Merax 90 x 200 cm

Merax Upholstered Bed with Hydraulic Storage

Model: 90 x 200 cm, Grey

INTRODUCTION

This instruction manual provides essential information for the safe assembly, operation, and maintenance of your Merax Upholstered Bed with Hydraulic Storage. Please read this manual thoroughly before beginning assembly and retain it for future reference.

Important Safety Information:

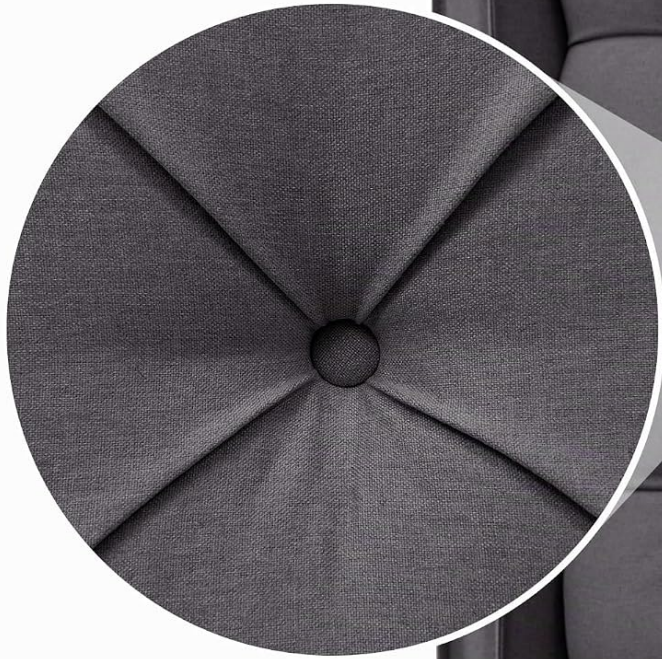

- Ensure all parts are present before assembly.
- Assemble the bed on a soft, clean surface to prevent damage.
- Do not overtighten screws during assembly.
- Keep children and pets away from the assembly area.
- The maximum weight capacity for this bed is 150 kg (330 lbs). Do not exceed this limit.
- Always use two people for assembly and moving the bed.
- Ensure the mattress is placed on the bed frame before operating the hydraulic lift mechanism. The mechanism is designed to work with the weight of a mattress.

PRODUCT FEATURES

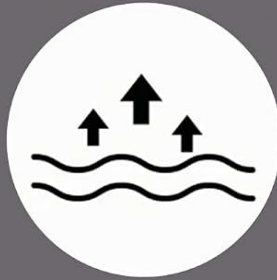

The Merax Upholstered Bed offers a blend of comfort and functionality. Key features include:

- **Elegant Upholstered Headboard:** Features uniform stitching and deep tufting for a comfortable and stylish design.
- **Hydraulic Storage System:** A large storage compartment beneath the slatted base, easily accessible via a hydraulic lift mechanism. Ideal for storing blankets, pillows, or bedding.
- **Durable Construction:** Made with solid wood, cotton, and metal for stability. The slatted base consists of high-quality elastic pine wood slats.
- **Anti-Slip Strips:** Integrated on the slatted base to prevent mattress movement.
- **Dust Protection:** An Oxford fabric layer is attached to the bottom of the bed to protect stored items from dust.
- **Soft Materials:** Designed to reduce potential injuries from sharp corners or edges.

PACKAGE CONTENTS

Your Merax Upholstered Bed package includes the following components:

- Upholstered Headboard
- Bed Frame Sections
- Slatted Base
- Hydraulic Lift Mechanism
- Oxford Fabric for Storage Base
- Assembly Hardware (screws, bolts, tools)
- Instruction Manual

The bed frame is typically shipped in two separate cartons to reduce the risk of damage during transit. Please ensure you

have received both packages before starting assembly.

SETUP AND ASSEMBLY

Assembly is required for this product. Follow the step-by-step instructions provided in the included manual. It is recommended to have two people for assembly.

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out on a soft, clean surface to prevent scratches.
2. **Identify Parts:** Refer to the parts list in your separate assembly manual to identify each component.
3. **Assemble Bed Frame:** Connect the side rails, footboard, and headboard using the provided hardware. Do not fully tighten screws until all major components are aligned.
4. **Install Slatted Base:** Secure the elastic wooden slats into the designated slots on the bed frame. Ensure anti-slip strips are correctly positioned.
5. **Attach Hydraulic Mechanism:** Follow the specific instructions for attaching the hydraulic lift system to the bed frame and slatted base. This step often requires careful alignment.
6. **Install Storage Base Fabric:** Lay the Oxford fabric at the bottom of the storage compartment, securing it as per the instructions (e.g., with Velcro or clips).
7. **Final Tightening:** Once all components are in place and aligned, securely tighten all screws and bolts.
8. **Place Mattress:** Position your mattress on the slatted base. The hydraulic mechanism is designed to function correctly with the weight of a mattress.

OPERATING INSTRUCTIONS

The Merax Upholstered Bed features a hydraulic lift mechanism for easy access to the under-bed storage compartment.

1. **Opening the Storage:** To access the storage, firmly lift the foot end of the bed frame (with the mattress in place). The hydraulic cylinders will assist in lifting and holding the bed base in an open position.
2. **Closing the Storage:** To close, gently push down on the bed frame from the foot end. The hydraulic mechanism will slowly lower the bed base back into its closed position. Ensure no objects or body parts are in the way during closing.

Caution:

- Do not attempt to open or close the storage without a mattress on the bed, as the mechanism is calibrated for the mattress weight.
- Keep hands and fingers clear of moving parts when operating the hydraulic lift.

MAINTENANCE

Proper maintenance will ensure the longevity and continued performance of your Merax bed.

- **Cleaning:** Wipe the upholstered surfaces with a damp cloth. Avoid harsh chemicals or abrasive cleaners. For spills, blot immediately with a clean, dry cloth.
- **Hydraulic Mechanism:** Periodically check the hydraulic cylinders for smooth operation. Do not apply oil or lubricants unless specifically instructed by the manufacturer.
- **Hardware:** Occasionally check all screws and bolts to ensure they remain tight. Retighten if necessary.
- **Slats:** Inspect the wooden slats for any signs of damage or wear. Replace any broken slats immediately to maintain mattress support.
- **Storage Area:** Keep the storage compartment clean and dry.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Hydraulic lift not working or difficult to open/close.	- No mattress on the bed. - Mechanism not fully engaged or incorrectly installed. - Weight of mattress is too light or too heavy for the mechanism.	- Ensure a mattress is placed on the bed. The hydraulics require mattress weight to function correctly. - Review assembly instructions for the hydraulic mechanism. - Contact customer support if the issue persists after verifying mattress weight and installation.
Bed feels unstable or squeaks.	- Loose hardware. - Incorrect assembly.	- Check and tighten all screws and bolts. - Review assembly instructions to ensure all parts are correctly installed.
Unpleasant odor from the bed.	- New product smell (off-gassing). - Moisture or spills.	- Ventilate the room thoroughly. The odor should dissipate over time. - Ensure the bed is kept dry. Clean any spills immediately.

SPECIFICATIONS

Feature	Detail
