

Tokluck PSVR2-CDDS

Tokluck PSVR2 Controller Charging Dock and Display Stand User Manual

Model: PSVR2-CDDS

INTRODUCTION

This manual provides detailed instructions for the Tokluck PSVR2 Controller Charging Dock and Display Stand. This device is designed to simultaneously charge two PSVR2 Sense controllers and provide a stable display stand for your PSVR2 headset, helping to keep your gaming area organized and your controllers ready for use.

SETUP

Follow these steps to assemble and set up your charging dock:

1. **Insert the supporting rod to the base:** Align the supporting rod with the slot in the base unit and gently push it in until it is securely seated.
2. **Connect the top tray:** Place the VR2 headset holder (top tray) onto the top of the supporting rod, ensuring it clicks into place.
3. **Insert the Type-C magnetic connector into controller:** Before charging, insert the small Type-C magnetic dongles into the charging port of each PS VR2 Sense controller. These dongles facilitate magnetic charging.
4. **Put the controller to the charging slot:** Gently place the PS VR2 controllers into the designated charging slots on the base. The magnetic connection will automatically align.

5. **Put the PS VR2 headset into top tray:**Place your PS VR2 headset onto the top display stand for organized storage.
6. **Connect controller to PS5 console with included charging cable:**Connect the provided Type-C charging cable from the dock to a 5V/2A power source, such as your PS5 console or a compatible wall adapter.

OPERATING

The Tokluck PSVR2 Charging Dock is designed for efficient charging and convenient storage.

Charging Controllers

- **Power Source:** The dock is powered by multiple 5V 2A supply devices, including the PS5 console (via the included Type-C cable), a 5V/2A wall adapter, a USB HUB, or a PC.

- **Magnetic Charging:** Once the Type-C magnetic dongles are inserted into your PS VR2 Sense controllers, simply place them into the charging slots. The strong magnets will automatically align for a secure connection, making plugging in effortless. The charging process will automatically stop once controllers are fully charged.
- **Fast Charging:** The dock can fully charge dual controllers in approximately 1.5 to 2 hours.

Easy to install

1. Insert the supporting rod to the base

2. Connect the top tray

3. Insert the Type-C magnetic connector into controller

4. Put the controller to the charging slot

5. Put the PS VR2 headset into top tray

6. Connect controller to PS5 console with included charging cable

LED Indicators

- **Steady Blue Light:** Indicates that the controllers are fully charged or the dock is in standby mode.
- **Breathing Orange Light:** Indicates that the controllers are currently charging.

VR Headset Display Stand

The top section of the dock serves as a detachable display stand for your PS VR2 headset. This allows you to keep all your PS VR2 accessories in one organized location, reducing clutter on your desk.

MAINTENANCE

To ensure the longevity and optimal performance of your Tokluck PSVR2 Charging Dock, please follow these

maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe down the surface of the charging dock. Avoid using abrasive cleaners, solvents, or harsh chemicals, as these can damage the finish.
- **Avoid Liquids:** Keep the charging dock away from water and other liquids. Do not immerse the device in water.
- **Storage:** When not in use for extended periods, store the dock in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** When moving the charging station, always hold the base rather than the middle rod to prevent accidental detachment or damage.

TROUBLESHOOTING

If you encounter issues with your Tokluck PSVR2 Charging Dock, please refer to the following common solutions:

- **Controllers not charging:**
 - Ensure the Type-C magnetic dongles are securely inserted into the controllers.
 - Verify that the charging cable is firmly connected to both the dock and the power source (PS5 console or wall adapter).
 - Check if the power source is active and providing 5V/2A output. Try a different USB port or wall adapter if available.
 - Ensure the controllers are correctly seated in the charging slots and the LED indicators are showing a breathing orange light.
- **LED indicators not lighting up:**
 - Confirm the dock is receiving power. Check all cable connections.
 - Try connecting the dock to a different power source.
- **Dock feels unstable:**
 - Ensure the supporting rod is fully inserted into the base and the top tray is securely attached.
 - Place the dock on a flat, stable surface.

If the problem persists after trying these steps, please contact customer support.

SPECIFICATIONS

Feature	Detail
Brand	Tokluck
Connectivity Technology	USB
Connector Type	USB Type C

Compatible Devices	Game Consoles (Specifically PS VR2 Sense Controllers)
Included Components	1 x PSVR 2 Charging Station, 1 x Supporting Rod, 1 x Type-C Charging Cable, 1 x VR2 Headset Holder, 2 x Type-C Magnetic Connector
Special Feature	Magnetic Charging, Detachable Headset Stand
Color	Black
Input Voltage	5 Volts
Mounting Type	Tabletop Mount
Amperage	2 Amps
Charging Time	Approx. 1.5-2 hours for dual controllers

Fit for PS VR2
