

REDTIGER F7NS

REDTIGER F7NS Dash Cam User Manual

Comprehensive instructions for setting up, operating, and maintaining your REDTIGER F7NS 4K Dash Camera with Wi-Fi and GPS.

1. INTRODUCTION

Thank you for choosing the REDTIGER F7NS Dash Cam. This manual provides detailed instructions to help you install, operate, and maintain your device, ensuring optimal performance and a safe driving experience. The F7NS features 4K UHD recording, Wi-Fi, GPS, night vision, and a super capacitor for reliable operation.

Image 1.1: The REDTIGER F7NS Dash Cam, showing its compact design, included Circular Polarizing Lens (CPL), and a smartphone displaying the companion app interface with live view and GPS tracking.

2. PACKAGE CONTENTS

Please check the package for the following items:

- REDTIGER F7NS Dash Cam
- Suction Cup Mount
- Car Charger with USB Cable
- Circular Polarizing Lens (CPL)
- GPS Module (integrated with mount or separate)
- User Manual

3. SETUP

3.1 MicroSD Card Installation

1. Ensure the dash cam is powered off.
2. Insert a high-speed (Class 10 or higher, U3 recommended) MicroSD card into the card slot until it clicks into place.
3. To remove, gently push the card in until it springs out.

3.2 Mounting the Dash Cam

1. Clean the windshield area where you intend to mount the dash cam.
2. Attach the suction cup mount to the dash cam.
3. Press the suction cup firmly against the windshield and flip the lever to secure it.
4. Adjust the camera angle to ensure a clear view of the road.

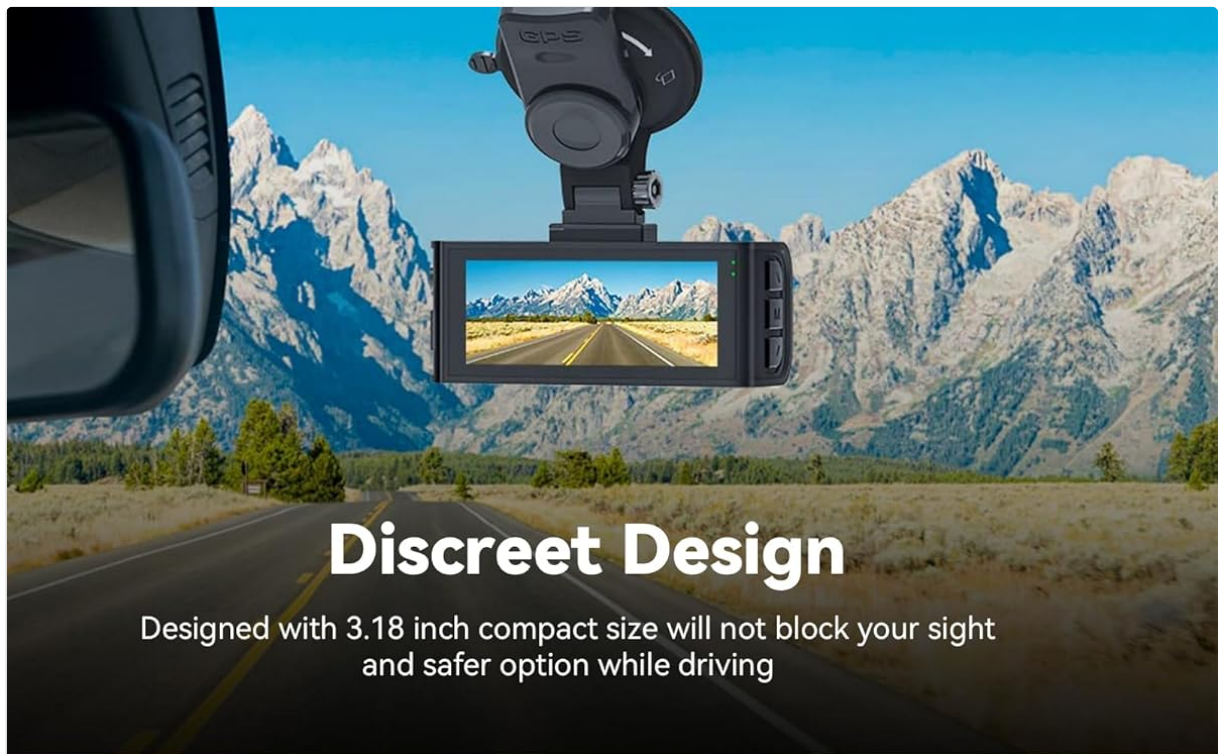

Image 3.1: The REDTIGER F7NS Dash Cam installed on a car windshield, demonstrating its discreet placement that does not obstruct the driver's view.

