Bestisan SE07 Soundbar User Manual

Model: SE07 | Brand: BYL

1. INTRODUCTION

Thank you for choosing the Bestisan SE07 Soundbar. This compact and powerful soundbar is designed to significantly enhance your television's audio experience, delivering clear dialogue, rich music, and immersive movie sound. With multiple connectivity options including HDMI ARC, Optical, Bluetooth, AUX, and USB, it seamlessly integrates into various home entertainment setups. This manual provides comprehensive instructions for setting up, operating, maintaining, and troubleshooting your new soundbar.

Key Features:

- **2+2 Driver Speakers:** Features 2 full-range drivers and 2 U-style tubes for rich bass, warm mid-range, and clear highs.
- **50W Peak Power:** Delivers powerful, room-filling sound without distortion.
- **DSP & 3 EQ Modes:** Customize your audio with Movie, Music, and News modes for optimized sound.
- **Versatile Connectivity:** Supports HDMI ARC/CEC, Optical, Bluetooth 5.0, AUX, and USB inputs, plus a SUB out for an external subwoofer.
- **Ultra-Compact Design:** At 16 inches, it fits neatly under smaller TVs or PCs and can be wall-mounted.
- **HDMI CEC Remote Control:** Control soundbar power and volume using your TV remote when connected via HDMI ARC.

Home Theater Experience

Immersive sound build a more room filling home theater.

The Bestisan soundbar seamlessly integrates into your home entertainment setup, providing an immersive audio experience.

Wired / Wireless Connection

Simply connect to the soundbar via Bluetooth or HDMI-ARC/ Optical/ AUX/USB input

The rear panel provides multiple connectivity options for versatile use with different devices.

4. SETUP

Follow these steps to connect your Bestisan SE07 Soundbar to your television or other audio sources.

Connecting to Your TV:

HDMI ARC Connection:

1. Connect one end of an HDMI cable (not included) to the HDMI ARC port on your TV.
2. Connect the other end of the HDMI cable to the ARC port on the soundbar.
3. Ensure your TV's HDMI-CEC feature (e.g., Anynet+, Bravia Sync, SimpLink) is enabled in its settings. This allows you to control the soundbar's volume and power with your TV remote.
4. Select the HDMI ARC input on your soundbar using the remote control or the soundbar's buttons.

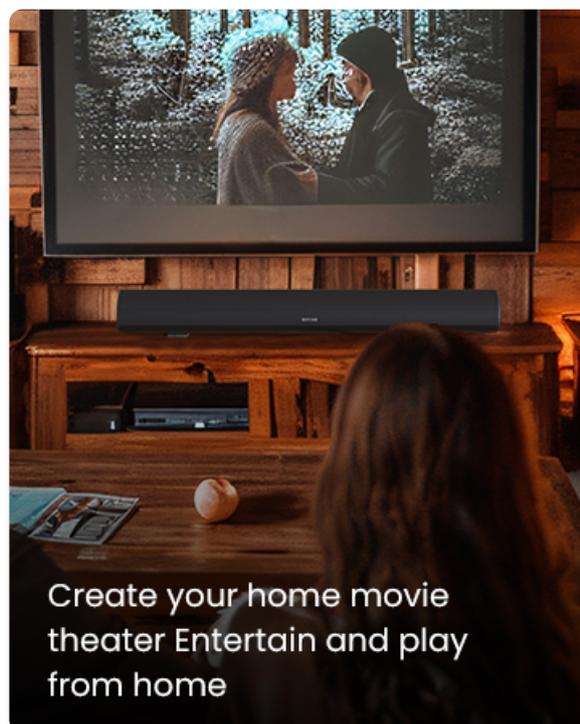

S9920

The Nom 100W soundbar provide clear sound and strong bass. S9920 doesn't cost too much but offers great sound.

Connect the soundbar to your TV's HDMI ARC port for seamless control.

Optical Connection:

1. Remove the protective caps from both ends of the optical cable.
2. Connect one end of the optical cable (included) to the Optical OUT port on your TV.
3. Connect the other end of the optical cable to the OPTICAL port on the soundbar.
4. Go to your TV's audio settings and set the Digital Audio Output format to 'PCM' (Pulse-Code Modulation).
5. Select the Optical input on your soundbar using the remote control or the soundbar's buttons.

