Aeitto Blender 8168MTB

Aeitto Professional Countertop Blender User Manual

Model: 8168MTB

Brand: Aeitto

1. Important Safety Instructions

Please read all instructions carefully before using the Aeitto Professional Countertop Blender. Retain this manual for future reference.

- Always ensure the blender is unplugged before assembly, disassembly, or cleaning.
- Do not immerse the motor base in water or other liquids.
- Keep hands and utensils out of the container while blending to reduce the risk of severe injury to persons or damage to the blender.
- Blades are sharp. Handle with care.
- Do not operate the blender with a damaged cord or plug. Contact customer service for assistance.
- Ensure the lid is securely locked in place before operating the appliance.
- Do not blend hot liquids in the blender as this may cause pressure buildup and result in scalding.
- This appliance is not intended for use by persons with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

2. Product Overview

The Aeitto Professional Countertop Blender is designed for efficient blending with its powerful motor and versatile functions.

Figure 2.1: Aeitto Professional Countertop Blender with a full jar of fruits and vegetables, ready for blending. A tamper tool is shown on the side.

2.1. Components

- **Motor Base:** Houses the 1500-watt motor and control panel.
- **68 oz Blending Jar:** Large capacity container for various ingredients.
- **Lid with Removable Cap:** Secures ingredients during blending and allows for adding items.
- **8-Point 3D Blades:** Designed for efficient crushing and blending.
- **Tamper:** Used to push ingredients towards the blades for smoother blending.

2.2. Control Panel

Figure 2.2: Detailed view of the blender's control panel, highlighting the power switch, variable speed knob, pulse switch, and digital display for speed and time, along with indicators for Ice Crush, Smoothie, and Juice presets.

- **Power ON/OFF Switch:** Activates or deactivates the blender.
- **Variable Speed Knob (1-7):** Adjusts blending speed for different consistencies.
- **Pulse Switch:** Provides short bursts of power for chopping or quick blending.
- **Digital Display:** Shows current speed and remaining time for preset functions.
- **Preset Functions (P01-Ice Crush, P02-Smoothie, P03-Juice):** One-touch programs for common blending tasks.

2.3. 8-Point 3D Blades

Figure 2.3: Visual representation of the advanced 8-point 3D blade design, engineered for superior blending and crushing performance compared to conventional blades.

The upgraded 8-point 3D blades are designed to break down fruits, vegetables, ice, and seeds more finely, ensuring maximum nutrient extraction and smoother results.

2.4. High-Speed Motor

Figure 2.4: Internal view of the powerful 1800-watt industrial-grade motor, highlighting its fast heat dissipation and odor-free operation for consistent performance.

Equipped with an 1800-watt industrial-grade motor, the blender achieves a peak speed of 25,000 RPM, providing efficient blending with less heat and no odor.

2.5. Large Capacity Jar

Figure 2.5: The 68 oz blending jar, demonstrating its large capacity suitable for preparing multiple servings of smoothies, juices, purees, and other blended items.

The 68 oz (approximately 2-liter) blending jar is designed to serve up to 6 people, making it suitable for families or commercial use.

3. Getting Started

3.1. Unpacking

- Carefully remove all components from the packaging.
- Retain packaging materials for storage or in case of return.
- Check for any damage during transit. If damaged, do not use and contact customer support.

3.2. Initial Cleaning

- Before first use, wash the blending jar, lid, and tamper in warm, soapy water. Rinse thoroughly and dry.
- Wipe the motor base with a damp cloth. Do not immerse the motor base in water.

3.3. Assembly

1. Place the motor base on a clean, dry, and stable surface.
2. Ensure the blending jar is empty and clean.
3. Carefully place the blending jar onto the motor base, aligning it correctly. The jar should sit firmly.
4. Add your ingredients to the jar. Do not exceed the MAX fill line.
5. Secure the lid onto the blending jar. Ensure the removable cap is in place.

