Podof1 1 DIN Car Radio with Retractable 7-inch Screen, CarPlay/Android Auto, Bluetooth, and Rear Camera User Manual

Model: c05ff1a3-c152-486d-96a6-3a3182f8d469

INTRODUCTION

This manual provides comprehensive instructions for the installation, operation, and maintenance of your Podof1 1 DIN Car Radio. Please read this manual thoroughly before using the product to ensure proper functionality and safety. Keep this manual for future reference.

SETUP AND INSTALLATION

The Podof1 1 DIN Car Radio features a 7-inch high-definition capacitive retractable screen. The screen can be adjusted up and down by 100 degrees. The unit is designed for universal fit in 1 DIN vehicle slots.

- **Dimensions:** Main unit: 172 x 50 x 137 mm. Retractable screen: 174 x 113 mm.
- **Compatibility:** Compatible with most 1 DIN vehicles. Verify your vehicle's central console dimensions before installation.

Package List

Power Cable

Remote Control

Bracket

Manual

Rear Camera

Image: Product dimensions and component layout. This image illustrates the physical measurements of the main unit and the retractable screen, along with a diagram of the rear ports and their functions (ANT, OUT-R, OUT-L, V-OUT1, V-OUT2, CAM-IN, V-IN, Power cable).

Connecting the Rear Camera

The car stereo supports rear view camera input. When the vehicle is in reverse, the screen will automatically switch to the rear view image.

Car Multimedia Player

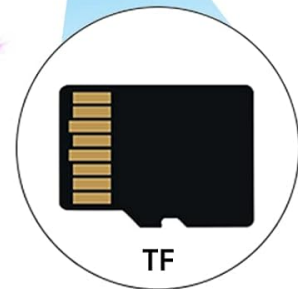

Image: Rear camera connection and display. This image shows how the HD backup camera connects to the unit and displays the rear view with parking guidelines on the retractable screen.

Package Contents

Verify that all items are present in the package:

- Main Unit (1 DIN Car Radio with 7-inch Retractable Screen)
- Power Cable
- Remote Control
- Mounting Brackets
- Steering Wheel Controller
- Instruction Manual
- Rear Camera

Image: Package contents. This image displays the main car radio unit along with its accessories: power cable, remote control, mounting brackets, steering wheel controller, user manual, and rear camera.

OPERATING INSTRUCTIONS

Screen Operation

The 7-inch capacitive touchscreen allows for intuitive control. The screen is retractable and can be adjusted for optimal viewing angle.

Image: Language selection menu on the retractable touchscreen. This image shows the unit's interface with various language options for user selection.

Apple CarPlay and Android Auto

This car stereo supports Apple CarPlay and Android Auto functions. Connect your iOS or Android mobile phone via the original USB cable to access phone contacts, emails, notifications, GPS navigation, music, videos, and other information. Voice control is also supported.

Bluetooth

Bluetooth handsfree calling / BT music playing

Stable FM Radio

Image: Apple CarPlay and Android Auto functionality. This image demonstrates how a smartphone connects to the car radio to display the CarPlay interface (top) and the Android Auto interface (bottom) on the retractable screen.

Mirror Link Function

The digital media receiver supports Mirror Link connection with Android and iOS phones via the original USB cable. This allows you to project your phone's screen onto the car display. Note: Some phone models may not be compatible.

Steering Wheel Controls

Image: Mirror Link function. This image shows an iPhone and an Android phone connected via USB, mirroring their displays (e.g., navigation, video playback) onto the car radio's retractable screen.

Bluetooth Connectivity

Connect your smartphone via Bluetooth for hands-free calling and audio streaming. You can answer or dial calls directly through the car radio, enhancing driving safety.

Mirror Link Function

Supports connecting the original USB cable for mobile phone mirroring link.
Supports IOS/Android phones

Image: Bluetooth hands-free calling. This image depicts a user engaged in a phone call through the car radio's Bluetooth system, with the call interface visible on the retractable screen.

FM Radio and Multimedia Playback

The FM radio features 18 preset stations, allowing you to listen to real-time traffic, weather forecasts, and news broadcasts. The unit also supports high-speed USB 2.0, TF card, and AUX interface for playing various media files from USB drives, mobile hard disks, or external audio devices.

Product Size

- | | |
|----------|---------------|
| 1.ANT | 5.OUT-R |
| 2.OUT-L | 6.V-OUT2 |
| 3.V-OUT1 | 7.CAM-IN |
| 4.V-IN | 8.Power cable |

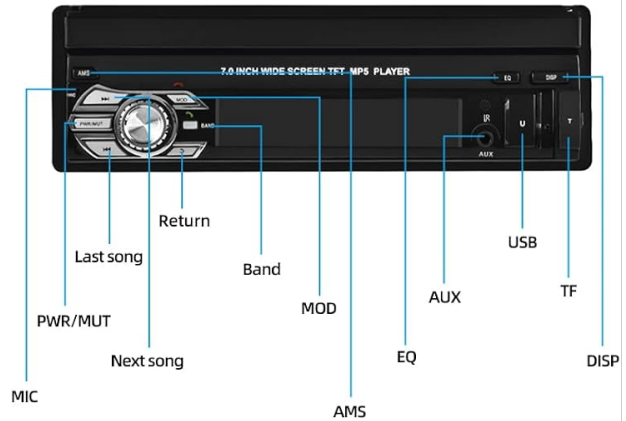

Image: Multimedia playback options. This image highlights the AUX, USB, and TF card input options for playing media, with a movie scene displayed on the car radio's screen.

Image: Stable FM radio display. This image shows the car radio's screen tuned to an FM frequency, indicating stable radio reception.

Steering Wheel Control

If properly installed and configured, the car radio supports steering wheel controls. This allows you to manage audio functions without taking your hands off the steering wheel.

Image: Steering wheel control interface. This image displays the car radio's screen with options for mapping steering wheel buttons to various functions, enhancing convenience and safety.

MAINTENANCE

- **Cleaning the Screen:** Use a soft, lint-free cloth to gently wipe the screen. Do not use abrasive cleaners or solvents.
- **General Cleaning:** Keep the unit free from dust and debris. Use a dry cloth for cleaning the exterior.
- **Avoid Liquids:** Do not expose the unit to water or other liquids.
- **Temperature:** Avoid extreme temperatures. Do not leave the unit in direct sunlight for extended periods.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Unit does not power on.	Incorrect wiring; Blown fuse; Vehicle battery issue.	Check power connections; Inspect and replace fuse if necessary; Verify vehicle battery voltage.
No sound.	Volume too low; Mute function active; Speaker wiring issue.	Increase volume; Deactivate mute; Check speaker connections.
Bluetooth connection fails.	Bluetooth not enabled on phone/unit; Device out of range; Interference.	Ensure Bluetooth is active on both devices; Move devices closer; Restart both devices.
CarPlay/Android Auto not working.	Incorrect USB cable; Phone not compatible; Software issue.	Use original USB cable; Check phone compatibility; Restart phone and unit.
Rear camera image not displayed.	Camera not connected; Reverse gear not detected; Camera faulty.	Check camera wiring; Ensure reverse trigger wire is connected; Test camera functionality.