3.3 Power Connection

1. Connect the car charger to the dash cam's power input port.
2. Plug the other end of the car charger into your vehicle's cigarette lighter socket.
3. Route the power cable neatly along the windshield edge and dashboard to avoid interference with

driving.

3.4 Circular Polarizing Lens (CPL) Attachment

The CPL helps reduce glare and reflections from the windshield and road surface, improving video clarity.

1. Gently attach the CPL to the front lens of the dash cam.
2. Rotate the CPL while observing the live view on the dash cam screen or app to find the optimal position for glare reduction.

Image 3.2: A close-up view of the Circular Polarizing Lens (CPL) for the REDTIGER F7NS Dash Cam, designed to reduce glare.

REDUCE REFLECTIONS

Image 3.3: A visual comparison demonstrating the effect of the CPL lens, showing significantly reduced reflections on a car's surface when the CPL is used.

4. OPERATING INSTRUCTIONS

4.1 Powering On/Off

- **Automatic Operation:** The dash cam will automatically power on and begin recording when your vehicle's engine starts and power is supplied. It will power off automatically when the engine is turned off.
- **Manual Operation:** Press and hold the power button to manually turn the dash cam on or off.

4.2 Recording Modes

- **Loop Recording:** The dash cam records video in continuous loops (e.g., 1, 3, or 5 minutes). When the MicroSD card is full, the oldest unlocked files are overwritten automatically.
- **Emergency Recording (G-Sensor):** In the event of a sudden impact or collision, the built-in G-sensor will detect the event and automatically lock the current video segment, preventing it from being overwritten by loop recording.

Image 4.1: Visual representation of the G-Sensor activating emergency recording and the continuous loop recording function, alongside the 24-hour parking monitoring feature.

4.3 Wi-Fi Connectivity & Smartphone App

The REDTIGER F7NS features built-in Wi-Fi for seamless connection to your smartphone.

1. Download the REDTIGER app from your smartphone's app store (available for Android and iOS).
2. On the dash cam, enable Wi-Fi through the menu settings.
3. Connect your smartphone to the dash cam's Wi-Fi network (SSID and password displayed on the dash cam screen).
4. Use the app for live preview, video playback, downloading files, and managing device settings.

Image 4.2: The REDTIGER smartphone app interface, illustrating Wi-Fi connectivity for video management and GPS functionality for tracking driving routes and speed.

4.4 GPS Functionality

The integrated GPS module records your driving location and speed, providing valuable data for accident reconstruction or travel logging.

- GPS data is embedded in the video files.
- Use the REDTIGER app or a compatible GPS viewer software (for Windows/Mac) to view your driving route on Google Maps.

4.5 Parking Monitoring (24 Hours)

With a hardwire kit (sold separately), the F7NS can monitor your vehicle 24/7.

- When the vehicle is parked, the dash cam can enter time-lapse recording mode or trigger recording upon detecting impact.
- This feature provides continuous surveillance for your parked vehicle.

4.6 Night Vision & WDR

The F7NS is equipped with an F1.5 large aperture lens and WDR (Wide Dynamic Range) technology for enhanced low-light performance.

- Automatically adjusts exposure to capture clear details in challenging lighting conditions, such as at night or in tunnels.
- Ensures license plates and road signs are visible even in low light.

4K UHD for Sharp Details
Enhanced Night Vision with WDR

Provides you top quality videos and excellent visual experience.

ULTRA HD**

Image 4.3: Key features of the REDTIGER F7NS Dash Cam, highlighting 4K UHD resolution, enhanced night vision with WDR technology, a 170-degree wide angle, and F1.5 aperture.

4.7 Super Capacitor

The F7NS utilizes a super capacitor instead of a traditional lithium-ion battery.

- Provides enhanced durability and safety, especially in extreme temperatures (from -4°F to 158°F).
- Reduces the risk of overheating and extends the device's lifespan.

