WOPET Fv01 Plus-grey

WOPET Automatic Pet Feeder with Camera User Manual

Model: Fv01 Plus-grey | Brand: WOPET

1. Product Overview

The WOPET Automatic Pet Feeder with Camera is designed to provide convenient and reliable feeding for your pets. Featuring smart app control, an HD camera for monitoring, and a generous 7L food capacity, it ensures your pet is fed on schedule and allows for remote interaction.

2. Setup Guide

2.1 Unboxing and Components

Carefully remove all components from the packaging. Ensure you have the following items:

- WOPET Automatic Pet Feeder Unit
- Stainless Steel Food Bowl
- Power Adapter and USB Cable
- User Manual (this document)

Image: All components included with the WOPET Automatic Pet Feeder, including the main unit, food bowl, power adapter, and USB cable.

2.2 Power Supply

The feeder can be powered by the included power adapter or 3 D-cell batteries (not included) for backup. For optimal reliability, it is recommended to use both power sources simultaneously.

1. Connect the USB cable to the feeder's power input port located at the bottom.

2. Plug the power adapter into a standard wall outlet.
3. (Optional) Open the battery compartment on the bottom of the feeder and insert 3 D-cell batteries, ensuring correct polarity.

2.3 App Download and Connection

Control your feeder remotely using the WOPET App (iOS) or WOpet Smart App (Android). The feeder is compatible with both 2.4G and 5G networks.

1. Download the appropriate app for your device:

   WOPET App for iOS

   WOpet Smart App for Android

2. Follow the in-app instructions to register an account and add your WOPET feeder.
3. Ensure your Wi-Fi network is stable and within range for seamless connection.

Image: Screenshots showing the WOPET app available on the App Store and Google Play for easy download and setup.

2.4 Loading Food

The feeder has a 7L (29-cup) capacity. Use dry pet food only.

1. Open the top lid of the feeder.
2. Pour dry pet food into the food storage compartment. Do not overfill.
3. Close the lid securely to maintain food freshness and prevent pets from accessing it.

3. Operating Instructions

3.1 Scheduling Meals via App

Effortlessly schedule your pet's meals from anywhere using the WOPET App.

- Open the WOPET App on your smartphone.
- Select your feeder device from the main screen.
- Navigate to the "Feeding Schedule" section.
- Set up to 6 meals per day, customizing the time and portion size (up to 20 portions per meal) according to your pet's dietary needs.
- Save your settings. The feeder will automatically dispense food at the scheduled times.

3.2 HD Camera and Two-Way Audio

The built-in HD camera allows you to monitor your pet and interact with them remotely.

- From the app, access the live camera feed to watch your pet.
- Use the two-way audio feature to speak to your pet or listen to their sounds.

- Capture photos or record videos of your pet directly from the app and share them on social media.

3.3 Personalized Voice Messages

Record a 10-second voice message that will play during meal times to comfort your pet.

- In the app, go to the voice recording settings.
- Record your personalized message (e.g., "Hey, baby, come here for your lunch!").

- The feeder will play this message to remind your pet when it's time to eat.

4. Maintenance

4.1 Cleaning the Feeder

Regular cleaning ensures hygiene and optimal performance of your feeder. The food tank and bowls are detachable for easy cleaning.

1. Unplug the feeder from the power source and remove any batteries.
2. Detach the food tank and the stainless steel food bowl.
3. Wash the food tank and bowl with mild soap and water. Rinse thoroughly.
4. Wipe the main unit with a damp cloth. Do not immerse the main unit in water.
5. Ensure all parts are completely dry before reassembling.

Image: Illustration showing the detachable food tank and bowls being removed for thorough cleaning, highlighting the ease of maintenance.

5. Troubleshooting

If you encounter issues with your WOPET feeder, please refer to the following common solutions:

- **Feeder not dispensing food:**
  - Check if the feeder is properly powered (adapter plugged in, batteries inserted).
  - Ensure the food tank is not empty.
  - Verify that the feeding schedule is correctly set in the app.
  - Check for food jamming. The infrared sensor prevents jamming and will alert you via the app.
- **App connectivity issues:**
  - Ensure your Wi-Fi network is active and stable (2.4G or 5G compatible).
  - Restart your Wi-Fi router and the feeder.
  - Make sure your smartphone is connected to the same Wi-Fi network during initial setup.
  - Update the WOPET App to the latest version.

- **Camera not working:**
  - Check app permissions for camera access on your smartphone.
  - Ensure the feeder has a stable internet connection.
  - Restart the feeder and the app.
