

DELSEY PARIS Helium DLX Softside Expandable Luggage With Spinner Wheels

DELSEY PARIS Helium DLX Softside Expandable Luggage (Carry-On 20 Inch) Instruction Manual

INTRODUCTION

Thank you for choosing the DELSEY PARIS Helium DLX Softside Expandable Luggage. This carry-on is designed for durability, functionality, and ease of travel. Please read this manual carefully to understand the features and ensure proper use and maintenance of your luggage.

PRODUCT FEATURES

- **Durable DuraTec Fabric:** Constructed from lightweight and resilient DuraTec fabric, designed to withstand travel rigors while maintaining its appearance.
- **Expandable Capacity:** Features an expansion zipper that allows for up to 2 inches of additional packing space, providing flexibility for your travel needs.
- **Dual Density Double-Spinner Wheels:** Equipped with eight multi-directional spinner wheels (two per corner) for stable, smooth, and effortless 360-degree rolling, reducing strain on your arm.
- **Integrated SECURITECH Zip:** The main compartment features a patented SECURITECH zip, which is three times more resistant to intrusion than standard zippers, enhancing security.
- **TSA-Accepted Combination Lock:** An integrated 3-dial combination lock provides security for your belongings while allowing TSA agents to inspect your luggage without damage.
- **Ergonomic Handles:** Includes a telescopic extendable handle for comfortable maneuvering, along with soft-grip top, side, and bottom carrying handles for easy lifting and carrying.
- **Organized Interior:** The spacious interior features two shoe pockets, a mesh pocket, and a wet pocket for efficient organization of your items. A hanging, removable bi-fold organizer is also included.
- **Exterior Pockets:** Two exterior pockets provide convenient access to essential items.

SETUP

Setting the Combination Lock

Your DELSEY PARIS Helium DLX luggage is equipped with an integrated TSA-accepted combination lock. The initial factory setting is 0-0-0.

1. Open the lock by sliding the button (A) in the direction of the arrow.
2. With the lock open, use a pen or pointed object to press the reset button (B) until you hear a 'click'.
3. Set your desired 3-digit combination by turning the dials (C).
4. Slide the button (A) again in the direction of the arrow. The reset button (B) will pop back up, and you will hear another 'click'.
5. Your new combination is now set. Remember your combination as DELSEY PARIS cannot retrieve lost combinations.

EASY ORGANIZING

Spacious interior with multiple pockets for shoes, accessories and a wet pocket. Two exterior pockets for easy access to essentials.

OPERATING INSTRUCTIONS

Using the Telescopic Handle

To extend the telescopic handle, press the button located on the top of the handle and pull upwards. Release the button to lock the handle at your desired height. To retract, press the button and push the handle downwards until it is fully nested.

Utilizing Expandable Capacity

To expand your luggage, locate the secondary zipper running along the perimeter of the main compartment. Unzip this zipper to increase the packing depth by approximately 2 inches. Zip it back up to return to the standard carry-on size.

Maneuvering with Spinner Wheels

The dual density double-spinner wheels allow for multi-directional movement. For optimal maneuverability, keep the luggage upright and push it alongside you. This reduces the weight on your arm and allows for smooth gliding through airports and other surfaces.

MAINTENANCE

Cleaning the Fabric

The DuraTec fabric is designed for durability. For general cleaning, wipe the exterior with a damp cloth and mild soap. Avoid harsh chemicals or abrasive cleaners, as these can damage the fabric. Allow the luggage to air dry completely before storage.

Wheel and Zipper Care

Periodically check the spinner wheels for any debris or hair that may impede their movement. Clean as necessary. For zippers, occasionally apply a silicone-based lubricant to ensure smooth operation, especially after exposure to dust or sand.

TROUBLESHOOTING

Luggage Tipping Forward

If your luggage tends to tip forward when standing upright, ensure that heavier items are packed towards the bottom and rear of the suitcase, closer to the wheels. Distribute weight evenly to maintain balance. Avoid overpacking the front exterior pockets with heavy items.

Stuck Telescopic Handle

If the telescopic handle becomes difficult to extend or retract, check for any obstructions in the handle mechanism. Ensure the release button is fully depressed when operating the handle. Avoid forcing the handle, as this can cause damage.

Zipper Malfunction

If a zipper becomes stiff or difficult to move, apply a small amount of zipper lubricant or a graphite pencil lead along the teeth. Slowly work the zipper back and forth to distribute the lubricant. Avoid pulling zippers with excessive force.

SPECIFICATIONS

Model Name	Helium DLX Softside Expandable Luggage With Spinner Wheels
Size	Carry on 20 Inch
Exterior Dimensions (L x W x H)	14.25" x 10" x 23.5" (includes handles & wheels)
