SAFETY INFORMATION

Please read and understand all safety instructions before assembly and use. Failure to follow these instructions may result in injury or damage to the product.

- Keep all parts and packaging materials out of reach of children.
- Assemble the desk on a soft, clean surface to prevent scratches.
- Ensure all screws and fasteners are securely tightened before use.
- Do not overload the desk or shelves beyond their stated weight capacity.
- Use only the provided power adapter and cables for the LED lights and power outlets.
- Avoid exposing the desk to excessive moisture or direct sunlight.
- If any parts are missing or damaged, do not proceed with assembly. Contact customer support immediately.
- Assembly required – use caution and follow instructions provided.

ASSEMBLY INSTRUCTIONS

Follow these steps carefully for proper assembly. It is recommended to have two people for assembly.

Step 1: Unpack and Identify Parts

Carefully unpack all components and lay them out on a clean, soft surface. Refer to the included parts list to identify each piece and ensure nothing is missing or damaged.

Step 4: Install Monitor Stand and Shelves

Secure the monitor stand to the main desk surface. Install the side storage shelves as indicated in the manual, ensuring they are stable and level.

Step 5: Insert Fabric Drawer

The fabric drawer provides convenient storage. Simply slide it into its designated slot under the main desk surface.

Step 6: Final Tightening

Once all components are in place and aligned, fully tighten all screws and fasteners. Ensure the desk is stable and does not wobble.

SETUP

After assembly, follow these steps to set up the electrical components of your desk.

Connecting the Power Outlets and USB Ports

The desk features a built-in power strip with 4 standard AC outlets and 2 USB ports. Connect the power cord from the power strip to a wall outlet. This will provide power to the integrated outlets and USB ports for charging your devices.

OPERATING INSTRUCTIONS

Using the LED Lights

The LED lights can be controlled via the smart controller or a dedicated mobile application. The smart controller allows you to:

- **Switch:** Turn the lights on or off.
- **Scene Modes:** Cycle through 12 pre-set scene modes.
- **Adjust Brightness:** Select from 3 brightness levels.
- **Static Colors:** Choose from 7 static colors.

For advanced control, download the associated mobile application (refer to the LED light packaging or a QR code on the controller for app details). The app offers over 60,000 color options, timing mode, microphone mode (lights react to

