SAFETY INFORMATION

WARNING: CHOKING HAZARD - Small parts. Not for children under 3 years.

The Magic Mist solution contains vegetable glycerin. While generally safe, avoid direct contact with eyes or

mouth. In case of accidental ingestion or eye contact, rinse thoroughly with water and seek medical attention if irritation persists. Do not drink the mist solution. Keep out of reach of small children and pets.

SETUP: REFILLING YOUR MAGIC GENIE LAMP

Before refilling, ensure your Magic Mixies Magic Genie Lamp is turned off and unplugged. Refer to your Magic Genie Lamp's instruction manual for specific details on locating the refill hole.

1. **Prepare the Refill Vial:** Carefully remove the cap from one Magic Mist Refill Vial. The vial has a small nozzle designed for easy insertion.
2. **Locate Refill Hole:** Identify the designated mist refill hole on your Magic Mixies Magic Genie Lamp. This is typically a small opening on the lamp's body.
3. **Insert and Squeeze:** Gently insert the tip of the refill vial into the lamp's refill hole. Apply a gentle, steady squeeze to the vial to transfer the mist solution into the lamp. Do not overfill.
4. **Secure the Lamp:** Once refilled, remove the vial and securely close any refill covers or caps on your Magic Genie Lamp.

OPERATING INSTRUCTIONS

After successfully refilling your Magic Genie Lamp with the Magical Mist Refill Pack, you can resume normal operation of the lamp to create magical mist effects. For detailed instructions on operating the

Magic Genie Lamp itself, please consult its original instruction manual.

Creating Mist with the Genie Lamp:

- Ensure the lamp is powered on and in the correct mode for mist generation.
- Follow the interactive steps outlined in your Magic Genie Lamp's manual, such as rubbing the lamp or performing specific actions, to activate the mist.
- The newly added mist solution will enable the lamp to produce mist for approximately 80 or more misting moments.

MAINTENANCE

To ensure the longevity and effectiveness of your Magic Mist Refill Vials:

- Store unused vials in a cool, dry place away from direct sunlight.

- Keep the caps securely on the vials when not in use to prevent evaporation.
- Do not dilute the mist solution with water or any other liquids, as this may affect performance and safety.

TROUBLESHOOTING

If your Magic Genie Lamp is not producing mist after refilling, consider the following:

- **Check Refill Level:** Ensure the lamp has been adequately refilled with the mist solution.
- **Lamp Functionality:** Verify that the Magic Genie Lamp itself is functioning correctly, including power and mode settings. Refer to the lamp's original manual.
- **Proper Insertion:** Confirm that the refill vial was inserted correctly into the lamp's refill hole and that the solution was successfully transferred.

If issues persist, please contact the manufacturer's customer support for further assistance.

SPECIFICATIONS
