UPBRIGHT JLX-0805M DC Brushless Fan USB Cable

UpBright USB Cable User Manual

Model: JLX-0805M DC Brushless Fan USB Cable

1. PRODUCT OVERVIEW

This manual provides instructions for the UpBright USB Cable, designed to supply 5V DC power. It is specifically compatible with the Desk York Model JLX-0805M DC Brushless Fan Portable Adjustable Laptop Computer Notebook PC Stand, which features two cooling fans.

The cable facilitates power delivery from a standard USB-A port to devices requiring a 5V DC input via a barrel connector.

2. PACKAGE CONTENTS

- 1 x UpBright USB Cable DC 5V Power Supply Charger Cord

3. SETUP INSTRUCTIONS

Follow these steps to properly connect your UpBright USB Cable:

1. **Identify the Connectors:** The cable has two ends: a standard USB-A connector and a DC barrel connector.
2. **Connect to Power Source:** Insert the USB-A end of the cable into a compatible 5V DC USB power source. This can be a computer's USB port, a USB wall adapter, or a power bank. Ensure the power source can provide at least 0.25A for optimal performance.
3. **Connect to Device:** Insert the DC barrel connector end of the cable into the corresponding power input port on your Desk York Model JLX-0805M DC Brushless Fan Portable Adjustable Laptop Computer Notebook PC Stand.
4. **Verify Connection:** Once both ends are securely connected, the device should receive power.

4. OPERATING INSTRUCTIONS

The UpBright USB Cable operates on a plug-and-play principle. Once correctly connected to a 5V DC power source and a compatible device, it will immediately begin supplying power.

- Ensure the power source is active and providing the correct voltage (5V DC).
- Confirm that the connected device, such as the Desk York JLX-0805M fan stand, is designed to operate with a 5V DC input and the specific barrel connector size.

5. MAINTENANCE

Proper care extends the life of your USB cable:

- **Storage:** Store the cable in a cool, dry place. Avoid tightly coiling or kinking the cable, as this can damage the internal wires.
- **Cleaning:** Use a soft, dry cloth to wipe the cable and connectors. Do not use liquid cleaners or abrasive materials.
- **Handling:** Always grasp the connector ends when plugging or unplugging the cable. Avoid pulling directly on the cable itself.

6. TROUBLESHOOTING

If the device is not receiving power, consider the following:

- **No Power to Device:**
 - Ensure both the USB-A connector and the DC barrel connector are fully and securely inserted into their respective ports.
 - Verify that the USB power source (e.g., wall adapter, computer port) is active and functioning correctly. Try a different USB port or power adapter.
 - Confirm that your device (e.g., Desk York fan stand) is compatible with a 5V DC input and the specific barrel connector size of this cable.
 - Inspect the cable for any visible damage, such as cuts, kinks, or bent pins on the connectors. If damaged, discontinue use and replace the cable.
