OKNIFE Titanium Alloy Damascus Bead with Lanyard Instruction Manual

Model: O-Obead-TI#GD-US

1. PRODUCT OVERVIEW

The OKNIFE Titanium Alloy Damascus Bead with Lanyard is a compact and lightweight accessory designed for personalization and enhancement of Everyday Carry (EDC) items such as knives and flashlights. Crafted from high-grade titanium alloy, it features a unique Damascus pattern and comes with a length of paracord for custom lanyard creation.

Key Features:

- **DIY Personalization:** Includes 60CM of blue paracord for crafting custom lanyards.
- **Premium Titanium Construction:** Made from lightweight, corrosion-resistant titanium with a sandblasted surface.
- **Elegant Design:** Features a subtle light-gray finish with a brushed surface and etched brand logo, showcasing a unique Damascus pattern.
- **Versatile Compatibility:** Enhances the functionality and aesthetic appeal of various EDC gear.
- **Customization Potential:** Titanium material allows for anodizing or heat-treating to achieve unique colors.

2. PACKAGE CONTENTS

Upon opening your OKNIFE Titanium Alloy Damascus Bead package, please ensure all the following items are present:

- 1 x OKNIFE Titanium Alloy Damascus Bead
- 1 x 60CM Blue Paracord

3. SETUP AND INSTALLATION

The Titanium Alloy Damascus Bead is designed for integration with a paracord lanyard, allowing for attachment to various EDC items.

3.1 Attaching the Bead to Paracord:

1. Take the provided 60CM blue paracord.
2. Fold the paracord in half to find its midpoint.
3. Thread the folded end of the paracord through the center hole of the Damascus bead.
4. Pull the loop of the paracord through the bead, then pass the two loose ends of the paracord through this loop. This creates a simple knot that secures the bead.
5. Tighten the knot gently to secure the bead in place.

