TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not turn on.	Not properly connected to power source or defective unit.	Ensure the USB cable is securely connected to both the device and a working power source. Try a different USB adapter or port. If the issue persists, contact customer support.
No sound or low volume.	Volume set too low or sound option not selected.	Increase the volume using the Volume Up button. Ensure a sound is selected using the Music Note button.
Bark sensor not activating.	Bark sensor not enabled or ambient noise too low.	Ensure the Bark Sensor button is pressed and its indicator light is on. The sensor is designed to react to loud barks; very soft sounds may not trigger it.
Device turns off unexpectedly.	Timer activated.	Check the timer setting. If you desire continuous play, ensure no timer duration is selected.
