

Lifetime 60367

Lifetime Modern Deck Box, 136 Gallon

Model: 60367

Brand: Lifetime

1. INTRODUCTION

The Lifetime Modern Deck Box is designed to provide convenient and durable outdoor storage for a variety of items, including gardening tools, lawn equipment, yard games, and outdoor seat cushions. Its robust construction ensures protection for your belongings against outdoor elements. This manual provides essential information for the assembly, operation, maintenance, and troubleshooting of your new deck box.

Figure 1.1: Front view of the Lifetime Modern Deck Box, showcasing its sleek design and gray finish.

2. SAFETY INFORMATION

Please read and understand all safety instructions before assembling or using the deck box. Failure to follow these instructions may result in injury or damage to the product.

- **Adult Assembly Required:** Assembly should be performed by adults. Keep children away from the assembly area.
- **Proper Placement:** Place the deck box on a flat, level surface to ensure stability and proper lid operation.
- **Weight Capacity:** While the deck box is sturdy enough to be used as a bench, avoid standing or jumping on the lid. Do not exceed the recommended weight capacity for seating.
- **Lockable Lid:** The lid is designed to be lockable (lock not included). Always secure the lid when storing valuable items or when children are present to prevent unauthorized access or accidental entrapment.
- **Spring-Hinge Operation:** The lid features a controlled spring-hinge for easy opening and closing. Exercise caution when opening and closing the lid to prevent pinching.
- **Ventilation:** Do not store airtight containers or items that require ventilation inside the deck box.
- **Chemical Storage:** Do not store flammable liquids, corrosive chemicals, or hazardous materials inside the deck box.

3. PARTS LIST

Before beginning assembly, ensure all components are present and undamaged. If any parts are missing or damaged, contact Lifetime customer support.

- Side Panels (2)
- Front Panel (1)
- Back Panel (1)
- Bottom Panel (1)
- Lid Assembly (1) with pre-installed spring hinges
- Hardware Kit (bolts, nuts, washers, etc.)

Figure 3.1: View of the deck box with the lid fully open, showing the interior and hinge mechanism.

4. ASSEMBLY INSTRUCTIONS

Assembly typically takes approximately one hour with basic tools. A socket wrench may be required for some bolts. Follow these general steps for assembly:

1. **Unpack and Identify:** Carefully unpack all components and lay them out. Identify each panel (side, front, back, bottom, lid) and the hardware.
2. **Assemble Base:** Attach the side panels to the bottom panel using the provided hardware. Ensure the panels are oriented correctly.
3. **Connect Front and Back Panels:** Securely attach the front and back panels to the assembled base and side panels. Ensure all connections are tight.
4. **Install Lid:** Carefully align the lid assembly with the main body of the deck box. Attach the lid using the pre-installed spring hinges and the remaining hardware. Ensure the hinges operate smoothly.
5. **Final Inspection:** Once assembled, double-check all bolts and connections to ensure they are secure. Test

the lid's opening and closing mechanism.

Figure 4.1: Illustration of the deck box in an outdoor setting, demonstrating its use for storage.

5. OPERATING INSTRUCTIONS

- **Opening the Lid:** Gently lift the lid. The controlled spring-hinge will assist in opening the lid to an angle greater than 90 degrees, preventing it from slamming shut.
- **Closing the Lid:** Gently pull the lid down. The spring-hinge will provide resistance for a smooth, controlled closure. Ensure no objects are obstructing the lid's path.
- **Locking Mechanism:** The deck box features a lockable lid (lock not included). To secure your belongings, insert a padlock through the designated hole on the lid and the corresponding loop on the main body.
- **Transporting the Deck Box:** Use the molded side handles for easy transport. Ensure the box is empty or contains minimal weight before attempting to move it.
- **Using as a Bench:** The robust construction allows the deck box to be used as a bench. Ensure the lid is fully closed and securely latched before sitting on it.

