SAFETY INFORMATION

- Always turn off the power at the main fuse or circuit breaker box before beginning installation.
- Consult a qualified electrician if you are unsure about the installation process.
- Ensure all electrical connections are secure and comply with local codes and ordinances.
- Do not exceed the maximum wattage specified for the bulb.
- Handle glass components with care to prevent breakage.

PACKAGE CONTENTS

Verify that all components are present before beginning installation.

- 1 x Emliviar Outdoor Wall Lantern Sconce (Model WE215BM BK)
- Mounting Hardware (screws, wire nuts, mounting plate)

- Instruction Manual

Note: Bulb is NOT included.

SETUP AND INSTALLATION

This fixture is designed for easy installation and comes with all necessary mounting hardware. No need to install glass components separately.

1. **Turn off Power:** Before starting, ensure the power supply to the installation area is turned off at the circuit breaker.
2. **Prepare Mounting Surface:** Ensure the wall surface is clean and suitable for mounting.
3. **Attach Mounting Plate:** Secure the mounting plate to the junction box using the provided screws.
4. **Make Electrical Connections:** Connect the fixture's wires to your household wiring according to standard electrical codes (black to black, white to white, ground to ground). Use wire nuts to secure connections.
5. **Mount Fixture:** Carefully align the fixture with the mounting plate and secure it with the provided screws.
6. **Install Bulb:** Insert one E26 base bulb (Max. 60W) into the socket. (Bulb not included).
7. **Restore Power:** Turn the power back on at the circuit breaker.

MAINTENANCE

This fixture is weather-resistant and rust-resistant, designed for outdoor use. Regular cleaning will help maintain its appearance and performance.

- **Cleaning:** Wipe the fixture with a soft, damp cloth. Avoid using abrasive cleaners or solvents that could damage the finish or glass.
- **Bulb Replacement:** Ensure power is off before replacing the bulb. Allow the old bulb to cool completely before removal.
- **Inspection:** Periodically check for any loose connections or signs of wear.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Light does not turn on.	Power is off at the circuit breaker. Bulb is faulty or not installed correctly. Loose wiring connection.	Check the circuit breaker and ensure power is on. Replace the bulb or ensure it is screwed in tightly. Turn off power, then check and secure all wire connections.
Light flickers.	Loose bulb. Incorrect bulb type or wattage. Loose wiring connection.	Tighten the bulb. Ensure the bulb is E26 base and max 60W. Turn off power, then check and secure all wire connections.
