

Reebok RWSORA1959

Reebok Womens Running Super Connect W Shoes User Manual

Model: RWSORA1959

INTRODUCTION

This manual provides essential information for the proper use, care, and maintenance of your Reebok Womens Running Super Connect W Shoes. Designed for everyday running, these shoes offer comfort and support. Please read this manual thoroughly to ensure optimal performance and longevity of your footwear.

GETTING STARTED

Your Reebok Super Connect W Running Shoes are ready for use right out of the box. Follow these simple steps to begin:

1. **Unboxing:** Carefully remove the shoes from their packaging. Inspect them for any visible damage or manufacturing defects.
2. **First Fit:** Try on both shoes to ensure a comfortable and secure fit. Adjust the laces to your preference, ensuring they are snug but not overly tight.
3. **Initial Walk:** Take a short walk to get accustomed to the feel of the shoes. This helps in identifying any pressure points or discomfort before extended use.

These shoes are designed for running and general athletic activities. To maximize their performance and your comfort:

- **Lacing:** Ensure laces are tied securely to prevent slippage and provide adequate foot support. Avoid tying them too tightly, which can restrict circulation.
- **Terrain:** While versatile, these shoes are primarily intended for paved surfaces, tracks, and light trails. Avoid excessively rough or uneven terrain that could damage the sole or upper material.
- **Rotation:** If you run frequently, consider rotating between two pairs of running shoes. This allows the cushioning to recover and extends the lifespan of each pair.
- **Post-Run Care:** After each run, remove any debris from the soles and allow the shoes to air dry in a well-ventilated area. Avoid direct heat sources.

CARE AND MAINTENANCE

Proper care will extend the life and maintain the appearance of your Reebok running shoes:

- **Cleaning:** For light dirt, wipe the shoes with a damp cloth. For more stubborn stains, use a mild soap and water solution with a soft brush. Avoid harsh chemicals or abrasive cleaners.
- **Drying:** Always air dry your shoes at room temperature. Do not use a washing machine, tumble dryer, or direct heat (like radiators or hair dryers), as this can damage materials and adhesives.
- **Storage:** Store shoes in a cool, dry place away from direct sunlight. If storing for extended periods, consider using shoe trees to help maintain their shape.
- **Insoles:** Removable insoles can be taken out and aired separately to prevent odor buildup.

TROUBLESHOOTING

Here are solutions to some common concerns you might encounter:

- **Squeaking Noise:** If your shoes squeak, it might be due to moisture trapped between the insole and the sole. Remove the insole, clean and dry both surfaces, then reinsert.
- **Uncomfortable Fit:** Ensure you have the correct size. Lacing technique can also affect comfort; experiment with different lacing patterns to alleviate pressure points.
- **Odor:** Regular airing out after use is crucial. If odor persists, use an athletic shoe deodorizer or sprinkle baking soda inside the shoes overnight.
- **Excessive Wear on Sole:** Uneven wear on the sole can indicate a need for new shoes or a change in running gait. Consult a running specialist if concerned about gait.

SPECIFICATIONS

Feature	Detail
Product Name	Reebok Womens Running Super Connect W Shoes
Model Number	RWSORA1959
Brand	Reebok
Department	Womens
Outer Material	Synthetic Resin
Closure Type	Lace-Up
Heel Type	No Heel
