Dolingo Contemporary Waterfall Faucet

Dolingo Black Waterfall Bathroom Faucet

USER MANUAL

Model: Contemporary Waterfall Faucet (ASIN: B0BRB35LLF)

Product Overview

The Dolingo Black Waterfall Bathroom Faucet is designed to provide a modern and elegant touch to your bathroom. Featuring a unique waterfall spout and a single lever for hot and cold water control, this faucet combines aesthetics with functionality. It is constructed from durable stainless steel and includes a high-quality ceramic valve for long-lasting performance.

Setup and Installation

This faucet is designed for single-hole installation. Ensure you have all the necessary tools and components before beginning the installation process. The package includes the faucet unit and two G3/8 connection hoses.

Included Components:

- Faucet body
- Mounting hardware (nut, washer, gasket)
- Two G3/8 connection hoses (600mm / 23.6 inches long)

Gewicht: 746g

Image: All components included in the faucet package, laid out on a surface, including the faucet body, mounting hardware, and two flexible hoses.

Installation Dimensions:

Refer to the diagram below for detailed dimensions and required hole size for installation. The recommended hole diameter for mounting is between 32-40mm (1.26-1.58 inches).

Operating Instructions

The Dolinvo faucet features a single lever for easy control of water flow and temperature. The waterfall spout provides a gentle and wide stream of water.

Water Flow and Temperature Control:

- To turn on the water, lift the lever upwards.
- To increase water flow, lift the lever further.
- To control temperature, move the lever left for hot water and right for cold water.

Maintenance

Regular maintenance will ensure the longevity and optimal performance of your Dolinvo faucet.

Cleaning:

Clean the faucet regularly with a soft cloth and mild soap. Avoid abrasive cleaners, scouring pads, or harsh chemicals, as these can damage the finish. Rinse thoroughly with water after cleaning and dry with a soft cloth to prevent water spots.

Ceramic Valve Element:

The faucet is equipped with a high-quality ceramic valve element, designed for durability and leak-free operation. This component is tested for 1,000,000 cycles, offering anti-oxidation, anti-aging, and heat resistance properties.

Troubleshooting

If you encounter any issues with your faucet, refer to the common problems and solutions below.

Problem	Possible Cause	Solution
Water splashing excessively from the spout.	High water pressure or faucet design interacting with sink shape.	Reduce the main water supply pressure to the faucet. Ensure the faucet is compatible with your sink's depth and design.
Water flow is uneven or deviates to one side.	Possible debris in the spout or issues with internal components.	Check the spout for any obstructions. If the issue persists, consult a qualified plumber.

Problem	Possible Cause	Solution
No water or low water flow.	Water supply turned off, clogged hoses, or issues with the ceramic valve.	Ensure water supply valves are fully open. Check hoses for kinks or blockages. If suspected valve issue, professional assistance may be required.

Specifications

Feature	Detail
Brand	Dolingo
Model Name	Contemporary Waterfall Faucet
Manufacturer	Dolingo
Product Dimensions (L x W x H)	28 x 20.5 x 7.8 cm (11.02 x 8.07 x 3.07 inches)
Weight	1.1 kilograms (2.43 lbs)
Material	Stainless Steel
Installation Method	Single Hole
Number of Handles	1
Handle Material	Stainless Steel
Special Feature	Lead-free
Valve Type	Disc Valve (Ceramic)