WEATHER AND STAIN RESISTANT

DESIGN ALLOWS FOR QUICK
CLEANUP OF RAIN AND SNOW

Figure 5.1: Detail of the lockable lid, highlighting the provision for a padlock (lock not included).

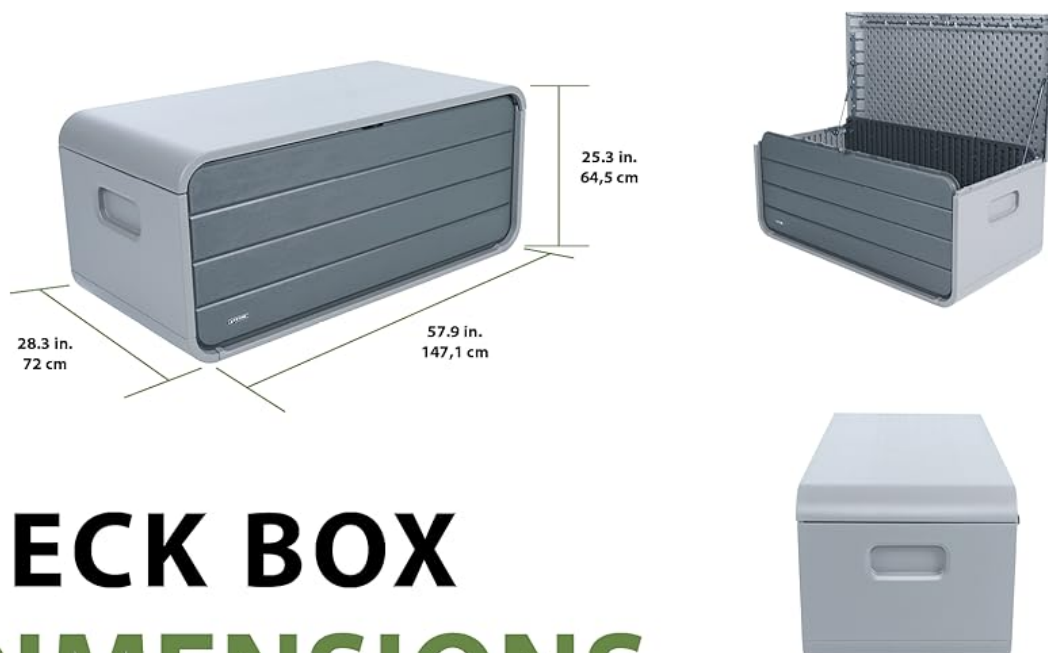

Figure 5.2: Demonstration of the integrated side handles for easy portability of the deck box.

6. MAINTENANCE AND CARE

Regular maintenance will ensure the longevity and optimal performance of your Lifetime Modern Deck Box.

- **Cleaning:** The high-density polyethylene (HDPE) construction is weather and stain resistant. Clean the

exterior with mild soap and water using a soft cloth or sponge. Rinse thoroughly with clean water. Avoid abrasive cleaners or harsh chemicals that could damage the finish.

- **Weather Protection:** The deck box is UV-protected and weather resistant, designed to withstand various outdoor elements. Its design allows for quick cleanup of rain and snow.
- **Hinge and Hardware Inspection:** Periodically inspect the spring-hinges and all hardware for any signs of wear, looseness, or damage. Tighten any loose bolts. If hinges become stiff, a silicone-based lubricant can be applied.
- **Interior Cleaning:** Keep the interior clean and dry to prevent mold or mildew growth, especially if storing fabric items.

Figure 6.1: The weather-resistant surface of the deck box, designed for easy cleaning and durability against elements.

7. TROUBLESHOOTING

This section addresses common issues you might encounter with your deck box.

