WLIVE ASNG073 Fabric 13 Drawer-High Storage Cabinet / DK2

WLIVE Tall Dresser User Manual

Model: ASNG073 Fabric 13 Drawer-High Storage Cabinet / DK2

Brand: WLIVE

PRODUCT OVERVIEW

This WLIVE Tall Dresser is a versatile storage unit designed for bedrooms, closets, living rooms, hallways, and playrooms. It features a sturdy steel frame, a durable wood top, and 13 foldable fabric drawers in two sizes, providing ample space for organizing various items.

Key Features

- **13-Drawer Tall Dresser:** Features 13 deep foldable drawers available in 2 sizes, with top 3 drawers for lingerie and bottom 10 for t-shirts, pants, scarves, socks, etc.
- **Space-saving Design:** Ideal for keeping spaces tidy and organized without occupying excessive room.
- **Multifunction Dresser Organizer:** Can be used as an entryway table or a closet dresser. The waterproof wooden top can hold necessities like lamps, clocks, and photos.
- **Durable Construction:** Sturdy steel frame ensures stability and longevity. Includes 4 adjustable feet to protect floors and anti-tipping accessories for safety. Made with breathable and harmless non-woven synthetic fabric.
- **Easy Assembly:** Measures 39.4" L x 11.8" W x 56.8" H. Comes with detailed instructions and all necessary hardware for assembly within 30 minutes.

SETUP AND ASSEMBLY

The WLIVE Tall Dresser is designed for easy assembly. Please follow the steps below carefully.

An instructional video demonstrating the step-by-step assembly process for the WLIVE 13-drawer dresser.

Assembly Steps

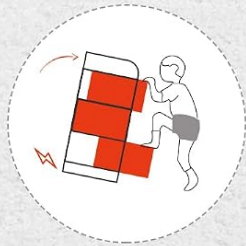

1. **Step 1: Assemble the Base Frame.** Connect the bottom horizontal bars to the vertical side frames using the provided screws. Ensure the holes on the steel frame face the same direction as indicated in the instructions.
2. **Step 2: Attach the Bottom Board.** Secure the main bottom wooden board to the assembled base frame using screws.
3. **Step 3: Install Internal Dividers.** Attach the smaller internal wooden dividers to the bottom board to create compartments for the drawers.
4. **Step 4: Add Lower Horizontal Bars.** Install the lower set of horizontal bars that will support the larger drawers. Pay attention to the orientation of the holes for proper alignment.
5. **Step 5: Attach Upper Vertical Support.** Secure the central vertical support bar to the top horizontal bar and the lower frame.
6. **Step 6: Install Adjustable Feet.** Screw the four adjustable feet into the bottom corners of the dresser frame. These help stabilize the unit and protect your floor.
7. **Step 7: Secure the Top Board.** Attach the top wooden board to the upper frame.
8. **Step 8: Install Upper Horizontal Bars.** Secure the upper set of horizontal bars that will support the smaller top drawers.
9. **Step 9: Attach Rear Cross Bars.** Install the diagonal cross bars at the back of the dresser frame. These provide additional stability and prevent wobbling.
10. **Step 10: Insert Drawer Rails.** Fasten the plastic guide rails (marked L for Left and R for Right) into the designated slots on the frame. Ensure both front and back buckles are fastened simultaneously.
11. **Step 11: Assemble Drawer Handles.** Attach the handles to the front panels of the fabric drawers using the provided screws.
12. **Step 12: Insert Drawer Bottoms.** Place the rigid bottom inserts into each fabric drawer to give them shape and support.
13. **Step 13: Place Drawers into Frame.** Carefully slide each assembled fabric drawer into its corresponding slot in the dresser frame.

This image illustrates the overall dimensions of the dresser: 39.4 inches (L) x 11.8 inches (W) x 56.8 inches (H), with specific drawer dimensions also shown.

OPERATING INSTRUCTIONS

The WLIVE Tall Dresser is designed for convenient and efficient storage.

Using the Drawers

- The dresser features 13 fabric drawers: 3 smaller drawers on the top row and 10 larger drawers below.
- To open a drawer, gently pull the handle. The fabric drawers are lightweight and slide smoothly.
- To close a drawer, push it back into the frame until it is fully seated.
- For optimal performance and to prevent bulging, avoid overfilling the fabric drawers with excessively heavy items. While the drawers are designed to hold a good amount of clothing, very dense or heavy objects may cause the

