2. SAFETY INFORMATION

Please read and understand all safety instructions before assembly and use. Failure to follow these instructions may result in injury or damage to the product.

- Always assemble the desk according to the provided instructions.
- Do not overload the desk; it can bear up to 800 lbs (362 kg). Exceeding this weight limit may compromise stability and cause damage.
- Ensure the desk is properly anchored to the floor to prevent tipping, especially in high-traffic areas or when multiple users are present.
- Keep small parts and packaging materials away from children to prevent choking hazards.
- Avoid placing hot items directly on the desktop surface. Use coasters or protective pads.
- Do not stand or climb on the desk.
- Regularly check all screws and connections to ensure they remain tight.

3. PACKAGE CONTENTS

Before beginning assembly, verify that all components are present and undamaged. The package includes:

4. SETUP AND ASSEMBLY INSTRUCTIONS

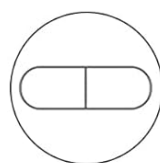

Assembly is designed to be straightforward. It is recommended to have two people for easier assembly. All pieces are labeled for your convenience.

1. **Unpack and Organize:** Carefully unpack all components and lay them out on a clean, soft surface (like a carpet) to prevent scratches. Identify all labeled parts and hardware.
2. **Assemble the Metal Frame:** Connect the metal frame components using the provided hardware and tools. Ensure all connections are secure but do not overtighten initially. The heavy-duty powder-coated steel frame, two extra steel support bars, and triangular junction design contribute to the desk's stability.
3. **Attach Adjustable Leg Pads:** Screw the adjustable leg pads into the bottom of the metal legs. These pads help keep the desk stable even on uneven floors.
4. **Assemble the Desktop:** The desktop comes in 4 separate pieces. Carefully align and connect these pieces to form the full desktop surface.
5. **Attach Desktop to Frame:** Place the assembled desktop onto the metal frame. Secure the desktop to the frame using the remaining hardware. Tighten all screws firmly but avoid over-tightening to prevent damage.
6. **Final Adjustments:** Once fully assembled, gently lift and place the desk in its desired location. Adjust the leg pads as needed to ensure the desk is level and stable.
