INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your WOWiViD WCP0901G7 Double Din Car Stereo. Please read this manual thoroughly before using the product to ensure proper functionality and safety.

IMPORTANT SAFETY INFORMATION

- Ensure proper wiring and connections to prevent electrical hazards.
- Do not operate the device in a manner that distracts from driving.
- Consult a professional for installation if you are unsure about any steps.
- Keep the device away from water and extreme temperatures.

PACKAGE CONTENTS

Verify that all items are present in the package:

Image: The main car stereo unit and various accessories laid out on a white surface. This includes the stereo, wiring harness, mounting brackets, screws, a rear view camera, camera cable, connecting line, disassembly tool, and user manual.

- WOWiViD WCP0901G7 Car Stereo Unit
- Wiring Harness
- Mounting Brackets
- Screws
- Rear View Camera
- Camera Cable
- Connecting Line
- Disassembly Tool
- User Manual
- Adapter
- Microphone

SETUP AND INSTALLATION

Before installation, ensure your vehicle's dash kit is compatible. An extra frame adapter is included for specific sizes (191x117mm / 7.52x4.6 inch).

1. Physical Installation

1. **Check Dimensions:** Verify the stereo dimensions (173x98mm / 6.81x3.85inch) fit your car's double din slot. Use the provided adapter if necessary.

Your browser does not support the video tag.

Video: A demonstration of measuring the car stereo's dimensions using a caliper, showing the width and height of the unit and the included frame adapter.

2. **Mounting:** Secure the stereo unit using the provided mounting brackets and screws.
3. **Wiring:** Connect the wiring harness to your vehicle's electrical system. Refer to your vehicle's specific wiring diagram for accurate connections.
4. **CD/DVD Player:** If the CD/DVD player is not working, ensure any shipping bolts or protective screws are removed from the unit.