Ensure protective caps are removed before connecting the optical cable.

Bluetooth Connection:

1. Power on the soundbar.
2. Press the 'BT' button on the remote control or the soundbar's input button to switch to Bluetooth mode. The indicator light will flash.
3. Enable Bluetooth on your mobile device (smartphone, tablet, PC).
4. Search for 'SE07' in the list of available devices and select it to pair.
5. Once connected, the indicator light on the soundbar will turn solid. You can now stream audio wirelessly.

AUX and USB Connection:

- **AUX:** Connect an audio device (e.g., MP3 player) to the AUX IN port on the soundbar using the included 3.5mm audio cable. Select AUX input on the soundbar.
- **USB:** Insert a USB drive with audio files into the USB port on the soundbar. The soundbar will automatically switch to USB mode and begin playback.

This video demonstrates the Bestisan soundbar's compact size and ease of integration into a small room setup, highlighting its suitability for various spaces.

5. OPERATING INSTRUCTIONS

Power and Volume Control:

- **Power On/Off:** Press the power button on the remote control or the soundbar's side panel.
- **Volume Adjustment:** Use the 'VOL+' or 'VOL-' buttons on the remote control or the soundbar's side panel to adjust the volume.
- **Mute:** Press the 'MUTE' button on the remote control to mute or unmute the sound.

Input Mode Selection:

Switch between different input sources (HDMI ARC, Optical, Bluetooth, AUX, USB) by pressing the corresponding buttons on the remote control (ARC, OPT, BT, AUX, USB) or cycling through inputs using the soundbar's input button.

