## 1. PRODUCT OVERVIEW

The Kuulaa Portable Phone Charger (Model: KL-YD47-L1) is a compact 4500mAh mini power bank designed for convenient on-the-go charging of iPhone devices and AirPods. Its small size, similar to a lipstick, makes it highly portable for daily use, excursions, and travel. The power bank features a built-in Lightning connector, eliminating the need for extra cables, and supports pass-through charging.

Key features include:

- **Compact Design:** Dimensions of 76\*50\*26mm, making it easy to carry in a pocket or small bag.
- **Built-in Lightning Connector:** Direct plug-in for iPhone 14/13/12/11/XS/XR/Airpods series without additional cables.
- **4500mAh Capacity:** Provides emergency battery backup for a full charge on compatible devices.
- **Indicator Lights:** Four LED lights display the remaining battery status (25%, 50%, 75%, 100%).
- **Safety Features:** Equipped with a heat insulation chip to prevent overheating.
- **Pass-Through Charging:** Allows simultaneous charging of the power bank and a connected device.

## 2. INITIAL SETUP AND CHARGING THE POWER BANK

---

Before first use, it is recommended to fully charge your Kuulaa Portable Phone Charger. The device comes with a USB-A to USB-C charging cable.

1. **Connect the Charging Cable:** Insert the USB-C end of the provided charging cable into the "IN" port (Type-C input) on the side of the power bank.
2. **Connect to Power Source:** Plug the USB-A end of the cable into a compatible USB wall adapter (not included), computer USB port, or other USB power source.
3. **Monitor Charging:** The four LED indicator lights on the front of the power bank will illuminate to show the charging progress. Each light represents approximately 25% of the battery capacity.
  - 1 light: 0-25% charged
  - 2 lights: 25-50% charged
  - 3 lights: 50-75% charged
  - 4 lights: 75-100% charged

When all four lights are solid, the power bank is fully charged and ready for use.

### 3. OPERATING INSTRUCTIONS

---

The Kuulaa Portable Phone Charger is designed for simple and direct use with compatible Apple devices.

1. **Connect Your Device:** Remove the protective cap from the built-in Lightning connector. Directly plug the Lightning connector into your iPhone or AirPods charging port. Ensure a secure connection.
2. **Begin Charging:** Once connected, the power bank will automatically begin charging your device. The LED indicator lights on the power bank will show its remaining charge level.
3. **Simultaneous Use:** You can continue to use your phone for calls, watching videos, or listening to music while it is connected to the power bank.
4. **Pass-Through Charging:** To charge both your device and the power bank simultaneously, connect your device to the power bank via the Lightning connector, then plug the power bank into a power source using its USB-C input port.
5. **Disconnecting:** Once your device is charged, or when you wish to stop charging, simply pull the power bank gently from your device's charging port. Replace the protective cap on the Lightning connector.

## 4. CARE AND MAINTENANCE

- To ensure the longevity and optimal performance of your Kuulaa Portable Phone Charger, follow these maintenance guidelines:
- **Storage:** Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures.
  - **Cleaning:** Use a soft, dry cloth to clean the exterior of the power bank. Do not use harsh chemicals or abrasive materials.
  - **Avoid Moisture:** Keep the device away from water, rain, and excessive humidity.
  - **Handle with Care:** Avoid dropping or subjecting the power bank to strong impacts, as this can damage internal components.
  - **Regular Charging:** If the power bank is not used for an extended period, charge it at least once every three months to maintain battery health.
  - **Protect Connector:** Always replace the protective cap on the Lightning connector when not in use to prevent dust and damage.

## 5. TROUBLESHOOTING

If you encounter issues with your Kuulaa Portable Phone Charger, refer to the following common problems and solutions:

| Problem                              | Possible Cause                                                                                             | Solution                                                                                                                                                                                                            |
|--------------------------------------|------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Power bank not charging.             | Charging cable is faulty or not properly connected. Power source is not active.                            | Ensure the USB-C cable is securely plugged into both the power bank and the power source. Try a different charging cable or a different USB wall adapter/port.                                                      |
| Device not charging from power bank. | Power bank is depleted. Lightning connector is not fully inserted. Device case is too thick.               | Charge the power bank fully. Ensure the Lightning connector is firmly and completely inserted into your device's charging port. If your phone case is thicker than 4mm, remove it before connecting the power bank. |
| Slow charging.                       | Low power output from the power bank (if not fully charged). Device is being used heavily during charging. | Ensure the power bank is adequately charged. Reduce device usage during charging for faster results.                                                                                                                |
| Indicator lights not working.        | Power bank is completely discharged or faulty.                                                             | Attempt to charge the power bank for a few hours. If lights still do not appear, contact customer support.                                                                                                          |
