its previous heating or keep warm state (Memory Function).

7. App and Voice Control

Enhance your kettle experience with smart control features.

7.1 Connecting to the GoveeLife App

1. Download the GoveeLife app from the App Store or Google Play.
2. Create an account or log in.
3. Ensure your smartphone's Bluetooth is enabled and the kettle is plugged in.
4. In the app, tap the '+' icon to add a new device and follow the on-screen instructions to connect your kettle via Wi-Fi (2.4GHz only) or Bluetooth.

Image: The GoveeLife Smart Electric Kettle next to a smartphone showing the GoveeLife app, which allows users to set and monitor the kettle's temperature.

7.2 App Features

- **Scheduling:** Set specific times for the kettle to start boiling water.
- **Temperature Adjustment:** Precisely set and monitor the water temperature from your phone.
- **Keep Warm Settings:** Adjust the duration of the Keep Warm function.
- **Notifications:** Receive alerts when the water has reached its target temperature.
- **DIY Mode:** Customize temperature presets.
- **Infant Formula Mode:** Boils water first, then cools it to a safe temperature for infant formula.

7.3 Voice Control

Integrate your kettle with smart home assistants for hands-free operation.

- The GoveeLife Smart Electric Kettle is compatible with **Alexa** and **Google Assistant**.
- Follow the instructions in the GoveeLife app to link your kettle to your preferred voice assistant.
- Once linked, you can use voice commands such as: "Alexa, set the smart kettle to 212 degrees."

8. Maintenance and Cleaning

Regular cleaning ensures optimal performance and longevity of your kettle.

8.1 Exterior Cleaning

- Unplug the kettle and allow it to cool completely.
- Wipe the exterior with a soft, damp cloth. Do not use abrasive cleaners or scouring pads.
- Ensure the power base and electrical connections remain dry.

8.2 Interior Cleaning (Hand Wash)

The kettle interior is made of BPA-free food-grade 304 stainless steel, which is durable and easy to clean.

- Unplug the kettle and allow it to cool.
- Fill the kettle with water and a small amount of mild dish soap.
- Gently scrub the interior with a soft sponge or brush.
- Rinse thoroughly with clean water, ensuring all soap residue is removed.
- Do not immerse the kettle body or power base in water.

Image: A detailed view of the kettle's interior, highlighting the BPA-free 304 stainless steel lining, the integrated filter in the spout, the water level window, and the one-button lid opening mechanism.

8.3 Descaling

Mineral deposits (limescale) can build up inside the kettle over time, especially in hard water areas. Descale regularly to maintain efficiency.

- Fill the kettle with a mixture of equal parts water and white vinegar (or a commercial descaling solution).
- Boil the mixture and let it stand for at least 30 minutes, or longer for heavy buildup.
- Discard the mixture and rinse the kettle thoroughly several times with fresh water.
- Boil fresh water once or twice and discard to remove any residual vinegar taste.

9. Troubleshooting

Refer to this section for solutions to common issues.

Problem	Possible Cause	Solution
Kettle does not turn on or heat.	Not plugged in; power outage; kettle not properly seated on base; dry boil protection activated.	Ensure kettle is plugged into a working outlet. Check power supply. Reseat kettle firmly on the base. If dry boil protection activated, allow kettle to cool before refilling with water.
Water not reaching desired temperature.	Incorrect temperature setting; limescale buildup.	Verify temperature setting on the kettle or app. Descale the kettle if necessary.
App connection issues (Wi-Fi/Bluetooth).	Incorrect Wi-Fi band; Bluetooth off; app not updated; kettle too far from router.	Ensure you are connecting to 2.4GHz Wi-Fi (5G is not supported). Turn on Bluetooth. Update the GoveeLife app. Move kettle closer to your Wi-Fi router. Restart your phone, router, and kettle.
Kettle beeps continuously or shows error.	Dry boil protection activated (no water detected).	This indicates the kettle has detected insufficient water. Unplug, allow to cool, then refill with water. If the issue persists after refilling, contact customer support.
Water has an unusual taste.	New kettle residue; limescale buildup.	Perform initial cleaning steps (boil and discard water several times). Descale the kettle.

10. Specifications

Feature	Detail
Brand	GoveeLife
Model Name	H7171
Color	Black
Capacity	1.7 Liters / 7 Cups
Power	1500W
Voltage	120V 60HZ
Temperature Range	104°F - 212°F

Feature	Detail
Keep Warm Duration	Up to 2 hours (adjustable via app)
Material	BPA-free Food-Grade 304 Stainless Steel
Connectivity	Wi-Fi (2.4GHz only), Bluetooth
Special Features	APP Control, Voice Control (Alexa, Google Assistant), Automatic Shut-Off, Boil Dry Protection, Over-Temperature Protection, Rapid Boil, Temperature Control, Digital Screen Display
Product Dimensions	8.31"L x 9.53"W x 8.74"H
Item Weight	4.41 Pounds
UPC	810127731240

11. Warranty and Support

GoveeLife products are designed for reliability and performance. For warranty information or technical support, please refer to the official GoveeLife website or contact their customer service directly.