Problem	Possible Cause	Solution
Lid does not close properly or is misaligned.	Improper assembly; loose hardware; obstruction.	Check that all panels are correctly aligned and all bolts are tightened. Remove any obstructions. Re-align hinges if necessary.
Lid spring-hinge not functioning correctly.	Damaged or defective spring-hinge; improper installation.	Ensure the spring-hinge is correctly installed. If damaged, contact Lifetime customer support for replacement parts.
Water inside the deck box.	Lid not fully closed; seal compromised; extreme weather conditions.	Ensure the lid is fully closed and latched. Inspect the lid's sealing edges for damage. While weather-resistant, prolonged exposure to heavy rain or standing water may allow minimal ingress. Ensure proper drainage around the box.
Parts do not align during assembly.	Manufacturing tolerance; incorrect orientation of parts.	Review the assembly instructions carefully. Ensure parts are oriented as shown. Gentle manipulation may be required to align holes. Do not force parts, as this may cause damage.

8. SPECIFICATIONS

Feature	Detail
Model Number	60367
Capacity	136 Gallons (515 Liters)

Feature	Detail
Exterior Dimensions (L x W x H)	57.9 in. x 28.3 in. x 25.3 in. (147.1 cm x 72 cm x 64.5 cm)
Interior Dimensions (L x W x H)	54 in. x 23.1 in. x 25 in. (137.2 cm x 58.8 cm x 63.6 cm)
Material	Rigid, dual-wall, high-density polyethylene (HDPE) construction; Powder-coated steel hardware
Color	Gray
Item Weight	69 Pounds (31.3 kg)
Special Features	Impact Resistant, Lockable Lid (lock not included), Weathertight, UV-Protected, Controlled Spring-Hinge Lid, Molded Side Handles, Can be used as a bench

Figure 8.1: Detailed dimensions of the Lifetime Modern Deck Box, including exterior and interior measurements.

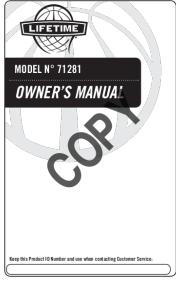

Figure 8.2: Cross-section view of the Weather Double Wall System (DWS), highlighting the strength and impact resistance of the construction.

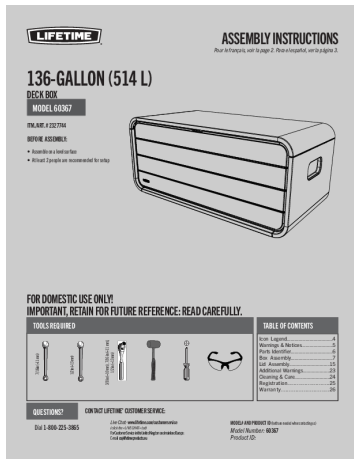

9. WARRANTY AND SUPPORT

For specific warranty details, including coverage period and terms, please refer to the documentation included with your product or visit the official Lifetime Products website. Lifetime Products is committed to providing quality products and customer satisfaction.

If you require assistance with assembly, have questions about parts, or need to report a defective component, please contact Lifetime customer support directly. Contact information can typically be found on the manufacturer's website or on the product packaging.

For returns or issues related to your purchase from a specific retailer, please consult the retailer's return policy.

D21R1/LEDN30DX1

luminaire en saillie - rond

application : Autres
caisson : aluminium laqué
source lumineuse : LED - 4000K
optique : réflecteur - Aluminium, satiné - extensible
classification UGR : <=25
flux lumineux : 3050 lm
flux lumineux spécifique : 105 lm/W
LLMF: 97% @ 50khrs (Tq=2P°C)

Product information

Caractéristiques mécaniques

dimensions : 200 mm x 212 mm
couleur : RAL9003 - blanc de sécurité (satiné)
type : luminaire individuel

Équipement électrique

driver : DALI gradable
puissance : 29 W
tension : 230-240V
fréquence : 50Hz AC
sécurité photobiologique : EN 62471: RISK GROUP 1
UNLIMITED
current : 3 A