2. Rear View Camera Connection

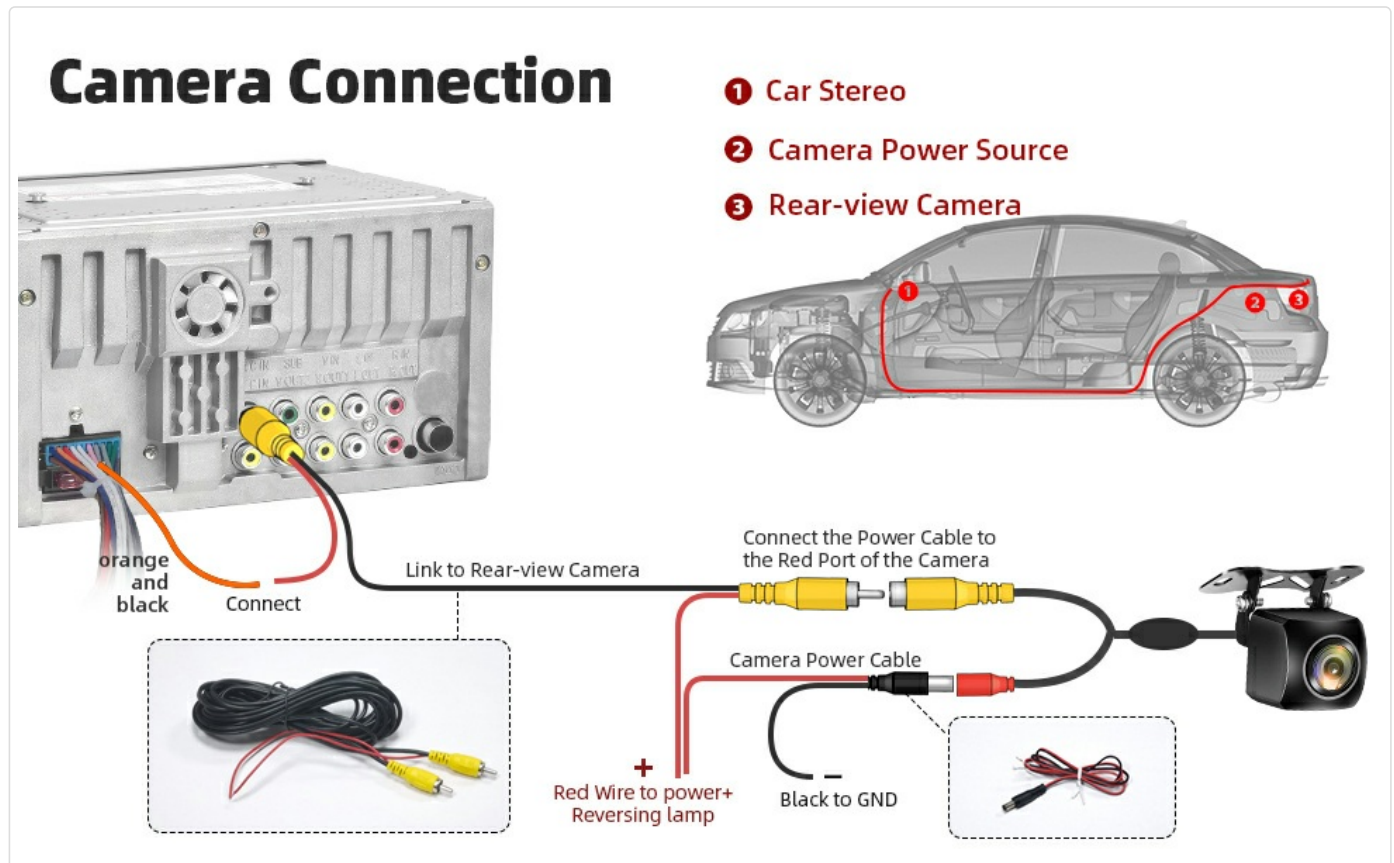

Image: A diagram illustrating how to connect the rear view camera to the car stereo. It shows the camera, video cable, and power connections to the car's reversing lamp and ground.

1. Connect the video cable from the rear view camera to the "R.CAM" input on the car stereo.
2. Connect the camera's power cable (red wire) to the vehicle's reversing lamp power source.
3. Connect the camera's ground wire (black wire) to a suitable ground point on the vehicle chassis.
4. The system will automatically display the camera feed when the vehicle is shifted into reverse.

OPERATING INSTRUCTIONS

1. Basic Functions

- **Power On/Off:** Press the power button on the unit or remote control.
- **Volume Control:** Use the volume knob or touch screen controls to adjust audio levels.
- **Mode Selection:** Press the "MODE" button to switch between functions like Radio, CD/DVD, USB, Bluetooth, AUX, and Phone Link.
- **Touch Screen:** The 7-inch 1024x600P HD touch screen allows for intuitive control.

2. CD/DVD Playback

Image: The car stereo unit showing the CD/DVD slot at the top, indicating its capability to play optical media.

- Insert a CD or DVD into the disc slot. The unit will automatically detect and begin playback.
- Use the on-screen controls for play, pause, skip, and other playback options.

3. Radio (AM/FM)

- Select "Radio" mode.
- Use the scan function to find available stations or manually tune to a specific frequency.
- Save your favorite stations to preset buttons for quick access.

4. Bluetooth 5.2 Connectivity

Your browser does not support the video tag.

Video: A demonstration of connecting a smartphone to the car stereo via Bluetooth. The video shows the phone's Bluetooth settings and the car stereo's interface during the pairing process, including making a call and playing music.

- Enable Bluetooth on your smartphone.

- On the car stereo, select "Bluetooth" mode.
- Search for available devices on your phone and select "CAR-KIT" (or similar device name).
- Confirm pairing on both devices. You can now make hands-free calls and stream audio.
- The built-in noise-canceling microphone and external microphone ensure clear call quality.

5. Apple CarPlay & Android Auto

Your browser does not support the video tag.

Video: A demonstration of connecting an Android phone to the car stereo to activate Android Auto. The video shows the phone being connected via USB and the Android Auto interface appearing on the car stereo screen, displaying navigation, music, and other apps.

Your browser does not support the video tag.

Video: A demonstration of connecting an iPhone to the car stereo to activate Apple CarPlay. The video shows the iPhone being connected via USB and the CarPlay interface appearing on the car stereo screen, displaying various iOS apps.

- Connect your smartphone (iPhone for CarPlay, Android for Android Auto) to the stereo's USB port using a USB cable.
- Follow any on-screen prompts on both your phone and the stereo to establish the connection.
- Once connected, you can access navigation, make calls, send messages, play music, and use voice assistants (Siri/Google Assistant) directly from the stereo's touch screen.

6. Mirror Link

Your browser does not support the video tag.

