### 3. INSTALLATION INSTRUCTIONS

Follow these steps carefully for optimal application of your screen protector:

1. **Clean the screen:** First, wipe the surface of the screen clean with the wet wipe (included in the package). Then, use the dry paper, and finally clean the display using the microfiber cloth.
2. **Remove back stick 1:** This watch foil consists of three layers. Put the text side up, and first peel off the bottom layer (labeled '1').
3. **Align and stick:** Carefully align the edge of the screen protector with one side of your smartwatch screen and gently stick it down.
4. **Apply evenly:** When installing, use a card (or similar flat object) to push from one side to the other, ensuring even application. Simultaneously, tear off the sticker 1 completely.

5. **Press entire screen:** Press the entire screen protector firmly with your hand, working from the center outwards to the edges.
6. **Remove stick 2:** Gently peel off the top layer (labeled '2') to finish the application. If there are any bubbles, use your hand to gently push them towards the edges until they disappear.

## Installation Instructions

1:Clean the screen:use wet paper first, second use the dry paper, last clean the display use the fiber cloth

2:Remove back stick 1

3:Align the edge of the screen and stick to one side

4:When installing,use a card push from one side to the other,and tear off the sticker 1 at the same time

5:Prees the entire screen with your hand to the edge

6:Remove the stick 2;if there have bubble,please use your hand make the bubble disappear

## 4. MAINTENANCE

To ensure the longevity and clarity of your screen protector, follow these maintenance tips:

- **Cleaning:** Use the included microfiber cloth or a soft, lint-free cloth to gently wipe the screen protector. For stubborn smudges, slightly dampen the cloth with water or a screen cleaner designed for electronics. Avoid harsh chemicals or abrasive materials.
- **Avoid Sharp Objects:** While the protector is scratch-resistant, extreme pressure or very sharp objects can still cause damage.
- **Regular Inspection:** Periodically check the edges of the screen protector to ensure it remains firmly adhered to the watch screen.

## 5. TROUBLESHOOTING

If you encounter any issues during or after installation, consider the following:

- **Bubbles After Installation:** Small bubbles can sometimes appear. Gently push them towards the nearest edge using a soft cloth or a card. For persistent bubbles, try lifting the nearest edge slightly and reapplying while pushing the bubble out.
- **Protector Not Sticking Properly:** Ensure the screen was thoroughly cleaned before application, free of dust, oils, or debris. Re-read the installation steps carefully, especially regarding the removal of protective films.
- **Edge Lifting:** If edges begin to lift, gently press them down. Ensure the protector is correctly sized for your watch's screen surface, especially if your watch has curved edges.

If problems persist, please refer to the contact information in the Support section.

## 6. SPECIFICATIONS
