Instruction Manual for Azwok AR-RAE1E Replacement Remote Control

Model: AU-AR-RAE1E-FJ006

Introduction

This manual provides comprehensive instructions for the Azwok AR-RAE1E Replacement Remote Control, designed for use with various Fujitsu Air Conditioner models. This remote is a direct replacement, offering all major functions of the original unit without requiring any programming.

Compatible Fujitsu Air Conditioner Models:

- ASYA07LGC
- ASYA14LGC
- AOYR07LGC
- AOYR09LGC
- AOYR14LGC
- ASYA09LGC
- ASYA12LGC

If your specific model is not listed, or if your original remote differs significantly, please contact customer support for compatibility verification.

Setup

Battery Installation

The Azwok AR-RAE1E remote control requires two (2) AAA batteries for operation. Batteries are not included with the remote control.

1. Locate the battery compartment cover on the back of the remote control.
2. Slide the cover downwards to open the compartment.
3. Insert two AAA batteries, ensuring that the positive (+) and negative (-) terminals align correctly with the markings inside the compartment. Incorrect polarity can prevent the remote from functioning.
4. Slide the battery compartment cover back into place until it clicks securely.

Image: Rear view of the remote control with the battery cover removed, illustrating the correct orientation for inserting two AAA batteries.

REMOTE CONTROL UNIT
MODEL:AR-RAE1E
BATTERY:AAA/R03/LR03x2
•Do not mix old with new batteries.and do not use batteries of different types together.
•Insert batteries.taking care to align the （+）and （−） polarities correctly

Image: Close-up of the back of the remote control, displaying the label with battery type (AAA/R03/LR03x2) and warnings about mixing old/new or different battery types.

Once batteries are installed, the remote is ready for immediate use. No programming or pairing is required.

Operating Instructions

The Azwok AR-RAE1E remote control is designed to replicate the functionality of your original Fujitsu air conditioner remote. Point the remote directly at the air conditioner unit when operating.

Button Functions Overview

Button	Function
START/STOP	Turns the air conditioner unit ON or OFF.
MODE	Cycles through operating modes (e.g., Auto, Cool, Dry, Fan, Heat).
FAN	Adjusts the fan speed (e.g., Auto, Low, Medium, High).
SET TEMP. (▲ / ▼)	Increases or decreases the desired temperature setting.
SWING	Controls the vertical airflow direction or activates/deactivates the auto-swing function.
TIMER MODE	Activates or adjusts timer settings for automatic ON/OFF operations.
10°C HEAT	Activates a low-temperature heating mode, typically to prevent freezing in unoccupied rooms.
COIL DRY	Runs the fan to dry the indoor unit's coil, preventing mold and odors.
SLEEP	Activates a sleep mode, which typically adjusts temperature and fan speed for comfortable sleep and energy saving.
ECONOMY	Engages an energy-saving mode, optimizing performance for lower power consumption.
CLOCK ADJUST	Used to set the current time on the remote's display.

Button	Function
TEST RUN	Initiates a test operation of the air conditioner unit (typically for service or installation checks).
RESET	Resets the remote control to its default settings.

Note: Not all functions may be available on every Fujitsu air conditioner model. Refer to your air conditioner's manual for specific feature compatibility.

Maintenance

Cleaning the Remote Control

- Wipe the remote control with a soft, dry cloth.
- Do not use liquid cleaners, abrasive cleaners, or chemical sprays, as these can damage the remote's surface or internal components.

Battery Replacement

- Replace batteries when the remote's operating range decreases or the display becomes dim.
- Always replace both batteries at the same time with new AAA batteries.
- Do not mix old and new batteries, or different types of batteries (e.g., alkaline and rechargeable).
- Remove batteries if the remote control will not be used for an extended period to prevent leakage and damage.

Storage

Store the remote control in a cool, dry place away from direct sunlight, extreme temperatures, and high humidity.

Troubleshooting

Problem	Possible Cause	Solution
Remote control not working.	Dead or incorrectly installed batteries.	Replace batteries with new AAA batteries, ensuring correct polarity (+/-).
Remote control range is poor.	Weak batteries; Obstruction between remote and AC unit; Infrared sensor on AC unit is blocked.	Replace batteries; Ensure clear line of sight to AC unit; Clean AC unit's infrared sensor.
Specific functions not responding.	Function not supported by your AC model; Remote needs reset.	Consult your AC unit's manual; Press the RESET button on the remote (if available).

Problem	Possible Cause	Solution
LCD display is dim or blank.	Low battery power.	Replace batteries.

If troubleshooting steps do not resolve the issue, please contact customer support.

Specifications

Feature	Detail
