Aoxun G3709+base

Aoxun 9.7x7.6 FT Outdoor Metal Storage Shed Instruction Manual

Model: G3709+base | Brand: Aoxun

1. Introduction and Overview

Thank you for choosing the Aoxun Outdoor Metal Storage Shed. This manual provides essential information for the safe assembly, operation, and maintenance of your new storage solution. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

This shed is designed to provide a durable and versatile storage space for tools, garden equipment, bicycles, and other outdoor items. Its robust construction and thoughtful design ensure longevity and protection for your belongings.

Key Features:

- **Sturdy and Reliable Construction:** Made with a durable frame and thick galvanized steel, designed to withstand various weather conditions.
- **Versatile Utility:** Ideal for use as a garden storeroom, pet shelter, or organized garbage collection chamber in your backyard, garden, or patio.
- **Unique Design Elements:** Features a sloped roof to prevent water accumulation and intelligently designed air vents for proper internal airflow. Doors are padlock-compatible for enhanced security.
- **Ample Storage Space:** Provides generous space for various outdoor storage requirements.

2. Safety Information

Your safety is paramount. Please adhere to the following safety guidelines during assembly, use, and maintenance of the shed:

- **Read Instructions:** Always read and understand all assembly instructions before starting.
- **Personal Protective Equipment:** Wear appropriate personal protective equipment, including gloves, safety glasses, and sturdy footwear, during assembly to prevent injuries from sharp edges or falling objects.
- **Two-Person Assembly:** Assembly typically requires 2-3 people. Do not attempt to assemble alone.
- **Stable Ground:** Ensure the shed is assembled on a level and stable surface.
- **Anchoring:** Securely anchor the shed to the ground to prevent it from being moved or damaged by strong winds.
- **Weather Conditions:** The shed has a maximum wind resistance grade of 6 (24-30mph) and can tolerate a maximum snow thickness of 6 inches. In severe weather conditions exceeding these limits, take additional precautions or consider temporary disassembly if possible.

- **Sharp Edges:** Metal components may have sharp edges. Handle with care.
- **Children and Pets:** Keep children and pets away from the assembly area. Do not allow them to play inside or around the shed unsupervised.
- **Ventilation:** Ensure air vents are not obstructed to maintain proper airflow inside the shed.

3. Package Contents

Your Aoxun Outdoor Metal Storage Shed is packaged in multiple boxes (typically four). Each component is labeled with a part number to facilitate assembly. A detailed step-by-step manual is included. For your convenience, two pairs of gloves are provided to assist with handling components during assembly.

Image 2: Product detail diagram illustrating shed dimensions and indicating packaging in four separate boxes.

4. Setup and Assembly Instructions

Assembly of the Aoxun Outdoor Metal Storage Shed typically takes 3-5 hours with 2-3 people. Follow the detailed step-

by-step manual provided in your package. The following general steps outline the assembly process:

1. **Unpack and Identify Parts:** Carefully unpack all boxes. Lay out and identify each part using the provided part numbers and the manual's component list.
2. **Assemble the Floor Frame:** If utilizing the included floor frame, assemble it first. This frame increases stability and allows for flooring installation to isolate moisture. You can decide whether to install the metal frame according to your needs.
3. **Construct the Base:** Assemble the base structure of the shed on your chosen level surface.
4. **Install Wall Panels:** Attach the galvanized steel wall panels to the base, ensuring they are securely fastened according to the manual.
5. **Assemble the Roof Structure:** Construct the roof frame and attach the sloped roof panels. Ensure all roof joints are properly sealed to prevent leaks.
6. **Install Doors:** Mount the sliding doors and attach the secure locking handle mechanism.
7. **Final Checks:** Verify all screws and fasteners are tightened, and the shed is stable and securely anchored.

5. Operating Instructions

The Aoxun Outdoor Metal Storage Shed is designed for straightforward operation:

- **Door Operation:** The shed features sliding doors for easy access. To open, slide the doors along their tracks. To close, slide them back into position.
- **Security:** The doors are designed to be compatible with a padlock (not included) for securing your stored items.
- **Ventilation:** The integrated air vents ensure proper airflow within the shed, helping to prevent condensation and maintain a fresh environment. Ensure these vents remain unobstructed.

Image 5: An interior view of the shed, demonstrating its ample space for organizing various tools and equipment.

6. Maintenance

Regular maintenance will help prolong the life and appearance of your Aoxun Outdoor Metal Storage Shed:

- **Cleaning:** Clean the exterior of the shed periodically with mild soap and water. Avoid abrasive cleaners or harsh chemicals that could damage the galvanized steel finish.
- **Inspect for Damage:** After severe weather conditions (strong winds, heavy snow), inspect the shed for any signs of damage, loose fasteners, or structural compromise. Address any issues promptly.
- **Roof Drainage:** The sloped roof is designed for efficient rainwater runoff. Ensure that gutters (if installed) and the surrounding area are clear of debris to allow for proper drainage.
- **Door Tracks:** Keep the sliding door tracks clean and free of dirt or debris to ensure smooth operation.

Image 6: A close-up view of the galvanized steel roof, highlighting its weather-resistant properties and sloped design for water runoff.

7. Troubleshooting

If you encounter issues with your Aoxun Outdoor Metal Storage Shed, consider the following:

- **Water Leakage:** If water enters the shed, inspect all roof joints, panel seams, and around the base. Ensure all screws are tightened and consider applying a clear caulk to roof screws and any small gaps along the roof or bottom perimeter for enhanced waterproofing.
- **Instability/Flimsiness:** Ensure the shed is properly anchored to a solid, level foundation. If the structure feels unstable, double-check all fasteners and consider reinforcing the interior with additional framing (e.g., 2x4s) if necessary, especially in areas prone to high winds.
- **Difficulty with Door Operation:** Check the door tracks for any obstructions (dirt, debris) and clean them thoroughly. Ensure the doors are properly aligned on their rollers.
- **Missing Parts:** If you find any parts missing upon unpacking, refer to the contact information in the warranty section to reach customer support for assistance.

8. Specifications

Feature	Specification
Model Number	G3709+base
Brand	Aoxun
Overall Dimensions (L x W x H)	119.4" x 93.3" x 88.6" (9.7 x 7.6 FT)
Material	Galvanized Steel, Metal
Storage Capacity	266 cu.ft
Roof Weight Capacity	440 lbs
Door Style	Sliding Doors
Door Width	47.44 Inches
Door Height	61.81 Inches
Wind Resistance Grade	6 (24-30mph)
Max Snow Thickness	6 inches
Water Resistance Level	Waterproof
UV Protection	Yes
Required Assembly	Yes

9. Warranty and Support

For warranty information, missing parts, or any product-related inquiries, please contact Aoxun customer support directly. Refer to the contact details provided with your purchase documentation or visit the official Aoxun website for assistance.

When contacting support, please have your model number (G3709+base) and proof of purchase readily available.

Ask a question about this manual

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