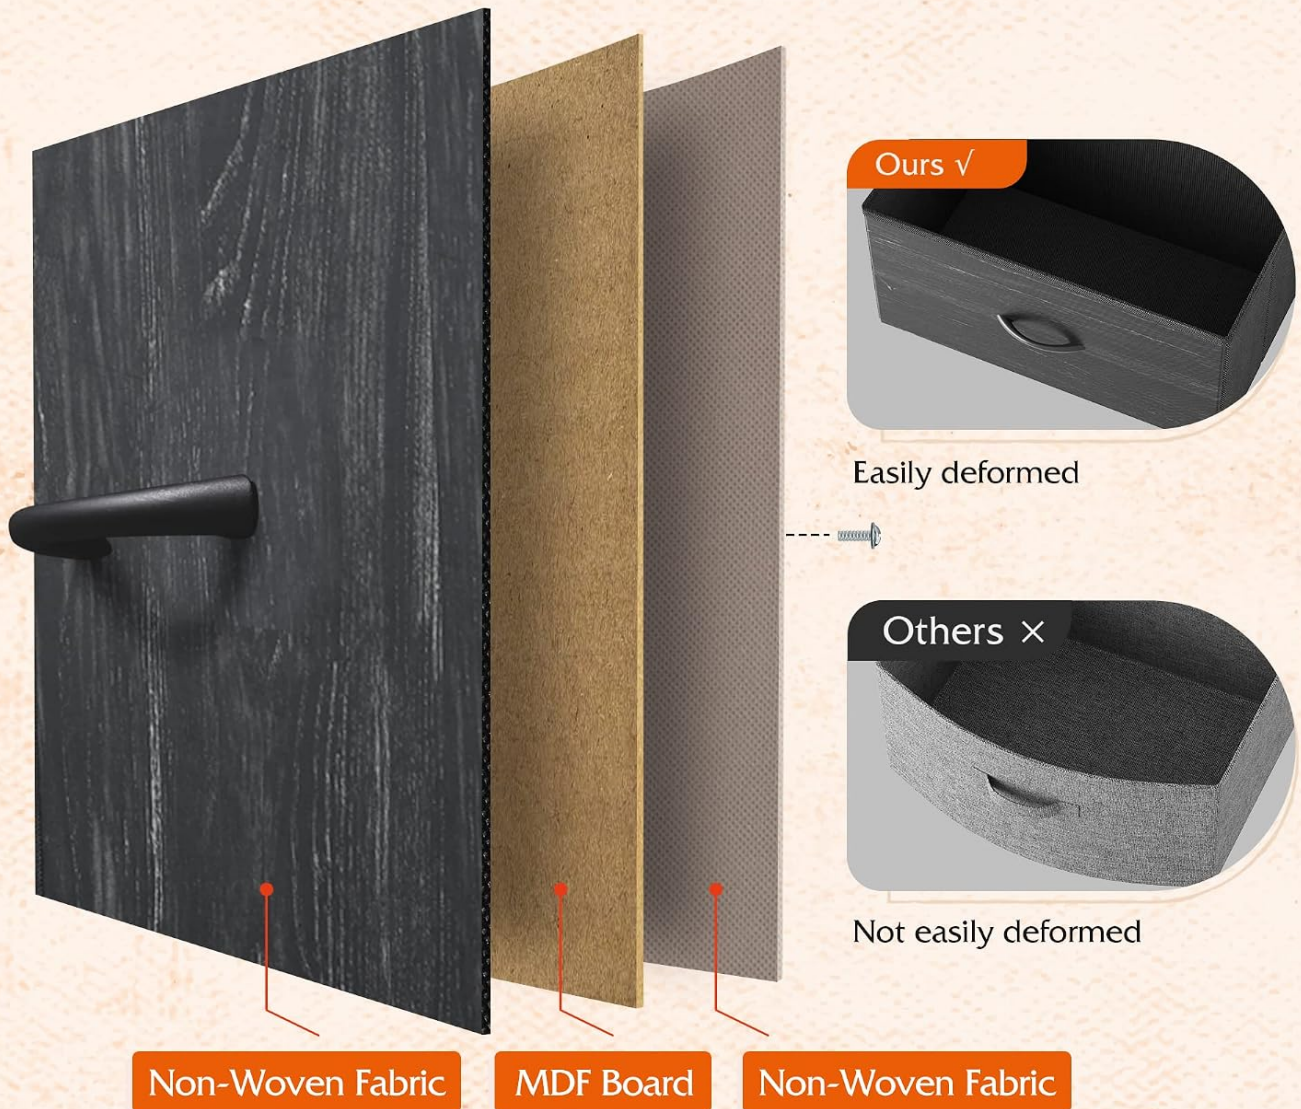

fabric to sag over time.

- The drawers are removable. You can pull them completely out of the frame for easier access or to transport contents.

The dresser is shown in a living room, demonstrating its aesthetic integration into a home environment.

3-Tier Design More Durable

This image provides a guide on the approximate number of socks, t-shirts, and jeans that can be stored in the medium and large drawers.

MAINTENANCE

- **Cleaning:** Wipe the wooden top and metal frame with a dry cloth to remove dust and dirt.
- **Fabric Drawers:** For light cleaning, use a damp cloth. Avoid harsh chemicals or abrasive cleaners on the fabric.
- **Stability Check:** Periodically check all screws and connections to ensure they remain tight. Tighten any loose fasteners to maintain the dresser's stability.
- **Weight Distribution:** Distribute weight evenly across the drawers and on the top surface to prevent strain on the

frame and fabric.

TROUBLESHOOTING

Common Issues and Solutions

Issue	Possible Cause	Solution
Drawers sag or bulge	Overfilled or excessively heavy items	Reduce the weight or volume of items in the drawer. Distribute contents more evenly.
Drawers pull out completely	This is a design feature; drawers are not on traditional glides	Be mindful when pulling drawers out; they are designed to be fully removable for convenience.
Dresser feels wobbly	Loose connections or uneven floor	Tighten all assembly screws. Adjust the leveling feet at the bottom of the dresser to compensate for uneven flooring. Ensure anti-tipping accessories are properly installed if applicable.
