DoHonest V33

DoHonest Baby Car Camera HD 1080P User Manual

Model: V33
Brand: DoHonest

1. Introduction

The DoHonest Baby Car Camera HD 1080P is designed to provide parents with a clear and continuous view of their rear-facing infant or child in the back seat. This system enhances safety by allowing you to monitor your baby without turning around, keeping your focus on the road. Featuring HD 1080P clarity, night vision, and a wide-angle adjustable camera, it offers peace of mind during every journey.

3. Setup and Installation

The DoHonest Baby Car Camera is designed for quick and easy installation, typically taking only a few minutes. No special tools are required.

Camera Installation

1. **Attach Camera to Headrest:** Pull the headrest restraint up. Secure the camera unit to the headrest post using the provided straps. Ensure the camera is positioned to capture a clear view of your baby in the car seat.
2. **Tighten Straps:** First, tighten the vertical strap, then the horizontal strap to ensure the camera is stable and does not move during driving.
3. **Adjust Camera Angle:** Rotate the adjustable camera to achieve the optimal viewing angle of your baby. The

camera offers 360-degree rotation for flexible positioning.

Monitor Installation

1. **Choose Placement:** Decide whether to mount the monitor on your windshield using the suction cup or on your dashboard. Ensure the placement does not obstruct your view of the road.
2. **Secure Monitor:** Attach the monitor securely using the chosen mounting method. The suction mount allows for stable and flexible placement.
3. **Connect Cables:** Connect the baby car video cable from the camera to the monitor. Then, connect the monitor to the baby car lighter adapter and plug it into your vehicle's cigarette lighter socket.
4. **Power On:** The system will power on automatically when the car lighter adapter receives power.

4. Operating Instructions

Once installed and powered on, the DoHonest Baby Car Camera provides a live feed of your baby. You can adjust various settings for optimal viewing.

Monitor Controls

The monitor features multi-function keys for adjusting display settings:

- **Menu Key:** Press to access the settings menu.
- **Up Key:** Navigate up through menu options or increase values.
- **Down Key:** Navigate down through menu options or decrease values.

Image: Detailed view of the monitor's control buttons and their functions.

Display Settings

Within the menu, you can adjust the following:

- **Brightness:** Adjust the screen's luminosity.
- **Contrast:** Modify the difference between light and dark areas.
- **Saturation:** Control the intensity of colors.
- **Language:** Select the display language.
- **Reset:** Restore all settings to factory defaults.

Image: The monitor's dimensions, 360-degree rotation capability, and the option to switch between mirror and normal image views.

Night Vision

The camera automatically activates night vision in low-light conditions, providing a clear black-and-white image of your baby. This feature ensures continuous monitoring even during night drives.

Image: A composite image highlighting the camera's 360-degree adjustability, wide view, night vision capability, and superior image quality.

Mirror/Normal Image Switching

The monitor allows you to switch between mirror image and normal image modes. This is useful for adapting to different car seat orientations (rear-facing vs. forward-facing) or for other monitoring purposes like pet observation.

5. Features

- **HD 1080P Clarity & 150° Wide-Angle View:** Provides a high-definition, clear view of your baby, day or night, with a broad perspective of the back seat.
- **Automatic Night Vision:** The camera automatically switches to night vision in low light, ensuring a bright and clear image without manual adjustment.
- **360° Fully Adjustable Camera:** Offers optimal positioning and can be easily adjusted to fit various car seat models

and vehicle types.

- **Large 4.3” HD Display:** Provides a clear, unobstructed view of your baby, allowing you to monitor them safely while driving.
- **Quick & Easy Installation:** Designed for simple plug-and-play setup without the need for tools.
- **Enhanced Safety:** Reduces the need to turn around, keeping your focus on the road and ensuring your baby's safety is always visible.
- **Multifunctional Features:** Allows adjustment of brightness, contrast, saturation, and includes a mirror image option for customized viewing.
- **Durable, High-Quality Materials:** Built to withstand daily use and provide long-term performance.

6. Maintenance

To ensure the longevity and optimal performance of your DoHonest Baby Car Camera, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the monitor screen and camera lens. For stubborn smudges, a slightly damp cloth with mild, non-abrasive cleaner can be used, but ensure no liquid enters the device openings.
- **Avoid Extreme Temperatures:** Do not expose the device to extreme heat or cold, as this can affect its electronic components and battery life.
- **Cable Care:** Ensure all cables are not pinched or tangled, which could lead to damage.
- **Storage:** If storing the device for an extended period, disconnect it from the power source and store it in a cool, dry place.

7. Troubleshooting

If you encounter issues with your DoHonest Baby Car Camera, refer to the following common troubleshooting steps:

- **No Image on Monitor:**
  - Ensure all cables are securely connected between the camera, monitor, and power adapter.
  - Check if the car lighter adapter is properly inserted into the vehicle's socket and receiving power. Try a different socket if available.
  - Verify that the vehicle's ignition is on (if required for the cigarette lighter socket).
- **Poor Image Quality / Blurry Image:**
  - Clean the camera lens and monitor screen with a soft, dry cloth.
  - Adjust the camera angle to ensure it has a clear line of sight to your baby.
  - Check the brightness, contrast, and saturation settings on the monitor.
- **Night Vision Not Working:**
  - Ensure the camera lens is clean and unobstructed.
  - Night vision activates automatically in low light; ensure the environment is dark enough for it to engage.

- **Monitor Not Powering On:**
  - Confirm the power adapter is fully inserted into the car's cigarette lighter.
  - Check the vehicle's fuse for the cigarette lighter socket.

If these steps do not resolve the issue, please contact DoHonest customer support for further assistance.

8. Specifications

Feature	Specification
Model Number	V33
