GoveeLife H7100

GoveeLife 42 Inch Smart Tower Fan User Manual

Model: H7100

Brand: GoveeLife

INTRODUCTION

This user manual provides comprehensive instructions for the GoveeLife 42 Inch Smart Tower Fan (Model H7100). It covers setup, operation, maintenance, and troubleshooting to ensure optimal performance and longevity of your device. Please read this manual thoroughly before using the fan.

PRODUCT OVERVIEW

The GoveeLife 42 Inch Smart Tower Fan is designed to provide efficient and customized cooling with smart control capabilities. Key features include:

- **Upgraded Version:** Features a stable base for steady and safe airflow up to 25 ft/s.
- **Smart App & Voice Control:** Connects to Wi-Fi, Alexa, and Google Assistant for convenient control anywhere, anytime.
- **Auto Mode:** Automatically adjusts fan speed based on ambient temperature via a built-in sensor.
- **Efficient Customized Cooling:** Offers 4 modes (Normal, Natural, Sleep, Auto) and 8 speeds with 80° wide airflow coverage.
- **Quiet and Refreshing Sleep:** Operates at a low 27dB noise level in sleep mode and includes an aromatherapy box for essential oils.

Package Contents

Ensure all components are present before assembly:

- Tower Fan H7100
- Stand
- User Manual

- Base Plates
- Hold-down Nut

Product Diagram

SETUP

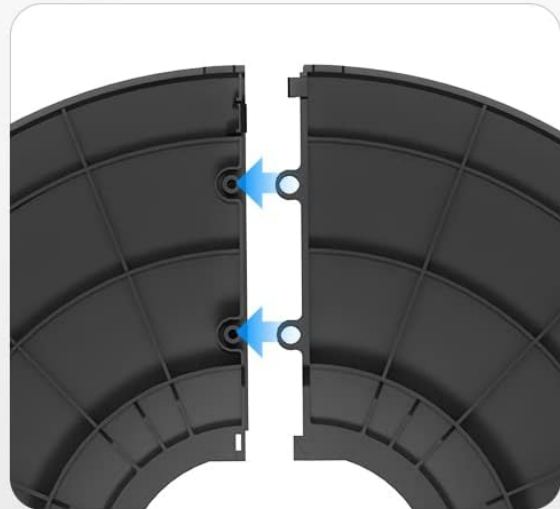

Assembly

Follow these steps to assemble the fan base:

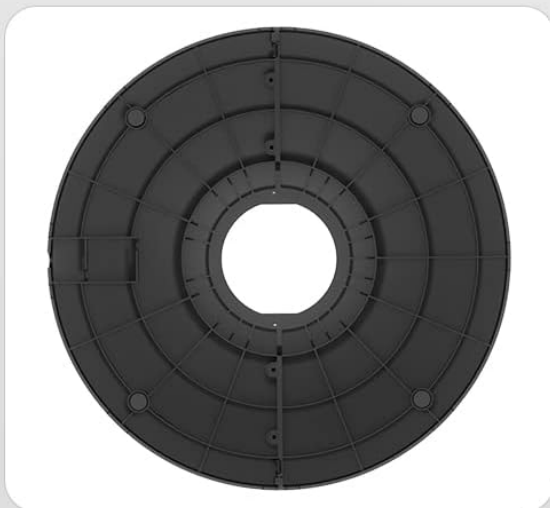

How to Install Base Plate

- 1 Assemble the front base plate and the rear base together as a whole.

- 2 Align 4 pins and 2 clips.

- 3 Vertical installation on a flat surface.

Note: When disassembling, please unclip FIRST.

Figure 2: Base Plate Installation Guide. This diagram shows the process of assembling the front and rear base plates, aligning pins and clips, and performing vertical installation on a flat surface. Remember to unclip first when disassembling.

1. Assemble the front base plate and the rear base together as a whole.
2. Align the 4 pins and 2 clips to securely connect the base plates.
3. Perform vertical installation on a flat, stable surface.
4. *Note: When disassembling, please unclip the base plates FIRST.*

Initial Placement

Place the assembled tower fan on a firm, level surface. Ensure there is adequate space around the fan for optimal

airflow and oscillation. Avoid placing it near curtains or objects that could obstruct the air intake or output.

