# Docooler F520 Wireless Business Headset User Manual

Model: F520

## INTRODUCTION

This manual provides detailed instructions for the Docooler F520 Wireless Business Headset. Please read this manual carefully before use to ensure proper operation and to maximize the product's lifespan. Keep this manual for future reference.

The Docooler F520 is a versatile wireless headset designed for business, sport, and everyday use. It features Bluetooth 5.3 for stable connectivity, a retractable earbud for convenience, and a high-definition microphone with noise reduction for clear calls.

## PACKAGE CONTENTS

The Docooler F520 package includes:

- 1 x Docooler F520 Wireless Headset
- 1 x USB Charging Cable
- 2 x Silicone Ear Caps (various sizes)
- 1 x User Manual

## PRODUCT OVERVIEW

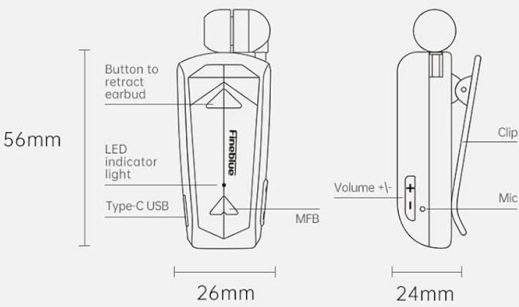

The Docooler F520 headset is designed for comfort and functionality, featuring a collar clip design and a retractable earbud.

Image: Detailed view highlighting the Type-C USB charging port, independent volume control buttons, and the three sizes of skin-friendly silicone ear caps (L, M, S) included for comfortable wear.

## SETUP

### Charging the Headset

Before first use, fully charge the headset. Connect the provided USB charging cable to the Type-C port on the headset and to a compatible USB power source (e.g., computer USB port, wall adapter). The LED indicator will illuminate during charging and change color or turn off when fully charged (refer to

specific LED behavior in the diagram).

- **Charging Time:** Approximately 2 hours.
- **Battery Life:** Up to 10 hours talk time, 14 hours music time (at 70% volume), 120 hours standby time.

## Bluetooth Pairing

The F520 headset utilizes advanced Bluetooth 5.3 technology for a stable, fast, and energy-efficient wireless connection.

# New BT 5.3

## Lower power consumption and smoother

Chip upgrade version 5.3, improve the stability of wireless connectivity, with lower power consumption, more stable transmission, strong anti-interference, enjoy the smooth good sound

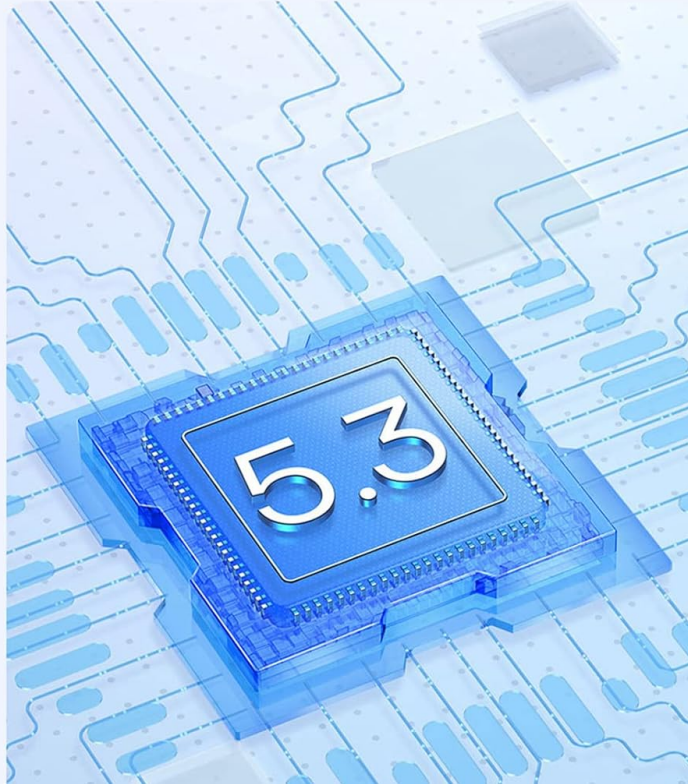

Image: Visual representation of the Bluetooth 5.3 chip, emphasizing lower power consumption and smoother performance for enhanced wireless connectivity.