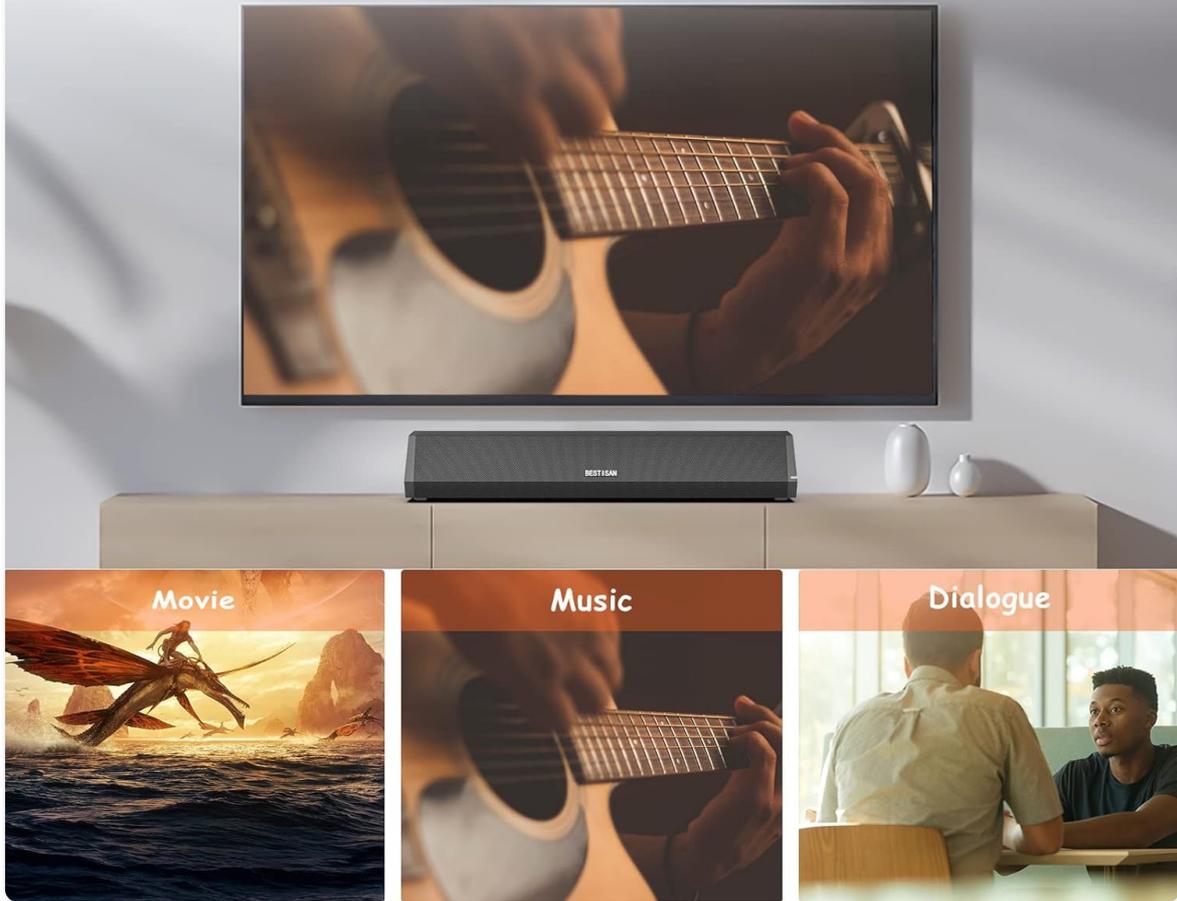

EQ Modes (DSP):

The soundbar offers three preset equalizer modes to optimize audio for different content types:

- **Movie Mode:** Enhances surround sound and bass for an immersive cinematic experience.
- **Music Mode:** Provides balanced audio with clear vocals and rich instrumentals, ideal for listening to music.
- **Dialogue Mode (News Mode):** Optimizes vocal clarity, making speech easier to understand, perfect for news or talk shows.

Diverse Sound Options

Featuring Music / Movie / Dialogue Sound Mode and Easy Access to Your Entertainment.

Easily switch between Movie, Music, and Dialogue modes to suit your content.

Remote Control Functions:

The remote control provides full functionality for your soundbar:

- **Power Button:** Turns the soundbar on or off.
- **Mute Button:** Mutes or unmutes the sound.
- **Volume +/-:** Adjusts the master volume.
- **Play/Pause:** Controls media playback in Bluetooth/USB mode.
- **Previous/Next Track:** Skips tracks in Bluetooth/USB mode.
- **TREB +/-:** Adjusts treble levels.
- **BASS +/-:** Adjusts bass levels.
- **MOVIE/MUSIC/DIALOG:** Selects the corresponding EQ mode.
- **BT/OPT/USB/AUX/ARC:** Selects the input source.
- **RESET:** Resets sound settings to default.

6. MAINTENANCE

Cleaning:

To maintain the appearance and performance of your soundbar, regularly clean it with a soft, dry cloth. Do not use liquid cleaners, abrasive cleaners, or chemical sprays, as these may damage the surface or internal components.

Storage:

If you plan to store the soundbar for an extended period, disconnect it from the power source and all connected devices. Store it in a cool, dry place, away from direct sunlight and extreme temperatures. It is recommended to keep the original packaging for safe storage and transport.

7. TROUBLESHOOTING

If you encounter any issues with your Bestisan SE07 Soundbar, please refer to the following table for common problems and their solutions.

Problem	Possible Cause	Solution
No sound from soundbar	Incorrect input source selected; Cables not connected properly; TV audio output settings incorrect.	Ensure correct input mode is selected. Check all cable connections. Set TV audio output to PCM for Optical/HDMI ARC.
Remote control not working	Batteries are dead or inserted incorrectly; Obstruction between remote and soundbar; Remote sensor blocked.	Replace batteries. Ensure line of sight to soundbar. Clear any obstructions.
Bluetooth pairing failed	Soundbar not in pairing mode; Device too far; Interference.	Ensure soundbar is in BT mode (flashing light). Move device closer. Turn off other Bluetooth devices.
Poor sound quality (distortion, low bass)	Volume too high; Incorrect EQ mode; Source audio quality.	Reduce volume. Try different EQ modes (Movie, Music, Dialogue). Check audio source quality.
Soundbar turns off automatically	Auto-standby feature activated (no audio input for a period).	This is a normal power-saving feature. Provide audio input to keep it on.