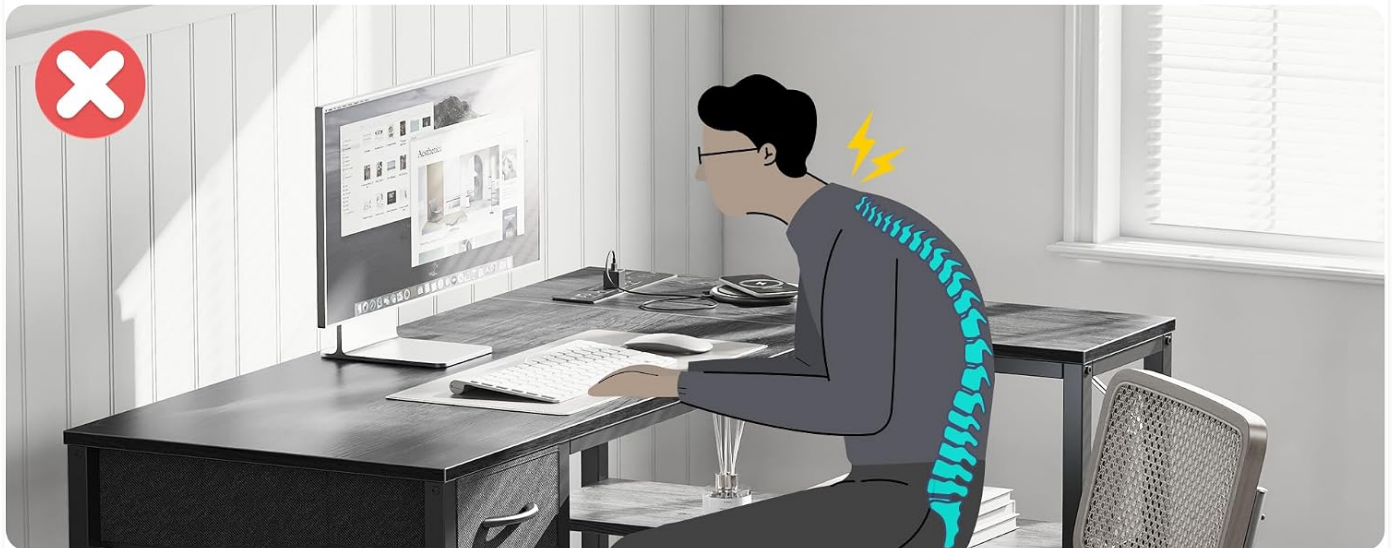

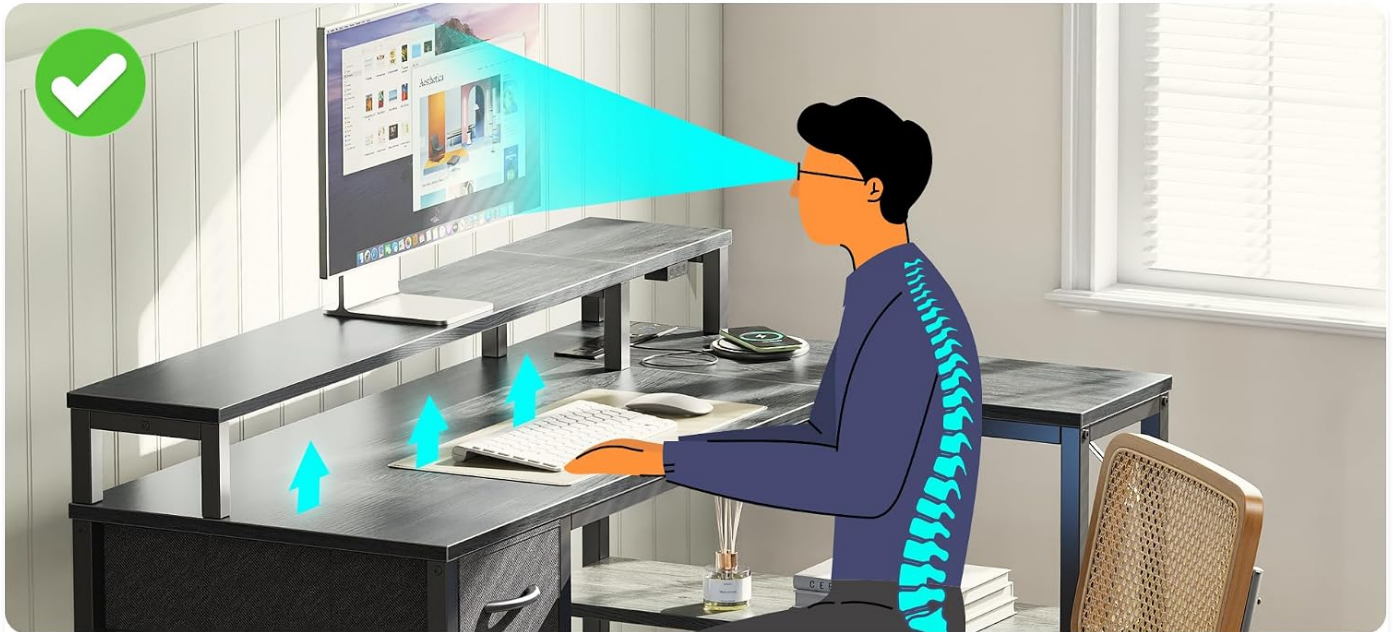

sound), and music mode.

Utilizing Power Outlets and USB Ports

Plug your electronic devices into the 4 standard AC outlets or the 2 USB ports located on the desk's power strip. These are suitable for charging phones, laptops, gaming gear and other office devices. Ensure devices do not exceed the rated capacity of the power strip.

Monitor Stand Benefits

The integrated monitor stand elevates your display, promoting better posture and reducing strain on your neck and spine during extended use. Utilize the space underneath the monitor stand for additional storage or to keep your desk organized.

MAINTENANCE

Proper care will extend the life and appearance of your desk.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Dusting:** Regularly dust the desk and LED lights to maintain optimal performance and appearance.
- **Tightening:** Periodically check all screws and fasteners and tighten them if necessary to ensure stability.
- **Spills:** Immediately wipe up any spills to prevent damage to the desk surface or electrical components.

TROUBLESHOOTING

If you encounter any issues, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Desk is wobbly	Loose fasteners; uneven floor	Ensure all screws are tightened. Adjust the adjustable feet on the desk legs to level the desk on uneven surfaces.
LED lights not working	Power not connected; loose connection; faulty strip/controller	Check if the LED strip is properly connected to the smart controller and the controller is powered. Ensure the power outlet is functional. If issues persist, contact customer support.
Power outlets/USB ports not working	Desk power cord unplugged; circuit breaker tripped; overloaded outlets	Verify the desk's main power cord is securely plugged into a working wall outlet. Check your home's circuit breaker. Reduce the number of devices plugged in if overloaded.
Fabric drawer does not slide smoothly	Obstruction; misaligned frame	Check for any items obstructing the drawer's path. Ensure the desk frame is assembled correctly and not warped.