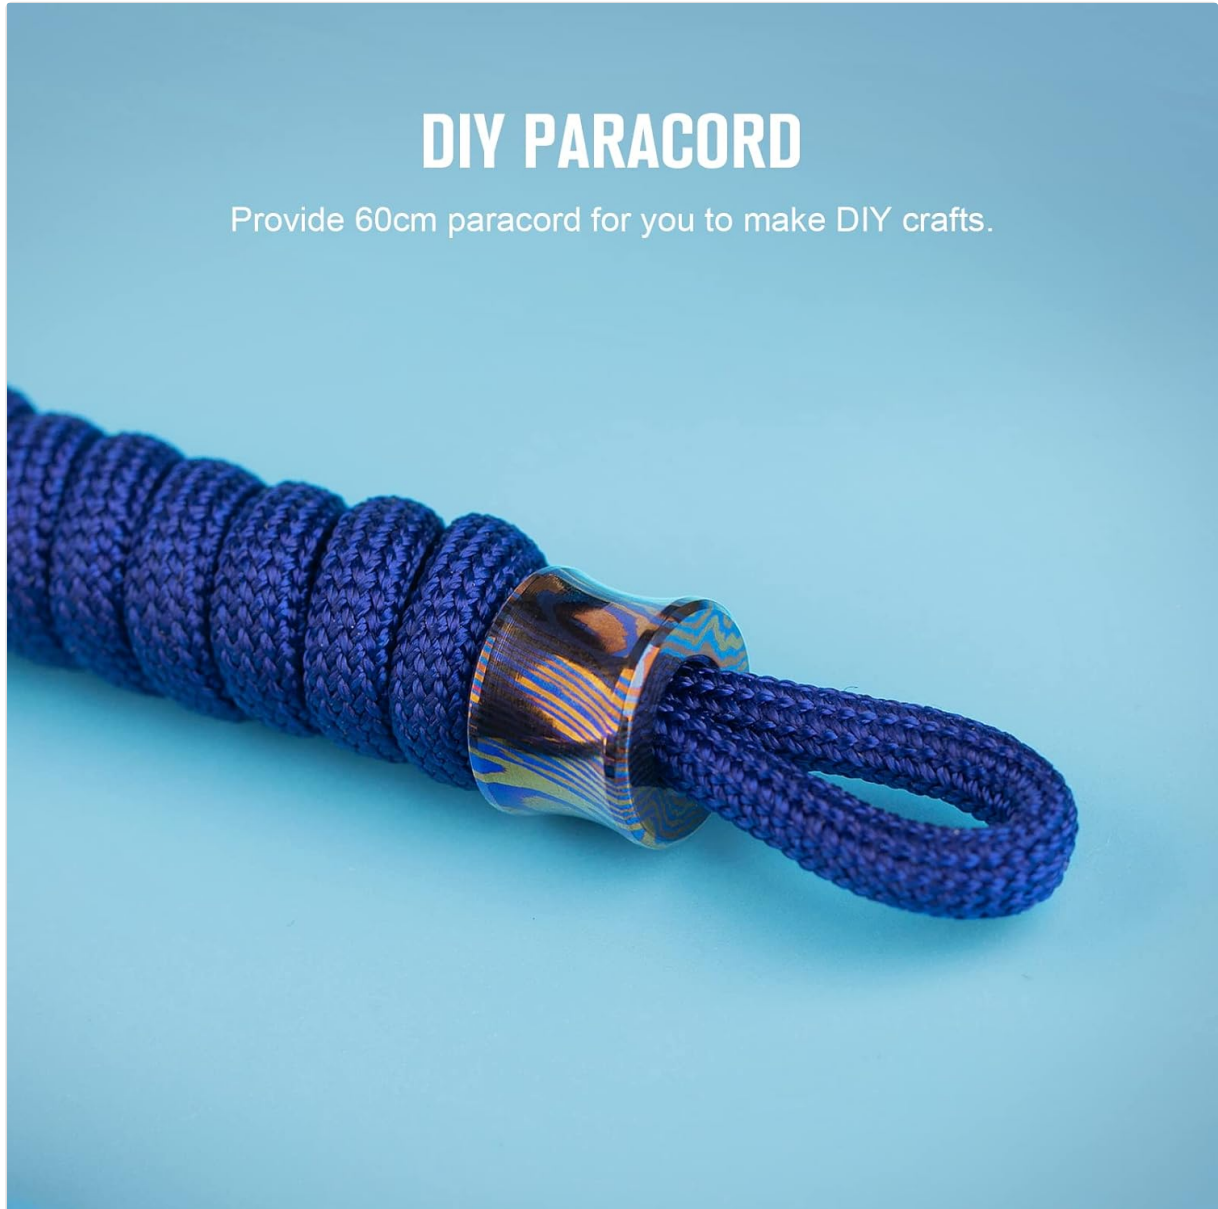

Image 3.1: Illustration of threading the paracord through the bead to create a lanyard.

3.2 Creating a Lanyard:

Once the bead is attached, you can braid or knot the remaining paracord into a lanyard style of your preference. There are numerous paracord knotting techniques available online for various aesthetic and functional purposes.

4. OPERATING AND USAGE

The OKNIFE Titanium Alloy Damascus Bead with Lanyard serves as an aesthetic and functional

enhancement for your Everyday Carry (EDC) items.