4. Operating Your Blender

4.1. Power On/Off

- Plug the blender into a standard 110V electrical outlet.
- Flip the **POWER** switch to the 'ON' position. The digital display will illuminate, indicating standby mode.
- To turn off, flip the **POWER** switch to the 'OFF' position and unplug the appliance.

4.2. Variable Speed Control

- After turning on the power, rotate the variable speed knob clockwise to select a speed from 1 to 7.
- Start with a lower speed for initial blending and gradually increase as needed for desired consistency.

4.3. Preset Functions

The blender features 3 preset functions for convenience:

- **P01 - Ice Crush:** Ideal for crushing ice cubes.
- **P02 - Smoothie:** Perfect for making smooth and creamy beverages.
- **P03 - Juice:** Designed for extracting juice from fruits and vegetables.

To use a preset function, rotate the variable speed knob to select P01, P02, or P03. The blender will automatically run through the program and stop when complete.

4.4. Pulse Function

- The **PULSE** switch provides short bursts of high-speed blending.
- Use the pulse function for chopping ingredients, breaking down large pieces, or achieving a chunky texture.
- For best results when crushing ice, use the **ICE CRUSH (P01)** preset or the **PULSE** function intermittently.

5. Care and Maintenance

Proper cleaning and maintenance ensure the longevity and optimal performance of your blender.

Figure 5.1: The blender jar is shown undergoing self-cleaning with water and soap, and also placed in a dishwasher, illustrating its easy cleaning features.

5.1. Cleaning the Blending Jar

- **Self-Cleaning:** For quick cleaning, add warm water and a drop of dish soap to the jar. Secure the lid and run the blender on a low speed for 30-60 seconds, or use the 'Juice' preset (P03) for a quick cycle. Rinse thoroughly.
- **Dishwasher Safe:** The blending jar and lid are dishwasher safe. Place them on the top rack of your dishwasher.
- For stubborn residue, soak the jar in warm, soapy water before cleaning.

5.2. General Cleaning

- Wipe the motor base with a damp cloth. Do not use abrasive cleaners or immerse in water.
- Ensure all parts are completely dry before storing.

6. Specifications

Feature	Specification
Brand	Aeitto
Model	Blender 8168MTB
Motor Power	1500-Watt (Peak 1800-Watt)
Jar Capacity	68 oz (approx. 2 Liters)
Number of Speeds	7
Preset Functions	Ice Crush, Smoothie, Juice
Blades	8-Point 3D Blades
Power Source	Corded Electric
Voltage	110 Volts
Dishwasher Safe	Yes (Jar and Lid)
Product Dimensions	8.27"D x 7.24"W x 16.73"H
Item Weight	8.84 pounds

7. Troubleshooting

If you encounter any issues with your Aeitto Professional Countertop Blender, please refer to the following common troubleshooting steps:

- **Blender does not turn on:** Ensure the power cord is securely plugged into a working outlet and the POWER switch is in the 'ON' position. Check if the jar is correctly seated on the motor base.
- **Ingredients are not blending smoothly:** Add more liquid, or use the tamper to push ingredients towards the blades. For tough ingredients, use the Pulse function or increase the speed.
- **Motor stops during operation:** The blender may have activated its automatic overload protection. Turn off the power, unplug the unit, remove the jar, and allow the motor to cool down for at least 15 minutes before restarting. Reduce the load in the jar before resuming.
- **Loud noise or unusual odor:** Turn off the blender immediately and unplug it. Check for any foreign objects in the jar or damage to the blades. If the issue persists, contact customer support.

8. Warranty and Support

The Aeitto Professional Countertop Blender comes with a standard manufacturer's warranty. Please refer to the warranty card included in your product packaging for specific terms and conditions.

- For warranty claims or technical support, please contact Aeitto customer service.
- Keep your purchase receipt as proof of purchase for warranty purposes.
- Do not attempt to repair the appliance yourself, as this may void the warranty.

For more information, visit the official Aeitto website or contact their customer support team.
