ILIFE W90

ILIFE W90 Cordless Wet Dry Vacuum Cleaner User Manual

Model: W90 | Brand: ILIFE

1. Introduction

The ILIFE W90 is a versatile cordless wet dry vacuum cleaner designed for efficient cleaning of hard floors. It combines vacuuming and mopping functions into a single step, leaving your hard floors dry and clean. This manual provides detailed instructions for the safe operation, maintenance, and troubleshooting of your ILIFE W90.

The ILIFE W90 Cordless Wet Dry Vacuum Cleaner.

2. Safety Instructions

To ensure safe operation, please read and follow all instructions carefully before using the appliance.

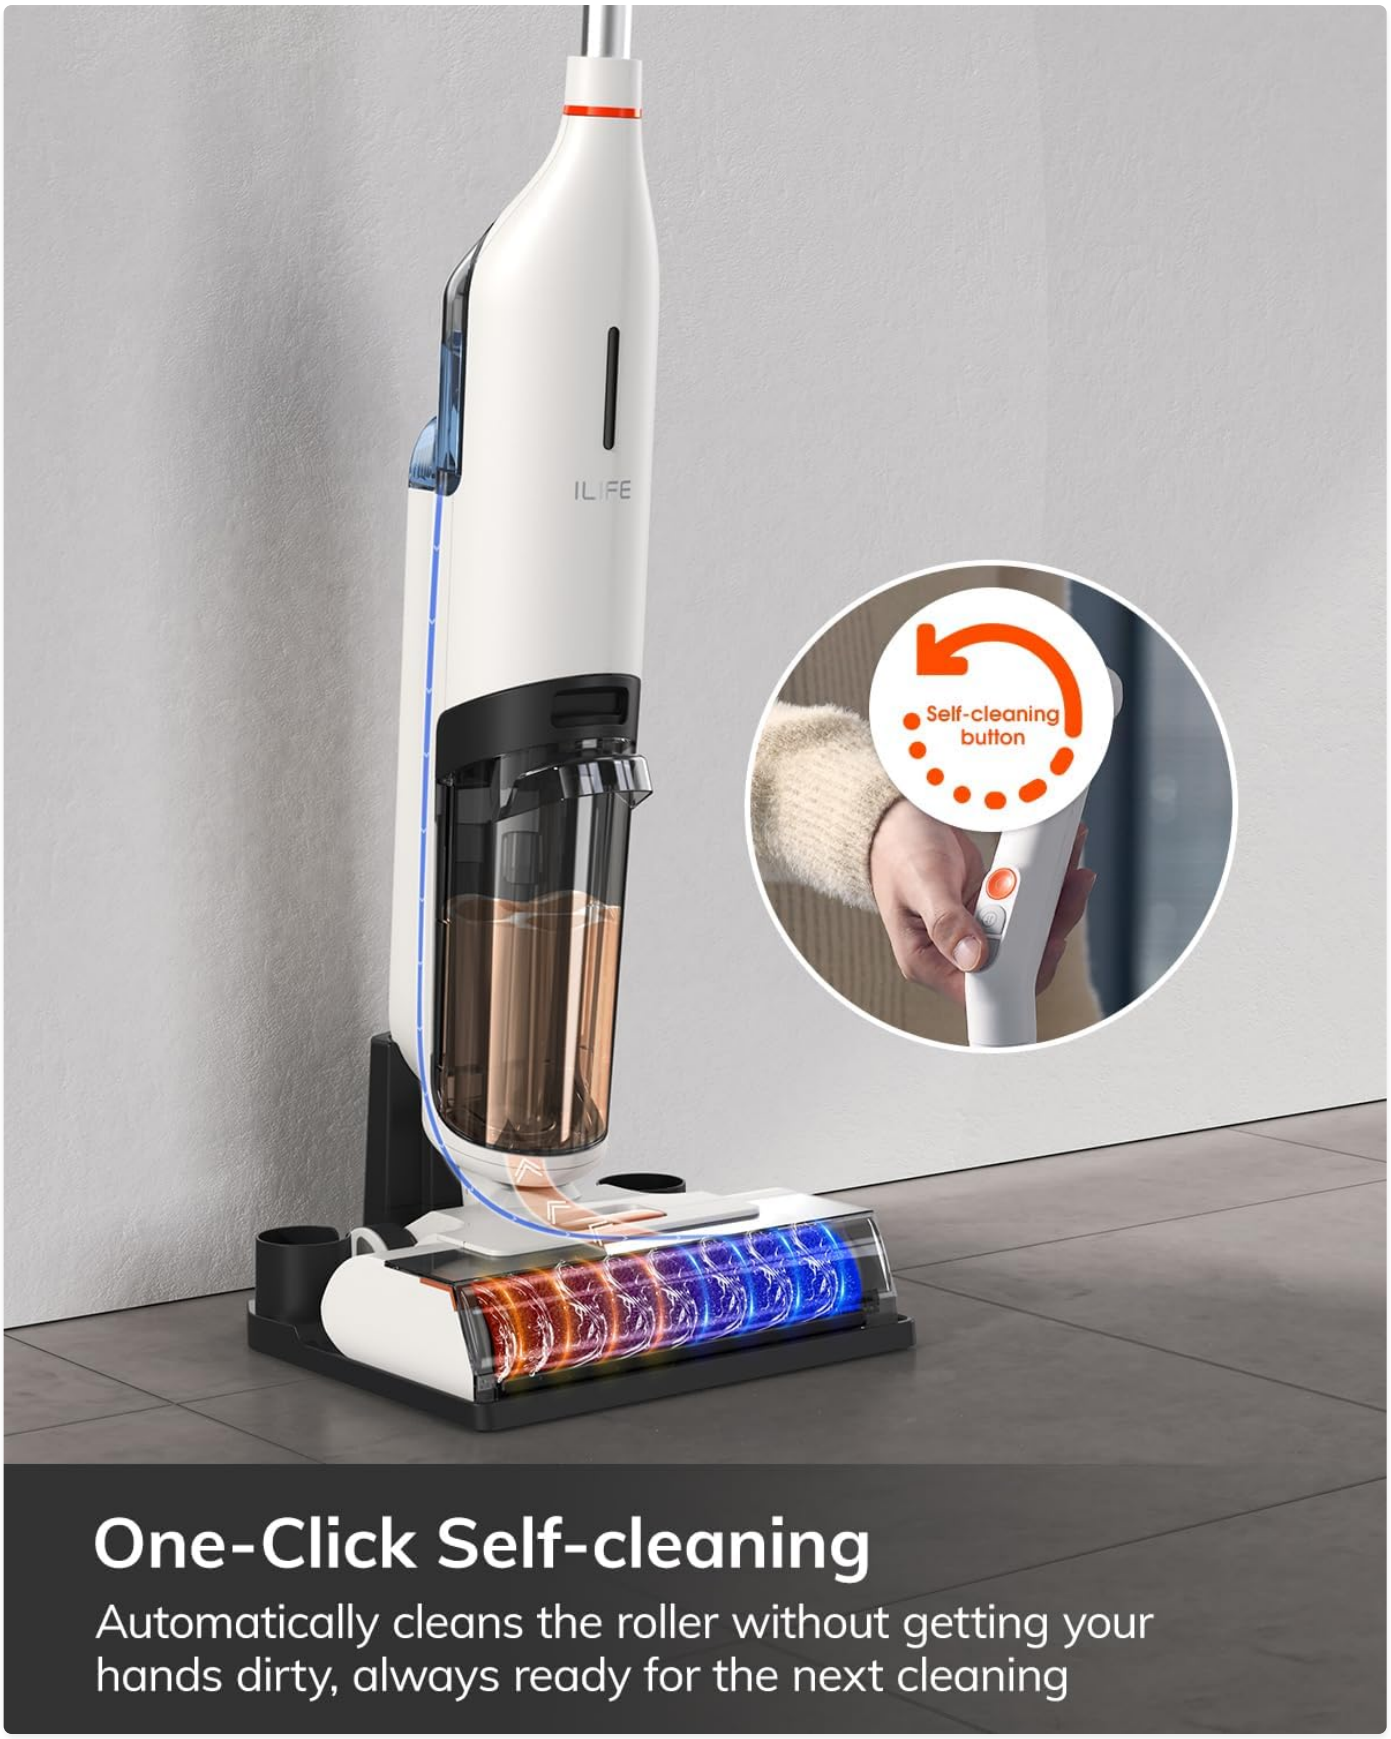

- Always use the appliance with the correct voltage as specified.
- Do not immerse the appliance or its electrical components in water or other liquids.
- Keep the appliance out of reach of children and pets.
- Do not pick up flammable or combustible liquids, large debris, sharp objects, or hot ashes.
- Use only cleaning solutions specifically designed for wet dry vacuums and recommended by ILIFE.

- Unplug the appliance from the power outlet before performing any maintenance or cleaning.
- Do not operate the appliance if it is damaged or malfunctioning. Contact customer support for assistance.

