GDLF LNG754754m

GDLF Outdoor Storage Cabinet Model LNG754754m Instruction Manual

Comprehensive guide for assembly, operation, and maintenance.

INTRODUCTION

Thank you for choosing the GDLF Outdoor Storage Cabinet. This manual provides essential information for the safe assembly, operation, and maintenance of your new outdoor prep table. Please read these instructions thoroughly before use and retain them for future reference.

IMPORTANT SAFETY INFORMATION

WARNING:

- Ensure that cabinets are placed on a level surface.
- Use wall anchors or brackets if necessary to secure taller cabinets and prevent tipping.
- Do not overload shelves. Refer to specifications for maximum weight recommendations.
- Keep children and pets away from the assembly area.
- Always use appropriate tools and follow assembly instructions carefully to prevent injury.

PACKAGE CONTENTS

Before beginning assembly, verify that all parts are present and undamaged. If any parts are missing or damaged, do not proceed with assembly and contact customer support.

While a detailed parts list is not provided here, typical components include:

- Wood panels for frame, shelves, and doors
- Stainless steel tabletop
- Caster wheels (with brakes)
- Hardware (screws, bolts, hinges, handles)
- Accessory hooks
- Waterproof cover
- Assembly tools (e.g., Allen wrench)

SETUP AND ASSEMBLY

Assembly is required for this product. It is recommended that two people assemble the cabinet. Follow the manufacturer's instructions provided with the product for detailed, step-by-step guidance. An electric screwdriver can expedite the process.

1. **Unpack and Inspect:** Carefully unpack all components. Lay them out on a clean, soft surface to prevent scratches. Verify all parts against the included parts list.
2. **Prepare Components:** Some wooden pieces may require airing out for a few days prior to assembly due to varnish odor. Ensure all pre-drilled holes are clear. If any are not fully punched, carefully clear them with an appropriate tool.
3. **Assemble Frame:** Begin by assembling the main wooden frame according to the diagrams in your product's assembly manual.
4. **Install Shelves:** Secure the middle and bottom shelves into the frame. Note that shelves are not solid, allowing for air circulation.
5. **Attach Cabinet Doors:** Install the cabinet doors using the provided hinges. Ensure proper alignment for smooth operation. Some pilot holes for hinges may need to be drilled.
6. **Mount Stainless Steel Top:** Carefully place and secure the stainless steel tabletop.
7. **Install Wheels and Accessories:** Attach the caster wheels to the base, ensuring that wheels with brakes are positioned for easy access. Install the side handle and accessory hooks.

OPERATING INSTRUCTIONS

The GDLF Outdoor Storage Cabinet is designed for versatile outdoor use, functioning as a prep table, serving cart, or storage unit.

- **Food Preparation:** Utilize the stainless steel top for preparing food items. The surface is easy to clean and suitable for outdoor cooking tasks.
- **Storage:**
 - The open middle shelf provides easy access storage for plates, cups, or other frequently used items.
 - The divided cabinet below offers enclosed storage. One side is designed to accommodate a standard 20lb propane cylinder, featuring a hole in the back for gas line access.
 - The accessory hooks on the side can hold grilling tools, towels, or other utensils.
- **Mobility:** The cabinet is equipped with caster wheels for easy movement. Engage the wheel brakes when the cabinet is in a desired position to ensure stability.

MAINTENANCE AND CARE

- **Cleaning:** Wipe the stainless steel top and wood surfaces with a dry cloth. For stubborn stains on the stainless steel, use a mild cleaner and soft cloth, then dry thoroughly. Avoid abrasive cleaners.
- **Wood Care:** As wood is a natural product, it is susceptible to weather, temperature, and humidity. To prolong the life of your cabinet, it is recommended to keep it on a covered patio or porch area.
- **Waterproof Cover:** A waterproof cover is included as an accessory. Use this cover when the cabinet is not in use or during inclement weather to protect it from the elements and ensure long-term durability.
- **Hardware Check:** Periodically check all screws and bolts to ensure they are tight. Retighten as necessary.

EQUIP WITH WATERPROOF COVER

TROUBLESHOOTING

This section addresses common issues you might encounter with your GDLF Outdoor Storage Cabinet.

- **Wobbly Cabinet:**

- Ensure all screws and bolts are securely tightened.
- Verify the cabinet is on a level surface. Adjust wheel brakes or use shims if necessary.

- **Doors Not Closing Properly:**

- Check hinge alignment and tightness. Adjust hinges if doors are misaligned.
- Ensure no obstructions are preventing the doors from closing fully.

- **Strong Odor After Assembly:**

- The wood varnish may emit an odor initially. Place the cabinet in a well-ventilated outdoor area for a few days to allow the odor to dissipate.

- **Caster Wheels Not Rolling Smoothly:**
 - Ensure wheel brakes are disengaged.
 - Check for debris caught in the wheels. Clean as needed.

SPECIFICATIONS

Feature	Detail
