## Polaris P40

# Polaris Quattro P40 Pressure Side Pool Cleaner Instruction Manual

Model: P40

## PRODUCT OVERVIEW

The Polaris Quattro P40 is a pressure-side pool cleaner designed for all in-ground pool surfaces. It effectively cleans floors, walls, and the waterline. This cleaner is powered by a booster pump and features an extra-large debris intake and a dual-stage filtration canister for efficient debris collection.

- **Versatile Cleaning:** Suitable for all in-ground pool surfaces, from floor to waterline.
- **Powerful Suction:** Equipped with three powerful venturi jet vacuums and an extra-large debris intake to collect large debris like acorns, leaves, and pebbles.
- **Dual Filtration:** Features a large-capacity dual-filtration canister that captures both large debris and fine particles.
- **Transparent Lid:** A transparent window allows for easy monitoring of debris levels in the canister.
- **Active Scrubbing:** Scrubbing brushes actively clean the pool surfaces as the unit navigates.

## SETUP INSTRUCTIONS

Follow these steps to properly set up your Polaris Quattro P40 pool cleaner:

1. **Connect to Pressure Line:** Connect the pool cleaner to a dedicated pressure line in your pool system.
2. **Booster Pump Check:** Ensure your booster pump is correctly installed and fully functional. The Polaris Quattro P40 requires a booster pump for operation.
3. **Attach Hose:** Place the cleaner in the pool and securely attach the 31 ft feed hose to the unit and the pressure line.
4. **Initial Operation:** Turn on the booster pump and observe the cleaner to confirm it is operating as expected.

## OPERATING INSTRUCTIONS

Once set up, the Polaris Quattro P40 operates automatically to clean your pool. Monitor its performance to ensure optimal cleaning.

- **Automatic Navigation:** The cleaner will navigate the pool independently, sweeping, scrubbing, and vacuuming debris from the floor to the waterline.
- **Water Circulation:** While cleaning, the Quattro P40 circulates clean, filtered water throughout the entire pool.
- **Debris Collection:** Debris is collected in the large-capacity dual-filtration canister. The transparent lid allows you to see when the canister is full.

## MAINTENANCE

Regular maintenance ensures the longevity and efficiency of your Polaris Quattro P40.

- 1. Canister Cleaning:** Regularly clean the dual-stage filtration canister. The transparent lid indicates when it's full. Simply remove the canister and rinse it thoroughly to discard collected debris.
- 2. Brush Inspection:** Periodically inspect the scrubbing brushes for wear and tear. Replace them if they appear damaged or ineffective.
- 3. Hose Check:** Ensure the 31 ft feed hose is free from kinks or damage that could impede water flow or cleaner movement.

## TROUBLESHOOTING

If your Polaris Quattro P40 is not performing as expected, consider the following:

- No Movement/Poor Suction:**
  - Check that the booster pump is running and providing adequate pressure.
  - Inspect the feed hose for any blockages, kinks, or leaks.
  - Ensure the filtration canister is not full and is properly seated.
  - Verify that the debris intake is clear of large obstructions.

- **Incomplete Coverage:**

- Check for proper hose length; too much or too little hose can affect coverage.
- Ensure the pool water chemistry is balanced, as this can sometimes affect cleaner performance.

## SPECIFICATIONS

Feature	Detail
<b>Brand</b>	Polaris
<b>Model Name</b>	Quattro P40
<b>Item Model Number</b>	F40
<b>Power Source</b>	AC (via booster pump)
<b>Item Weight</b>	26 Pounds
<b>Hose Length</b>	31 Feet
<b>Material</b>	Plastic
<b>Color</b>	White
<b>Product Dimensions</b>	20.3" L x 19.8" W x 13.1" H
<b>Installation Type</b>	Requires existing pressure line
<b>Control Method</b>	Touch
<b>Assembly Required</b>	No

## WARRANTY AND SUPPORT

The Polaris Quattro P40 comes with a **Limited Warranty**. For specific warranty details, claims, or technical support, please refer to the documentation included with your product or contact Polaris customer service.

For technical support, you may call 1-800-822-7933 (as indicated on some product images/controls).

# Combine with Polaris® Booster Pump for Peak Performance

The Polaris PB4-60 Booster Pump provides maximum power, so your cleaner can pick up even the largest debris while circulating clean, filtered water throughout all areas of the pool.

- ✓ Energy efficient pump—operates on low flow filter pumps
- ✓ Best pump to power your Polaris pool cleaner
- ✓ Improved hydraulic design for optimal performance and efficiency
