## Key Features:

- **Multi-purpose Design:** Includes heads for full-size trimming, precision trimming, shaving, nose hair trimming, and design work.
- **High-Quality Blade:** Equipped with a stainless steel blade for efficient, accurate, and smooth shaving.
- **Adjustable Trimming Lengths:** Five adjustable cutting guide combs allow length adjustments from 0mm to 12mm.
- **Cordless Operation:** Powered by a 600mAh lithium-ion battery.
- **Portable Charging:** Can be charged via USB using a power bank, 5V=1A adapters, or a computer.
- **LED Display:**

## 5. SETUP

Before using your VGR V-102 grooming kit for the first time, please follow these steps:

1. **Unpack:** Carefully remove all components from the packaging.
2. **Inspect:** Check the device and all accessories for any signs of damage. Do not use if damaged.
3. **Initial Charge:** Fully charge the device before its first use. Refer to the "Charging" section for detailed instructions.
4. **Attach Head:** Select the desired trimmer head (e.g., full-size trimmer, precision trimmer) and align it with the main unit. Gently push until it clicks into place.
5. **Attach Guide Comb (if needed):** If using a guide comb, slide it onto the trimmer head until it is securely attached. Ensure the desired length setting is selected.

## 6. CHARGING

The VGR V-102 grooming kit is equipped with a powerful 600mAh lithium-ion battery, providing extended cordless operation.

### Charging Instructions:

1. Ensure the device is turned off before charging.
2. Connect the USB charging cable to the charging port on the device or the charging base.
3. Plug the other end of the USB cable into a compatible power source, such as a power bank, a 5V=1A adapter, or a computer's USB port.
4. The LED display on the device will indicate the charging status.
5. A full charge takes approximately 2 hours. Once fully charged, the device provides up to 150 minutes of cordless operating time.
6. Disconnect the charging cable once charging is complete.

## 7. OPERATING INSTRUCTIONS

Follow these guidelines for optimal performance and safety when using your VGR V-102 grooming kit.

### General Operation:

- Ensure the desired trimmer head and guide comb (if applicable) are securely attached.
- Press the power button to turn on the device.
- Gently place the blade against the skin and move the trimmer slowly against the direction of hair growth.
- For best results, ensure your skin is dry before use.
- This product can be used once per day.

Image: A close-up view of the VGR V-102 grooming device being held in a hand, demonstrating its ergonomic design during use.

### Using Different Trimmer Heads:

- **Full-size Trimmer:** Ideal for defining hair around the neckline and for general hair trimming.
- **Precision Trimmer:** Used for defining straight lines and curved edges for detailed grooming.
- **Shaver:** For achieving a close, clean, and smooth shave.
- **Nose Trimmer:** Designed for safely and comfortably trimming nose and ear hair.
- **Design Trimmer:** For creating personalized beard designs and other modeling styles.

### Adjusting Trimming Length:

The five adjustable cutting guide combs allow you to set the trimming length from 0mm (without a comb) up to a maximum of 12mm. Select the appropriate comb for your desired hair length and attach it securely to the trimmer head.

## 8. MAINTENANCE AND CLEANING

Regular maintenance ensures the longevity and optimal performance of your VGR V-102 grooming kit.

1. **Turn Off and Unplug:** Always ensure the device is turned off and unplugged from the power source before cleaning.
2. **Remove Head:** Detach the trimmer head from the main unit.
3. **Clean Blades:** Use the provided cleaning brush to remove any hair clippings from the blades and inside the trimmer head.
4. **Oil Blades:** After every few uses, apply a small drop of the provided blade oil to the blades. Turn on the

device for a few seconds to distribute the oil evenly. This helps maintain blade sharpness and reduces friction.

- Wipe Body:** Wipe the main body of the device with a clean, dry cloth. Do not rinse the main unit under water.
- Storage:** Store the device and all accessories in a cool, dry place, preferably in its original packaging or on the provided storage base.

## 9. TROUBLESHOOTING

If you encounter any issues with your VGR V-102 grooming kit, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device does not turn on.	Battery is depleted.	Charge the device fully (refer to Section 6).
Poor trimming performance / pulling hair.	Blades are dull or clogged with hair.	Clean the blades thoroughly and apply blade oil (refer to Section 8). If blades are dull, consider replacement if available.
Device makes unusual noise.	Lack of lubrication or foreign object.	Apply blade oil. Check for any obstructions in the blade area and remove them carefully.
Charging indicator not working.	Faulty charging cable or power source.	Try a different USB cable or power adapter (ensure it's 5V=1A).

If the problem persists after trying these solutions, please contact customer support for further assistance.