OPERATING INSTRUCTIONS

Control Panel Overview

Your browser does not support the video tag.

Video: How to Connect H7100 Tower Fan to Wi-Fi and Link with Alexa. This video demonstrates the process of connecting the GoveeLife H7100 Smart Tower Fan to your Wi-Fi network and integrating it with Amazon Alexa for voice control.

The fan features an intuitive control panel located on its top. It includes buttons for power, mode selection, speed adjustment, oscillation, and timer settings. All functions can also be controlled via the Govee Home App.

Modes and Speeds

8 Speeds & 4 Modes

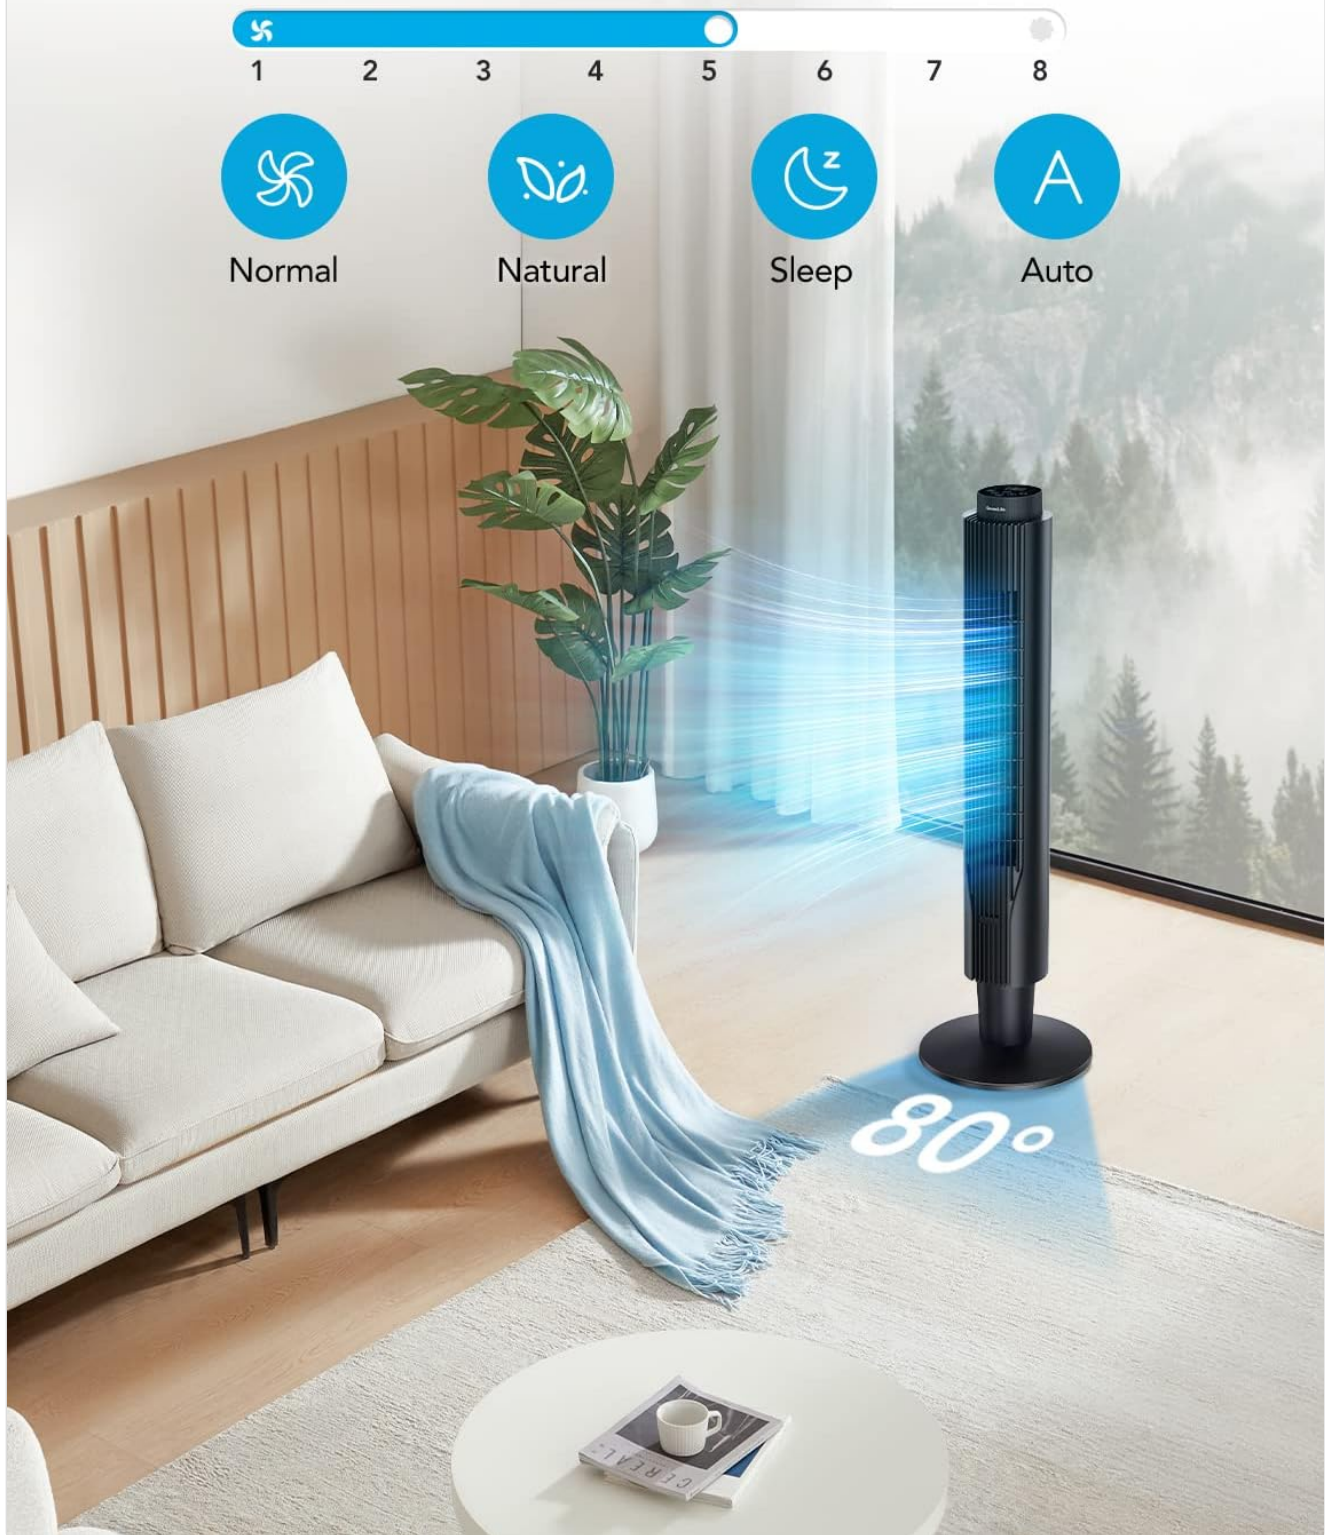

Figure 3: Fan Modes and Speeds. The fan offers 8 adjustable speed levels and 4 distinct modes: Normal, Natural, Sleep, and Auto, providing versatile cooling options.

The fan offers 8 speed settings and 4 operational modes:

- **Normal Mode:** Provides a consistent airflow at your selected speed.
- **Natural Mode:** Simulates natural breeze by varying fan speed.
- **Sleep Mode:** Operates at a low noise level (27dB) with display off for undisturbed sleep.
- **Auto Mode:** Adjusts fan speed automatically based on the ambient temperature detected by the built-in sensor.

Control without Limits

Connect voice assistants and APP for quick cooling

Figure 4: Control without Limits. This image highlights the fan's compatibility with voice assistants like Google Assistant and Alexa, and control via the Govee Home APP, enabling convenient remote operation.