3. What's in the Box

Verify that all components are present in the packaging:

- 1x W90 Wet Dry Vacuum Cleaner
- 1x Charging Dock
- 1x Cleaning Tool
- 1x Sponge Filter
- 1x Cleaning Solution
- 1x Power Adapter
- 1x User Manual (this document)

All components included with the ILIFE W90.

4. Product Overview

Familiarize yourself with the main parts of your ILIFE W90:

- **Handle with Controls:** Contains power button, mode selection, and self-cleaning button.

- **Clean Water Tank:** Holds fresh water and cleaning solution.
- **Dirty Water Tank:** Collects dirty water and debris.
- **Brush Roller:** Cleans and scrubs the floor.
- **Floor Head:** Houses the brush roller and suction inlet.
- **Charging Dock:** Used for charging and self-cleaning.

The ILIFE W90 features separate clean and dirty water tanks for optimal cleaning.

5. Setup

5.1 Assembly

1. Insert the handle into the main body of the vacuum until it clicks securely into place.
2. Ensure the clean water tank and dirty water tank are correctly installed.

5.2 Charging

1. Place the W90 on its charging dock.
2. Connect the power adapter to the charging dock and plug it into a wall outlet.
3. The indicator lights will show charging status. Fully charge the appliance before first use, which typically takes several hours.

6. Operation

6.1 Filling the Clean Water Tank

1. Remove the clean water tank from the main unit.
2. Fill the tank with clean water up to the MAX line. For enhanced cleaning, add a small amount of recommended cleaning solution.
3. Securely reattach the clean water tank to the vacuum.

6.2 Starting Cleaning

1. Press the power button on the handle to turn on the appliance.
2. The W90 will begin vacuuming and mopping simultaneously. It is suitable for various hard floor surfaces including hardwood, marble, laminate, and tile.
3. Move the vacuum forward and backward over the desired cleaning area. The dual water tank system ensures that clean water is continuously applied while dirty water is collected separately, preventing secondary contamination.

The ILIFE W90 efficiently handles both dry and wet messes in one pass.

6.3 Intelligent Voice Prompts

The ILIFE W90 features an intelligent voice prompting system that provides real-time updates on its working status and alerts for issues such as low battery, roller brush checks, clean water tank shortage, or full dirty water tank. This system is designed to simplify operation for all users.

The vacuum provides smart voice and light reminders for various statuses.

7. Maintenance

Regular maintenance ensures optimal performance and extends the lifespan of your ILIFE W90.

7.1 One-Button Self-Cleaning

1. After cleaning, place the W90 back on its charging dock.
2. Ensure there is sufficient clean water in the clean water tank and the dirty water tank is not full.
3. Press the self-cleaning button (usually located on the handle). The machine will initiate a one-minute self-cleaning cycle to clean the roller brush automatically.
4. This feature helps maintain the roller brush and prevents odors.

The one-click self-cleaning function automatically cleans the brush roller.

7.2 Manual Cleaning of Components

For thorough cleaning, periodically clean the following components:

- **Dirty Water Tank:** Empty and rinse the dirty water tank after each use. Clean any debris or residue.
- **Brush Roller:** Remove the brush roller and rinse it under running water. Use the provided cleaning tool to remove any tangled hair or debris. Allow it to air dry completely before reinserting.
- **Sponge Filter:** Remove the sponge filter from the dirty water tank. Rinse it under running water and allow it to air dry completely before reinstallation. Replace the filter if it shows signs of wear or damage.
- **Floor Head:** Wipe down the inside of the floor head to remove any accumulated dirt or grime.

8. Troubleshooting

If you encounter issues with your ILIFE W90, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Appliance does not turn on	Low battery; Power adapter not connected; Appliance not properly seated on charging dock.	Charge the battery; Ensure power adapter is securely connected; Re-seat appliance on charging dock.
Poor suction or cleaning performance	Dirty water tank full; Clean water tank empty; Clogged brush roller or air inlet; Dirty filter.	Empty dirty water tank; Refill clean water tank; Clean brush roller and check for blockages; Clean or replace sponge filter.
Leaves streaks on floor	Dirty roller brush; Dirty water tank full; Incorrect cleaning solution.	Run self-cleaning cycle or manually clean roller brush; Empty dirty water tank; Use recommended cleaning solution.
Unpleasant odor from appliance	Dirty water tank or brush roller not cleaned thoroughly; Moisture trapped in components.	Thoroughly clean dirty water tank, brush roller, and filter. Allow all components to air dry completely before reassembly.

If the problem persists after trying these solutions, please contact ILIFE customer support.
