Feandrea Cat Tree Instruction Manual

Model: PCT192M01

1. INTRODUCTION AND OVERVIEW

The Feandrea Cat Tree, Model PCT192M01, is a multi-level activity center designed to provide your cats with a dedicated space for climbing, scratching, resting, and playing. This structure features multiple platforms, two enclosed nests, a comfortable hammock, and several scratching posts, all covered in soft plush fabric.

This manual provides essential information for the safe assembly, proper usage, and routine maintenance of your cat tree.

2. PRODUCT FEATURES

- **Two Platforms and Two Nests:** Offers ample space for observation and rest, suitable for multi-cat households.
- **Multi-Level Design:** Encourages climbing and exploration, catering to cats' natural instincts for elevated positions.
- **Easy Assembly:** Features uniform screws and a simple structure for straightforward setup. An assembly key is included.
- **Interactive Pom-Poms:** Includes two suspended pom-poms with bells to stimulate hunting instincts. Two replacement pom-poms without bells are provided.
- **Stable and Secure:** Constructed for durability and includes an anti-tipping kit for wall attachment, enhancing safety. It can accommodate up to 5 cats (maximum 5 kg each).
- **FSC Certified Wood:** The base, shelves, and platforms are made from FSC certified wood, ensuring responsible sourcing.

3. SAFETY INSTRUCTIONS

- Ensure all screws are tightened securely before and during use. Periodically check for loose connections.

- Attach the anti-tipping kit to a sturdy wall for enhanced stability, especially in households with multiple or very active cats.
- Regularly inspect the cat tree for any signs of wear, loose parts, or damage. Replace or repair components as necessary to prevent injury.
- Keep small children away from the cat tree during assembly and ensure they do not climb on it.
- Do not exceed the maximum weight capacity of 5 kg per cat, with a total maximum of 5 cats simultaneously.
- Place the cat tree on a flat, stable surface to prevent wobbling or tipping.

4. SETUP AND ASSEMBLY INSTRUCTIONS

Follow these steps to assemble your Feandrea Cat Tree:

1. **Unpack Components:** Carefully unpack all parts from the packaging. Verify that all components listed in the included assembly diagram are present and undamaged.
2. **Follow Diagram:** Refer to the detailed assembly diagram provided in the box. The structure is designed for simplicity, with uniform screws for most connections.
3. **Assemble Base:** Begin by assembling the base structure according to the diagram.
4. **Attach Posts and Platforms:** Systematically attach the scratching posts and platforms, ensuring each connection is firm.
5. **Install Nests and Hammock:** Secure the two enclosed nests and the hammock in their designated positions.
6. **Tighten Connections:** Use the provided assembly key to tighten all screws and connections firmly. Do not overtighten.
7. **Install Anti-Tipping Kit:** For maximum stability, install the anti-tipping kit by securing the cat tree to a wall using the provided hardware.

This image collage shows cats utilizing the scratching posts, resting inside a nest, and relaxing in the hammock, highlighting the multi-functional design of the cat tree.

6. MAINTENANCE

Regular maintenance will extend the life of your cat tree and keep it hygienic for your pets:

- **Cleaning Plush Surfaces:** Vacuum or brush the plush fabric regularly to remove loose fur and dust. For spot cleaning, use a damp cloth with mild soap and water, then allow to air dry completely.
- **Cleaning Sisal Posts:** Clean sisal areas as needed by brushing or using a vacuum cleaner attachment. Avoid excessive moisture on sisal.
- **Structural Check:** Periodically check all screws and connections for tightness. Re-tighten any loose parts to maintain stability.
- **Inspect for Wear:** Examine the scratching posts for excessive wear. Severely worn sisal may need replacement to remain effective and appealing to your cat.

This image shows a vacuum cleaner being used to clean the plush surface of a cat tree, illustrating the recommended method for routine cleaning.

7. TROUBLESHOOTING

- **Instability/Wobbling:**
Solution: Ensure all connections are tight. Verify the anti-tipping kit is correctly installed and secured to a wall. Place the cat tree on a flat, even surface.
- **Cats Not Using the Tree:**
Solution: Try placing treats, catnip, or familiar toys on different levels to encourage exploration. Ensure the tree is in a quiet, accessible location that your cat prefers. Engage your cat with the suspended pom-poms.
- **Worn Scratching Posts:**
Solution: If sisal posts become excessively worn, consider replacing them to maintain their effectiveness and appeal for your cat's scratching needs.
- **Missing Parts:**
Solution: If any parts are missing upon unboxing, contact Feandrea customer support immediately for assistance.
