## Sportstech sWalk

# Sportstech sWalk Walking Pad User Manual

Model: sWalk

## 1. INTRODUCTION

This manual provides essential information for the safe and effective use of your Sportstech sWalk Walking Pad. Please read it thoroughly before operating the device and retain it for future reference. The Sportstech sWalk is designed for walking and light jogging, offering a compact and versatile solution for home or office fitness.

## 2. SAFETY INSTRUCTIONS

Adherence to these safety guidelines is crucial to prevent injury and ensure the longevity of your device.

- Always consult a physician before starting any new exercise program.
- Ensure the walking pad is placed on a flat, stable surface, away from water or moisture.
- Maintain a clear space of at least 0.6 meters (2 feet) behind and on each side of the walking pad.
- Do not allow children or pets near the device during operation.
- Wear appropriate athletic footwear. Avoid loose clothing that could get caught in moving parts.
- Do not operate the walking pad if it is damaged or malfunctioning.
- Unplug the device from the power outlet when not in use or before cleaning/maintenance.
- The maximum user weight for this device is specified in the 'Specifications' section. Do not exceed this limit.
- Do not step on or off the walking belt while it is in motion.

## 3. PACKAGE CONTENTS

Verify that all components are present in the packaging:

- Sportstech sWalk Walking Pad
- Power Cable
- Remote Control
- User Manual (this document)

- Lubricant (silicone oil)

## 4. SETUP

1. **Unpacking:** Carefully remove the walking pad from its packaging.
2. **Placement:** Place the sWalk on a firm, level surface. Ensure adequate clearance around the device as per safety instructions.
3. **Power Connection:** Connect the power cable to the walking pad's power port and then plug it into a grounded electrical outlet.
4. **Initial Inspection:** Before first use, inspect the walking belt for any signs of damage or misalignment.

## 5. OPERATING INSTRUCTIONS

### 5.1 Power On/Off

- **To Power On:** Plug in the device and press the power button on the walking pad or remote control. The display will illuminate.

- **To Power Off:** Press the power button again. The device will gradually slow down and stop. Unplug from the wall for complete power disconnection.

## 5.2 Using the Remote Control

The remote control allows for convenient adjustment of settings during your workout.

- **Start/Stop:** Press to begin or end a workout session.
- **Speed Adjustment:** Use the '+' and '-' buttons to increase or decrease the walking speed. Speed can be adjusted in increments up to 6 km/h.
- **Mode Selection:** Cycle through display modes (e.g., time, distance, calories, speed).

## 5.3 Display Functions

The integrated LED display provides real-time workout data:

- **Time:** Duration of your workout.
- **Distance:** Total distance walked.
- **Calories:** Estimated calories burned.
- **Speed:** Current walking speed in km/h.

## 6. FEATURES

- **Compact Design:** The sWalk's slim profile and integrated wheels allow for easy storage and portability.
- **Patented LED Function:** The walking belt features LED lighting that changes color based on speed or pulse, providing visual feedback during your workout.
- **Bluetooth Connectivity:** Connect your sWalk to the Sportstech Live app via Bluetooth for enhanced workout tracking, professional guidance, and community challenges. The device can also connect to compatible TVs for an immersive experience.
- **Quiet Operation:** Engineered for low noise, making it suitable for use in home or office environments without significant disturbance.

## 7. MAINTENANCE

Regular maintenance ensures optimal performance and extends the lifespan of your sWalk Walking Pad.

- **Cleaning:** Wipe down the walking pad with a damp cloth after each use. Avoid abrasive cleaners.
- **Belt Lubrication:** The walking belt requires periodic lubrication with silicone oil to reduce friction and wear. Refer to the specific instructions provided with the lubricant for frequency and application method. Ensure the device is unplugged before lubrication.
- **Belt Adjustment:** If the walking belt starts to slip or drift to one side, it may require adjustment. Consult the troubleshooting section or contact customer support for guidance.
- **Storage:** When storing the sWalk upright, ensure that any oil ports are sealed or positioned to prevent lubricant leakage onto internal components.

## 8. TROUBLESHOOTING

| Problem | Possible Cause | Solution |
|---------|----------------|----------|
|---------|----------------|----------|

| Problem                        | Possible Cause                                    | Solution   |
|--------------------------------|---|--|
| Walking pad does not power on. | Power cable not connected; power outlet issue.    | Ensure power cable is securely plugged in. Test the outlet with another device.  |
| Walking belt slips during use. | Insufficient lubrication; belt tension too loose. | Apply silicone lubricant as per maintenance instructions. Adjust belt tension (refer to specific instructions or contact support). |
| Belt drifts to one side.       | Belt misalignment.                                | Adjust belt alignment screws (refer to specific instructions or contact support).  |
| Remote control not responding. | Dead batteries; remote out of range.              | Replace remote control batteries. Ensure you are within range of the walking pad.  |

If you encounter issues not listed here or require further assistance, please contact Sportstech customer support.
