## Setup and Assembly

Assembly is straightforward. Follow these steps carefully. It is recommended to have two people for easier assembly.

1. **Step 1: Unpack and Identify Parts.** Lay out all components on a clean, soft surface. Refer to the "Package Contents" section and the diagram to identify each part.
2. **Step 2: Assemble the Metal Frame.** Connect the vertical metal frame sections using the provided screws and Allen wrench. Ensure the connections are tight and secure.
3. **Step 3: Attach Shelf Brackets.** Secure the shelf support brackets to the metal frame at the

designated heights.

- Step 4: Install Shelf Boards.** Place the wooden shelf boards onto the installed brackets. Secure them with screws if applicable.
- Step 5: Attach Adjustable Feet.** Screw the adjustable feet into the bottom of the metal frame. These allow for minor leveling adjustments on uneven floors.
- Step 6: Wall Anchoring.** Position the assembled bookshelf in its desired location. Using the anti-tip kit, secure the top of the bookshelf to the wall. Mark the drill points, drill pilot holes, insert wall anchors, and attach the strap/bracket to both the bookshelf and the wall. This step is crucial for stability and safety.