The GoveeLife Smart Tower Fan can be controlled remotely via the Govee Home App and integrated with voice assistants like Amazon Alexa and Google Assistant. Download the Govee Home App from your device's app store to access features such as scheduling, 24-hour timer, mode and speed adjustments, and more.

Auto Mode Operation

Figure 5: Auto Mode for All-day Comfort. The fan's built-in sensor allows it to automatically change wind speed with temperature fluctuations, ensuring continuous comfort from night to noon.

In Auto Mode, the fan utilizes its built-in temperature sensor to detect ambient temperature changes. It will automatically adjust its speed to maintain a comfortable environment. This mode is ideal for adapting to varying room temperatures throughout the day, especially when paired with a thermohygrometer for enhanced accuracy.

Aromatherapy Diffuser

Figure 6: Aromatherapy Diffuser. This image demonstrates how to add essential oils to the fan's integrated aromatherapy box for a more relaxing environment.

The fan includes an innovative aromatherapy box. To use, open the box, add a few drops of your favorite essential oil onto the provided pad (or a cotton pad), and close the box. The fan's airflow will diffuse the scent, creating a more pleasant atmosphere.

Timer Function

The fan features a 24-hour timer. You can set the fan to automatically turn off after a specified period, ranging from 1 to 24 hours. This is useful for energy saving or for ensuring the fan operates only for a desired duration.

Sleep Mode

Peaceful Night's Sleep

Sleep mode for a cool, quiet night with you

Display Off

27dB

24H Timer

Figure 7: Peaceful Night's Sleep. Sleep mode ensures a cool, quiet night with features like display off, low 27dB noise, and a 24-hour timer.

Designed for minimal disturbance, the Sleep Mode reduces the fan's noise level to a quiet 27dB. Additionally, the display lights can be turned off to prevent any light pollution, ensuring a restful night's sleep.

MAINTENANCE

Cleaning the Fan

Your browser does not support the video tag.

Video: How to Clean H7100 Smart Tower Fan. This video provides detailed instructions on how to properly clean your GoveeLife H7100 Smart Tower Fan to maintain its performance and hygiene.

Regular cleaning helps maintain the fan's efficiency and extends its lifespan. Always unplug the fan before cleaning.

- Use a soft, damp cloth to wipe down the exterior surfaces.
- For dust accumulation in the air intake/output vents, use a vacuum cleaner with a brush attachment or compressed air.
- Do not use abrasive cleaners or solvents, as they may damage the fan's finish.
- Ensure the fan is completely dry before plugging it back in.

Storage

When not in use for extended periods, store the fan in a cool, dry place, preferably in its original packaging to protect it from dust and damage.

TROUBLESHOOTING

If you encounter issues with your GoveeLife Smart Tower Fan, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Fan does not turn on.	No power supply; Power button not pressed.	Ensure the power cord is securely plugged into a working outlet. Press the power button on the control panel or via the app.
Weak airflow.	Air vents are blocked; Fan speed is too low.	Clean the air intake and output vents. Increase the fan speed setting.
Fan is noisy.	Fan is not on a level surface; Internal components are dirty.	Place the fan on a flat, stable surface. Clean the fan as per maintenance instructions. If noise persists, contact customer support.
Cannot connect to Wi-Fi/App.	Incorrect Wi-Fi password; 5GHz Wi-Fi network; App issues.	Ensure correct Wi-Fi password. The fan only supports 2.4GHz Wi-Fi. Restart the fan and your router. Reinstall the Govee Home App if necessary.

SPECIFICATIONS

Attribute	Detail
Brand	GoveeLife
Model Name	H7100
Color	Black
Electric Fan Design	Floor Fan
Power Source	AC

Attribute	Detail
Product Dimensions	8.74"D x 8.58"W x 41.92"H
Noise Level	27 dB
Wattage	55 watts
Air Flow Capacity	330 Cubic Feet Per Minute
Speed	25 Feet Per Second
Voltage	120V
Control Method	App, Touch, Voice
Blade Material	Plastic
Number of Power Levels	8
Item Weight	11.38 pounds
UPC	810127731264
