## Important Safety Information

**Always use the HOME button on the remote control to lift from the prone position. The backrest will move first to ensure your safety. Allow up to 16 seconds for the chair to fully lift.**

- Ensure all connections are secure before operating the chair.
- Keep children and pets away from the chair's moving parts.
- Do not allow anyone to sit on the footrest when it is extended.
- Avoid placing objects under the chair that could obstruct its movement.
- Do not attempt to disassemble or repair the chair yourself. Contact customer support for assistance.
- Maximum weight recommendation: 350 pounds.

## Package Contents

---

Before assembly, verify that all components are present:

- Backrest
- Lumbar Pillow
- Accessory Box (contains remote, power adapter, cables)
- Instruction Manual (this document)
- Left Armrest
- Right Armrest
- Seat Base

The chair is typically shipped in 3 boxes. Ensure all boxes are received before beginning assembly.

## Setup and Assembly

---

Assembly of the MCombo Power Lift Recliner Chair is designed to be straightforward and requires no tools. It can typically be completed by a novice in approximately 20 minutes.

1. **Unpack Components:** Carefully remove all parts from their packaging. Retain packaging materials until assembly is complete and the chair is functioning correctly.
2. **Attach Backrest:** Slide the backrest onto the metal posts located on the seat base until it clicks securely into place.
3. **Attach Armrests:** Slide the left and right armrests onto their respective slots on the seat base. Ensure they are firmly seated.
4. **Connect Wiring:** Locate the wiring harnesses extending from the backrest, armrests, and seat base. Connect the corresponding wires. Ensure all connections are tight and secure. This step may require getting down to floor level.
5. **Connect Power:** Plug the power adapter into the chair's power input, then plug the adapter into a wall outlet.
6. **Initial Test:** Use the remote control to test all functions (lift, recline, massage, heat) to ensure proper operation.

## Operating Instructions

---

### Remote Control Functions

Lay-flat

Reclined

TV

Lift

## Home Button

( Back to upright position )

## Infinite Position

Image: The primary remote control for adjusting chair positions, including lift, recline, TV, lay-flat, and a central HOME button.

- **Dual Motor System:** The chair features a dual motor system, allowing independent adjustment of the backrest and footrest. This enables a wide range of positions, including lift, TV viewing, and lay-flat. The maximum reclining angle is 165 degrees.
- **HOME Button:** Pressing the HOME button on the remote control will return the chair to its upright position from any reclined or lifted state. For safety, when lifting from a prone position, the backrest will move first. This process takes approximately 16 seconds.
- **Position Adjustment:** Use the dedicated buttons on the remote to adjust the backrest and footrest to your desired position.

### Massage and Heating Functions

# Massage and Heating

Heating function works separately from vibration.

**8 Vibration Nodes**

**3 Massage Modes**

**3 Intensity Levels**

• **Lumbar Heat**

Image: A separate remote control for the massage and heating features, detailing controls for 8 vibration nodes, 3 massage modes, 3 intensity levels, and lumbar heat.

- The heating function operates independently from the vibrating function.
- **Vibration:** Select from 8 vibration nodes, 3 massage modes, and 3 intensity levels to target specific areas and customize your massage experience. A timer function is also available.
- **Lumbar Heat:** Activate the lumbar heating function for soothing warmth in the lower back area.

## Convenience Features

# Everything is right at hand.

**2** Anti-falling Ropes

**2** USB & Type C Ports

**2** Cup Holders

**2** Side & Front Pockets

**Overstuffed Armrests**

Image: Detail of the chair's armrest, highlighting the integrated dual USB and Type-C charging ports, cup holders, and convenient side pockets.

- USB Ports & Cup Holders:** The chair includes dual USB ports for charging mobile devices and cup holders for beverages.
- Extended Footrest:** The 4.7-inch extended footrest provides additional support for taller individuals (recommended height: 5'7"-6'2"), promoting better circulation.
- Side & Front Pockets:** Convenient pockets are integrated into the design for storing remotes, magazines, or other small items.

## Maintenance

- Cleaning:** Wipe clean with a damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the faux leather upholstery.
- Regular Inspection:** Periodically check all connections and moving parts for wear or looseness. Tighten any loose fasteners.

- **Power Cord Care:** Ensure the power cord is not pinched or placed under heavy objects. Avoid tripping hazards.

## Troubleshooting

---

If you encounter any issues with your MCombo Power Lift Recliner Chair, please refer to the following common solutions:

- **Chair Not Moving:**

- Check if the power cord is securely plugged into both the chair and the wall outlet.
- Ensure all internal wiring connections are firm.
- Verify that the wall outlet is functional by plugging in another device.

- **Noise During Operation:**

- Ensure all assembly bolts and connections are tightened.
- Check for any obstructions under or around the chair's mechanism.

- **Massage/Heat Not Working:**

- Confirm the massage/heat remote is properly connected and has power.
- Ensure the functions are activated on the remote.

If the problem persists after attempting these steps, please contact MCombo customer support.