Image 4.4: An illustration demonstrating the extreme temperature resistance of the built-in super capacitor, capable of operating in temperatures ranging from -4°F to 158°F.

5. MAINTENANCE

5.1 Cleaning the Device

- Use a soft, dry cloth to clean the dash cam body and screen.

- For the lens, use a specialized lens cleaning cloth and solution to avoid scratches.
- Do not use abrasive cleaners or solvents.

5.2 MicroSD Card Formatting

Regularly format your MicroSD card (at least once a month) to ensure optimal performance and prevent data corruption.

1. Access the menu settings on your dash cam.
2. Navigate to the 'Format' option for the MicroSD card.
3. Confirm the formatting process. All data on the card will be erased.

6. TROUBLESHOOTING

- **Dash Cam not powering on:** Check the power connection to the car charger and ensure the vehicle's cigarette lighter socket is functioning.
- **Recording stops or freezes:** Format the MicroSD card. Ensure you are using a high-speed (Class 10, U3) MicroSD card. Replace the card if the issue persists.
- **Video quality is poor:** Clean the lens. Ensure the CPL is correctly adjusted to reduce glare. Check that the protective film has been removed from the lens.
- **Wi-Fi connection issues:** Ensure Wi-Fi is enabled on the dash cam and your smartphone. Try restarting both devices.
- **GPS not tracking:** Ensure the GPS module has a clear view of the sky. Check GPS settings in the dash cam menu.

7. SPECIFICATIONS

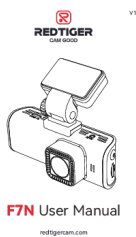

- **Model Name:** F7NS
- **Brand:** REDTIGER
- **Video Capture Resolution:** Up to 4K (3840x2160P@30fps), 2560x1440P@60fps, 1920x1080P@120fps
- **Field of View:** 170 Degrees
- **Connectivity Technology:** Wi-Fi
- **Display:** 3.16 inch LCD Screen
- **Optical Sensor Technology:** CMOS
- **Control Method:** App
- **Mounting Type:** Suction Mount
- **Power Source:** Super Capacitor
- **Operating Temperature:** -4°F to 158°F
- **Included Components:** Suction Cup, CPL

8. WARRANTY AND SUPPORT

REDTIGER products come with a standard manufacturer's warranty. Please refer to the warranty card included in your package or visit the official REDTIGER website for detailed warranty terms and conditions.

For technical support, troubleshooting assistance, or any inquiries regarding your REDTIGER F7NS Dash Cam, please contact REDTIGER customer service through their official website or the contact information provided in your product packaging.

Please read me before installation

Dear customer,
many thanks for choose REDTIGER F7N Dash Cam,
here a few tips before installation.

A. Warm Tips:

1. Important! Please use the original power cable provided in package, do not use other power cables. Other power cable may make the camera unstable even damaged.

2. Do not use Socket distributor.

3. Please tear off the films on the screen and lens before using.

4. The original cable for rear camera is 20ft (fit most cars and trucks), if the cable is not long enough for your car, please contact us for a longer cable.

5. If you want to play the GPS track on your computer, please Download Player on links below:
http://www.gpsplayer.net/setup.html
or when you insert the SD card,a TXT file records the download link will be generated in the SD card.

6.We suggest to install the rear camera in the car. Because the windshield glass and film will decrease the color saturation and sharpness of the video.

Q&A:

Q1:SD Card error occurs.

A1:Format the SD card or replace the SD card.
NOTE: Class 10, U3 Speed Micro-SD Card for 4K Video is required. We recommend SAMSUNG Class 10, U3 Speed Micro-SD Card . Please DONT USE any "SanDisk Ultra" or "Generic Class 10 for HD Video" Cards from third party sellers.They are NOT made for 4K high-end dash cam.If you have any problems about SD card, please tell us and we will support you to solve.Avoid fake cards.

Q2:Can't connect wifi or open the app.

A2: Please find the app QR code on setting menu: product setting-app download.
Turn the WIFI on(Turn the wifi menu on or long press the UP button to turn on),
and find the WLAN on your phone and link it (password: 12345678 or check it on the screen on dash cam).
We have tested almost all common smartphones with Android, ios system on the market. If there still has problems connecting to the app, please feel free to contact us. We will give technical support.

Q3:Rear camera does not display.

A3:Review the connection of each cable.If there still has problem, feel free to contact us for a new rear camera.
