4. SETUP

1. **Unpack:** Carefully remove all components from the packaging.
2. **Clean:** Before first use, wash the corn cooker case, lid, and skewers with warm soapy water. Rinse thoroughly and dry. The product is also dishwasher safe.

5. OPERATING INSTRUCTIONS

5.1. Steaming Corn

This steamer is designed to cook two large ears of corn simultaneously.

1. **Prepare Corn:** Remove husks and silk from fresh corn. For frozen corn, no thawing is required.
2. **Insert Skewers:** Firmly insert a threaded corn skewer into each end of the corn cob.
3. **Place in Steamer:** Place the skewered corn cobs into the corn cooker case. You may add a small amount of water (1-2 tablespoons) to the bottom of the case for additional steaming, though it is not strictly necessary as the corn's natural moisture will create steam.
4. **Add Seasoning (Optional):** Before cooking, you can add seasonings like butter, salt, or pepper directly to the corn.
5. **Cover:** Securely place the lid on the corn cooker case.
6. **Microwave:** Place the covered steamer in the center of your microwave oven.
7. **Cook Time:** Microwave for 3-5 minutes per ear on medium-high power (700-1000W). For two large ears, cook for approximately 5-7 minutes. Cooking times may vary based on microwave wattage and corn size.
8. **Rest & Serve:** Carefully remove the steamer from the microwave. Allow it to rest for 1 minute before opening the lid to release steam. Add additional butter or seasonings if desired, then serve.

5.2. Steaming Other Foods

The HERCHR Microwave Corn Steamer is versatile and can be used for other foods:

- **Vegetables:** Place chopped vegetables (e.g., broccoli, carrots, green beans) in the steamer with 1-2 tablespoons of water. Cover and microwave for 3-6 minutes, depending on the vegetable and desired tenderness.
- **Fish:** Place a fish fillet in the steamer with a splash of water or lemon juice. Cover and microwave for 2-4 minutes, or until cooked through.
- **Hot Dogs/Sausages:** Place hot dogs or sausages in the steamer. Add a small amount of water (1 tablespoon) or no water for a drier heat. Cover and microwave for 1-3 minutes, or until heated through.

6. CARE AND MAINTENANCE

- **Cleaning:** The steamer is dishwasher safe. Alternatively, hand wash with warm water and mild dish soap. Rinse thoroughly and dry completely before storing.
- **Storage:** Store the steamer with its lid and skewers in a clean, dry place. The compact design allows for easy storage.
- **Durability:** Made from durable PP material, the steamer is designed for long-term use. Avoid abrasive cleaners or scouring pads that could scratch the surface.

7. TROUBLESHOOTING

- **Uneven Cooking:** Ensure the steamer is placed in the center of your microwave's turntable (if applicable) to allow for even heat distribution.
- **Food Not Cooked Through:** Cooking times are approximate and can vary based on microwave wattage, food density, and desired doneness. Increase cooking time in 30-second to 1-minute increments until desired results are achieved.
- **Lid Not Sealing Properly:** Ensure the lid is correctly aligned with the base and pressed down firmly. Check for any food debris that might be preventing a proper seal.

8. SAFETY INFORMATION

- Always use caution when removing the steamer from the microwave, as it will be hot. Use oven mitts or heat-resistant gloves.
- Be careful when opening the lid after cooking, as hot steam will escape. Open the lid away from your face.
- This product is designed for microwave use only. Do not use in conventional ovens, on stovetops, or under a broiler.
- Keep out of reach of children when hot.
- Ensure the product is clean and free of damage before each use. Do not use if cracked or broken.
