

Konitee IDW13

Konitee Smart Watch IDW13 User Manual

Model: IDW13

Brand: Konitee

INTRODUCTION

The Konitee Smart Watch IDW13 is a versatile activity tracker designed for men and women, offering a comprehensive suite of features to enhance daily life and health monitoring. With its 1.8-inch touch screen, it provides clear visuals and intuitive navigation. Key functionalities include Bluetooth call capabilities, Alexa voice control, and extensive health tracking for heart rate, blood oxygen, and sleep. It also supports 100 sports modes and smart notifications, all within an IP68 waterproof design.

WHAT'S IN THE BOX

- 1 × Smart Watch
- 1 × Charging Cable
- 1 × English User Manual

SETUP GUIDE

To begin using your Konitee Smart Watch IDW13, follow these steps to connect it with your smartphone and enable its full range of features.

1. Initial Connection via Veryfit App

The primary connection for your smartwatch is established through the "Veryfit" application. This app is essential for data synchronization, feature activation, and personalized settings.

1. **Turn on Bluetooth:** Ensure Bluetooth is enabled on your smartphone.
2. **Download Veryfit App:** Open your phone's app store (Google Play for Android or App Store for iOS) and search for "Veryfit". Download and install the application.
3. **Add Device:** Open the Veryfit app, navigate to the device section, and select "Add Device". Choose "IDW13" from the list to bind your smartwatch.

Image: Step-by-step guide for connecting the smartwatch via the Veryfit app and enabling Bluetooth call functionality.

2. Enabling Bluetooth Call Function

After the initial app connection, you need to enable the Bluetooth call feature separately for making and receiving calls directly from your watch.

4. **Pair Bluetooth for Calls:** On your phone's Bluetooth settings, find and connect to "IDW13" or "IDW13 BT". This creates a separate Bluetooth connection specifically for call audio.
5. **Activate Call Alert in App:** Within the Veryfit app, go to the device settings interface. Locate and enable the "Call Alert" function.
6. **Access Dialer on Watch:** On your smartwatch, navigate to its sub-menu, tap the call icon, and then select "Dialer".

Once these steps are completed, your smartwatch will be fully connected and ready to answer or make calls directly.

OPERATING INSTRUCTIONS

The Konitee Smart Watch IDW13 offers a range of features accessible through its intuitive touch screen and side button. Below are instructions for common operations.

Bluetooth Call & Alexa Voice Control

Leverage the integrated Alexa voice assistant and Bluetooth calling for convenient communication and smart home control.

- **Making/Answering Calls:** With Bluetooth call enabled, you can dial numbers or answer incoming calls directly from your watch. The watch can also record call history and contacts.
- **Alexa Integration:** Log in to Alexa within the Veryfit app. Once connected, you can use voice commands on your watch to check news, inquire about weather, set timers, and alarms.

Health Tracking & Sports Modes

Monitor your health and fitness progress with the watch's comprehensive tracking capabilities and diverse sports modes.

- **All-Weather Activity Tracking:** The watch records daily steps, distance, and calories burned.
- **Health Monitoring:** Continuously monitors heart rate, blood oxygen (SpO2), and sleep patterns. All collected data can be synchronized to the Veryfit app for detailed analysis and insights into your health.
- **100 Sport Modes:** Supports a wide range of activities including swimming, running, rock climbing, yoga, and more. This helps in tracking specific workout metrics and adjusting your exercise plan.

Smart Notifications & Customization

Stay connected and personalize your watch experience with smart notifications and customizable watch faces.

- **Instant Alerts:** The smartwatch will ring and vibrate to notify you of incoming calls and message notifications from various social media platforms (Facebook, Instagram, Twitter, WhatsApp, etc.), ensuring you never miss important communications.
- **Custom Watch Faces:** The 1.8-inch HD-LCD full touch screen with Panda glass offers excellent picture quality and high sensitivity. You can personalize your watch face by choosing from existing designs or uploading your own images.

Smart Notifications

The smart watch will ring and vibrate when receiving incoming calls, message notifications from Facebook, Instagram, Twitter, WhatsApp, etc.

Proper care and maintenance will ensure the longevity and optimal performance of your smartwatch.

- **Charging:** The watch features a 300mAh battery. A full charge takes approximately 2.5 hours and provides 3-7 days of usage, with up to 30 days of standby time. Use the provided magnetic charging cable.

Image: Illustrates the magnetic charging method and provides details on battery capacity, standby time, battery life, and charging time.

- **Waterproof Rating:** The watch has an IP68 waterproof standard, making it suitable for hand washing, face washing, and sweating. **Important:** Do not use the watch for baths, saunas, or hot springs, as extreme temperatures or prolonged submersion can damage the device.
- **Cleaning:** Regularly wipe the watch screen and band with a soft, dry cloth to remove dust and smudges. For deeper cleaning, a slightly damp cloth can be used, ensuring the watch is completely dry afterward.
- **Band Replacement:** The smartwatch is compatible with other bands, allowing you to easily change them

to suit your style or preference.

TROUBLESHOOTING

If you encounter issues with your Konitee Smart Watch IDW13, refer to the following common solutions.

Call Audio Issues (Speaking/Hearing) After Phone Updates

Sometimes, after a phone system update, the call audio functionality on your watch may be affected. Follow these steps to resolve the issue:

1. **Open Veryfit App:** Launch the Veryfit application on your smartphone.
2. **Navigate to Device Section:** Tap on the "DEVICE" section located in the bottom menu.
3. **Select Your Watch:** Tap the arrow next to "IDW13" at the top of the screen.
4. **Check for App Upgrade:** On the "DEVICE MANAGEMENT" page, tap "DEVICE UPGRADE" to ensure the app itself does not require an upgrade.
5. **Restart Device:** If no app upgrade is needed, tap on the "RESTART DEVICE" section. Your watch screen will go blank and restart. Note that only the watch will restart, not your phone.

After restarting, your watch should properly function for speaking and hearing directly from the watch during calls.

Water Draining Feature

After exposure to water, the watch has a feature to help drain any residual water. It will vibrate to assist in expelling water from the speaker and microphone areas.