Video: A demonstration of the Mirror Link function, showing a smartphone screen mirrored onto the car stereo display via a USB connection. The video illustrates how content like maps and videos from the phone are displayed on the larger screen.

- Connect your smartphone to the stereo's USB port.
- Select the "Mirror Link" option on the stereo.
- Your phone's screen will be mirrored onto the stereo display, allowing you to view apps like maps, Instagram, or YouTube.
- **Note:** Mirror Link projects your phone screen; it does not allow direct operation of phone apps from the stereo's touch screen.

7. Settings and Customization

Your browser does not support the video tag.

Video: A demonstration of accessing and adjusting various settings on the car stereo, including audio equalizer (EQ) settings, balance, loudness, and display adjustments like brightness, contrast, hue, and saturation.

- Access the settings menu to customize audio (EQ, balance, loudness), display (brightness, contrast, hue, saturation), and other system preferences.
- Adjust the EQ settings to your preferred audio profile (CUSTOM/DBB/CLASS/ROCK/JAZZ/POP).

8. Steering Wheel Control (SWC)

- If your vehicle supports SWC, connect the appropriate wires from your vehicle's steering wheel controls to the stereo's SWC input.
- Access the SWC settings in the stereo's menu to program the buttons.

KEY FEATURES OVERVIEW

- **7-inch HD Touch Screen:** 1024x600P resolution for clear visuals and responsive interaction.
- **CD/DVD Player:** Supports 1080p video playback and high-quality audio from discs.
- **Apple CarPlay & Android Auto:** Seamless smartphone integration for navigation, communication, and entertainment.
- **Bluetooth 5.2:** Hands-free calling and wireless audio streaming with external microphone support.
- **Mirror Link:** Projects smartphone screen content onto the stereo display.
- **Backup Camera Input:** Automatic display of rear camera feed when reversing, includes HD waterproof rear camera with 170° wide viewing angle.
- **EQ Settings:** Customizable audio output with preset EQ modes (CUSTOM/DBB/CLASS/ROCK/JAZZ/POP) and adjustable BASS/TRE effects.
- **USB/TF Card Support:** Play media files from USB drives or TF cards.
- **AM/FM Radio:** Access to local radio stations.

MAINTENANCE AND CARE

- **Cleaning the Screen:** Use a soft, lint-free cloth to gently wipe the touch screen. Avoid abrasive cleaners or solvents.
- **Disc Care:** Handle CDs and DVDs by the edges to prevent scratches. Keep discs clean and store them in their cases.
- **Software Updates:** Check the manufacturer's website periodically for any available firmware updates to ensure optimal performance.
- **General Care:** Avoid exposing the unit to direct sunlight for extended periods or extreme temperatures.

TROUBLESHOOTING GUIDE

Problem	Possible Cause	Solution
No power	Incorrect wiring, blown fuse, vehicle battery issue.	Check power connections, inspect vehicle fuses, ensure battery is charged.
No sound	Volume too low, mute activated, speaker wiring issues.	Increase volume, check mute status, verify speaker connections.
CD/DVD not playing	Disc is dirty/scratched, disc format not supported, shipping screws not removed.	Clean disc, try a different disc, ensure all protective screws are removed.
Bluetooth not connecting	Bluetooth not enabled, device not in pairing mode, interference.	Ensure Bluetooth is on and in pairing mode, try re-pairing, move closer to the unit.
Backup camera not displaying	Incorrect camera wiring, camera malfunction.	Verify camera power and video connections, check if the reverse trigger wire is correctly connected.
Touch screen unresponsive	Temporary software glitch, screen calibration needed.	Perform a soft reset (RST button), check settings for screen calibration options.

If the problem persists after trying these solutions, please contact WOWiViD customer support.

TECHNICAL SPECIFICATIONS

- **Model Number:** WCP0901G7

- **Product Dimensions:** 8.4 x 7.9 x 6.5 inches
- **Item Weight:** 4.22 pounds
- **Screen Size:** 7-inch Touch Screen
- **Screen Resolution:** 1024x600P
- **Connectivity Technology:** Bluetooth 5.2, USB, TF Card, AUX
- **Special Features:** Apple CarPlay, Android Auto, Mirror Link, Backup Camera Support, Steering Wheel Control (SWC), Voice Control
- **Audio Output Mode:** Stereo
- **Surround Sound Channel Configuration:** 4.0
- **Video Encoding:** 3GP
- **Manufacturer:** WOWiViD