1. **Power On:** Press and hold the Multi-function Button (MFB) for approximately 3 seconds until the LED indicator flashes, indicating the headset is in pairing mode.
2. **Enable Bluetooth:** On your smartphone or other Bluetooth-enabled device, go to the Bluetooth settings and ensure Bluetooth is turned on.
3. **Search for Devices:** Your device will automatically search for nearby Bluetooth devices.
4. **Connect:** Select "F520" from the list of available devices. Once connected, the LED indicator will change (e.g., slow blue flash) and you will hear an audible confirmation.

**Multi-point Connection:** The F520 supports connecting to two smartphones simultaneously. After pairing with the first device, disable Bluetooth on the first device, then pair with the second device. Re-enable Bluetooth on the first device, and the headset should connect to both.

## OPERATING INSTRUCTIONS

The F520 headset features intuitive physical buttons for easy control of calls, music, and voice assistant functions.

# Physical buttons

## Simple and easy to use

One-button multi-function button operation,  
Independent volume keys

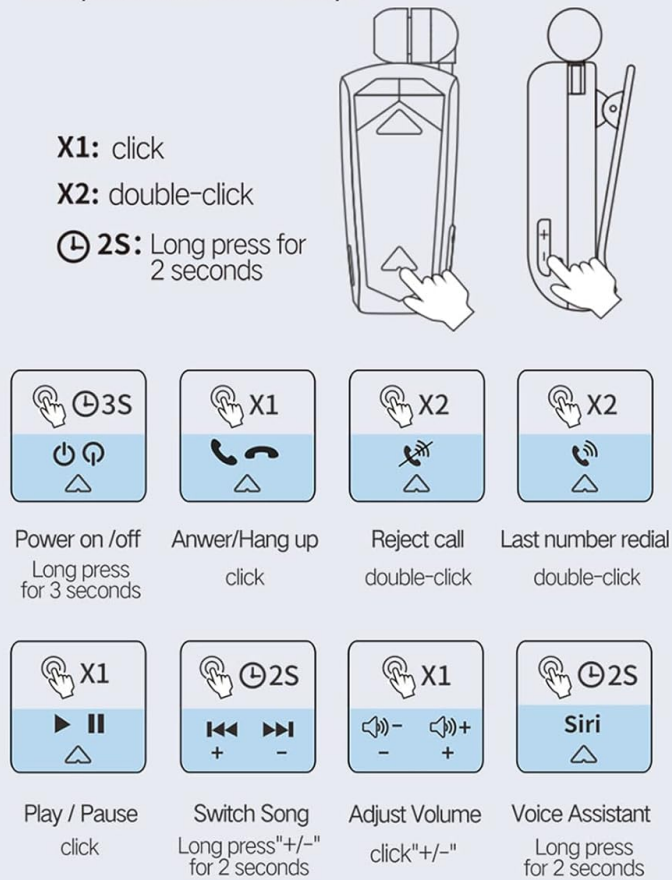

Image: Diagram illustrating the functions of the physical buttons on the F520 headset, including power, call control, music playback, volume adjustment, and voice assistant activation.

Image: A person wearing the F520 headset, demonstrating its single-ear design which allows for privacy while also maintaining environmental awareness, promoting safer travel.

## MAINTENANCE

---

### Cleaning

Wipe the headset with a soft, dry, lint-free cloth. Do not use abrasive cleaners, solvents, or harsh chemicals. Avoid getting moisture into any openings.

### Storage

Store the headset in a cool, dry place away from direct sunlight, extreme temperatures, and humidity. When not in use for extended periods, ensure the earbud cable is retracted to prevent damage.

## TROUBLESHOOTING

---

- **Headset won't turn on:** Ensure the headset is fully charged. Connect it to a power source and try again after a few minutes.
- **Cannot pair with device:** Make sure Bluetooth is enabled on your device and the headset is in pairing mode (LED flashing). Try restarting both the headset and your device. Ensure the headset is not already connected to another device.
- **No sound or low volume:** Check the volume levels on both the headset and your connected device. Ensure the headset is properly paired and selected as the audio output device.
- **Poor call quality:** Ensure the microphone is not obstructed. Move closer to your connected device to ensure a strong Bluetooth signal. Avoid environments with strong electromagnetic interference.
- **Earbud cable not retracting:** Gently press the retraction button. If it's stuck, ensure there are no obstructions. Do not force the cable.
