MassaMAX MD906

MassaMAX MD906 Full Body Massage Chair

Instruction Manual

1. IMPORTANT SAFETY INFORMATION

Please read this instruction manual carefully before using the MassaMAX MD906 massage chair. Retain this manual for future reference.

- Ensure the chair is placed on a stable, level surface.
- Keep children and pets away from the chair during operation.
- Do not use the chair if you have any medical conditions that may be aggravated by massage, or if you are pregnant. Consult a physician if unsure.
- Unplug the chair from the power outlet when not in use or before cleaning.
- Do not attempt to disassemble or repair the chair yourself. Contact customer support for assistance.

2. SETUP AND ASSEMBLY

The MassaMAX MD906 massage chair is designed for quick and easy setup, arriving mostly pre-assembled.

2.1 Unpacking and Placement

The chair arrives approximately 90% pre-assembled. Carefully remove all packaging materials. Due to the chair's weight (approximately 156 pounds), it is recommended to have at least two people for moving and placement.

Figure 2.1: Minimum Doorway Width. The chair requires a minimum doorway width of 29.92 inches for entry.

2.2 Footrest Attachment

Only the footrest requires attachment, which typically takes about 5 minutes. Follow the instructions provided in the separate quick start guide for precise steps on securing the footrest to the main chair body.

2.3 Power Connection

Once assembled, connect the power cord to the chair and then to a grounded electrical outlet. Ensure the power switch

on the chair is in the 'Off' position before plugging it in.

3. OPERATING INSTRUCTIONS

The MassaMAX MD906 offers a variety of massage techniques and programs for a personalized relaxation experience.

3.1 Control Panel and Hand Controller

The chair features a user-friendly touch screen hand controller and quick access buttons for easy operation.

Figure 3.1: Hand Controller

Figure 3.2: Quick Access Buttons

3.2 Automatic Body Scanning

Upon starting a program, the chair performs an automatic body scan to detect your body's unique contours and adjust the massage rollers for optimal coverage and effectiveness from your neck to your thighs.

Auto Body Scan

Figure 3.5: Multiple Massage Techniques and Features.

Choose from **5 massage styles**:

- Kneading
- Tapping
- Knocking
- Shiatsu
- Combination of Kneading & Knocking

The chair also includes **12 preset automatic programs** designed for various needs. Refer to the hand controller interface for details on each program.

3.4 Specialized Features

- **Zero Gravity Recline:** This position elevates your legs above your heart, reducing pressure on your spine and enhancing the massage experience.

Figure 3.6: Zero Gravity Recline.

- **Yoga Stretch:** The chair gently stretches your body, helping to decompress the spine and relieve muscle tension.

Figure 3.7: Yoga Stretch function.

- **Full-Body Airbag Compression:** Strategically placed airbags inflate and deflate to provide compression massage to various muscle groups, promoting circulation and relaxation.

Full Body Airbags Squeezing Massage and Lower Back Heating Therapy

Figure 3.8: Full Body Airbags Squeezing Massage.

- **Lower Back Heating Therapy:** Gentle heat is applied to the lumbar area to soothe muscles and enhance the massage effect.

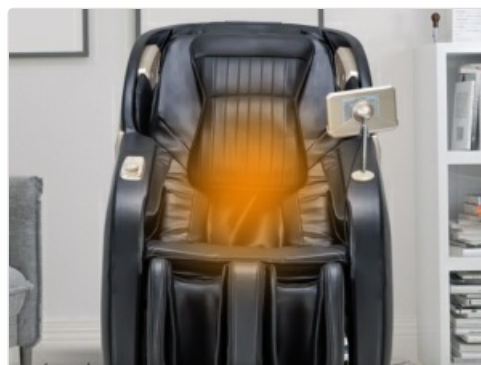

Figure 3.9: Lower Back Heating Therapy.

- **Foot Rollers Massage:** The foot massage area combines rolling, scraping, and air compression techniques to rejuvenate tired feet.

Foot Rollers Massage

4. MAINTENANCE AND CARE

Proper maintenance ensures the longevity and optimal performance of your massage chair.

4.1 Cleaning

For general cleaning, use a soft, damp cloth to wipe down the surfaces. For specific stains **spot clean** with a mild detergent. Do not use abrasive cleaners or solvents, as they may damage the chair's upholstery.

4.2 Storage

When not in use for extended periods, unplug the chair and store it in a cool, dry place away from direct sunlight and extreme temperatures.

5. TROUBLESHOOTING

If you encounter any issues with your MassaMAX MD906 massage chair, please refer to the following common troubleshooting tips. If the problem persists, contact customer support.

- **Chair does not power on:** Ensure the power cord is securely plugged into both the chair and a working electrical outlet. Check the power switch on the chair.
- **Massage intensity is too strong:** Adjust the intensity settings using the hand controller. If a cushion was provided, try placing it on the backrest to reduce direct contact with the rollers.
- **Unusual noises during operation:** Minor operational sounds are normal. If you hear loud or persistent grinding/clunking noises, discontinue use and contact customer support.
- **Footrest not functioning correctly:** Verify that the footrest is securely attached as per assembly instructions. Check for any obstructions.
- **Chair not responding to commands:** Ensure the hand controller is properly connected and charged (if applicable). Try restarting the chair by unplugging it for a few minutes and then plugging it back in.