4.1 Attaching to EDC Gear:

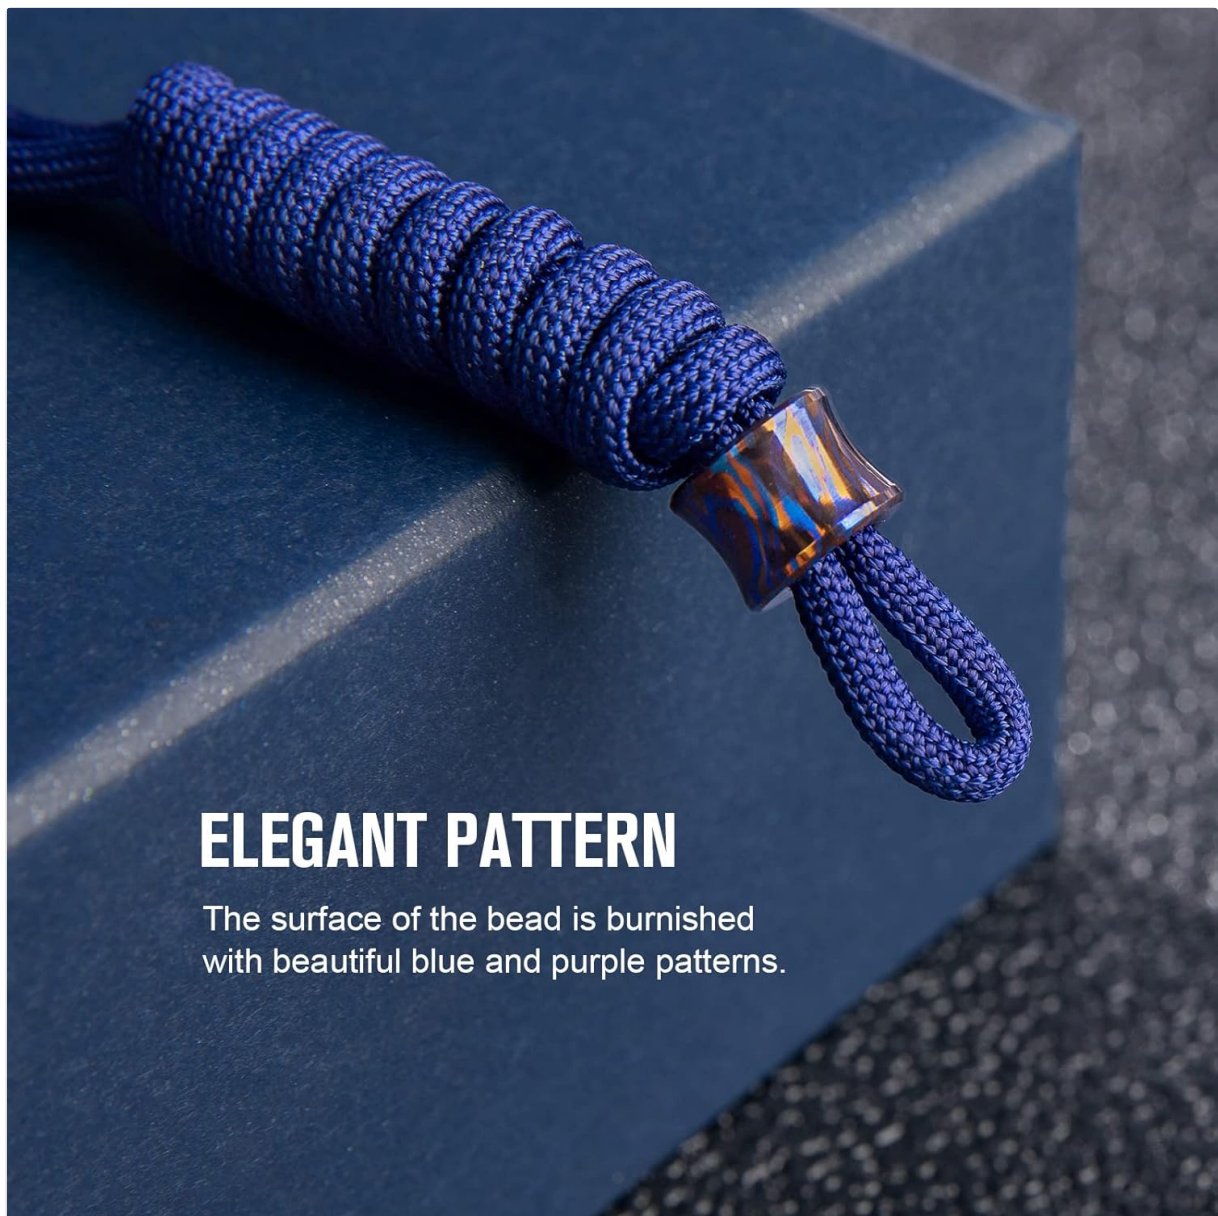

The completed lanyard with the bead can be attached to the lanyard hole of your knife, flashlight, keys, or other compatible EDC tools. This can improve grip, provide a quick retrieval point, or simply add a personalized touch.

4.2 Aesthetic Enhancement:

The unique Damascus pattern and titanium finish of the bead are designed to complement the appearance of your gear, adding a distinctive and elegant element.

ELEGANT PATTERN

The surface of the bead is burnished with beautiful blue and purple patterns.

5. MAINTENANCE

The OKNIFE Titanium Alloy Damascus Bead is constructed from durable materials requiring minimal maintenance.

5.1 Cleaning:

To clean the bead, wipe it with a soft, damp cloth. For more stubborn dirt, a mild soap solution can be used, followed by thorough rinsing and drying. Avoid harsh chemicals or abrasive materials that could damage the finish.

5.2 Material Properties:

Titanium is naturally corrosion-resistant, ensuring longevity and durability. The Damascus pattern is inherent to the alloy and will not fade with normal use.

TI DAMASCUS

Made of over-forged titanium alloy,
Obead is sturdy and wear resistant.

6. TROUBLESHOOTING

As a simple accessory, the Titanium Alloy Damascus Bead typically does not encounter complex issues. However, if you experience any concerns:

- **Lanyard not secure:** Ensure the paracord knot is tied correctly and tightened firmly around the bead. Refer to Section 3.1 for re-attachment instructions.
- **Discoloration:** While titanium is durable, prolonged exposure to certain chemicals or extreme conditions might affect its surface. Clean as per Section 5.1.

7. SPECIFICATIONS

Feature	Detail
Product Dimensions	0.47 x 0.47 x 0.35 inches
Weight	0.18 ounces (approximately 5.1 grams)

Item Model Number	O-Obead-TI#GD-US
Material	Titanium Alloy (Damascus)
Metal Type	Titanium
Clasp Type	Paracord (user-assembled)
Gem Type	No Gemstone
Included Paracord Length	60 CM

LIGHTWEIGHT

With weight only 3g, it does not cause any overhang when you using your edc.
