- **Bunk Bed Use:** The upper bunk is accessed via the integrated ladder. Ensure children use the ladder safely and do not climb on other parts of the bed structure.
- **Slide Use:** The slide is intended for supervised play. Ensure the area around the slide exit is clear of obstructions. Only one child should use the slide at a time.
- **Storage Drawers:** The four integrated drawers provide convenient storage for clothing, toys, or bedding. Pull them out gently and push them in fully to prevent damage.

6. Maintenance

Regular maintenance will help preserve the appearance and structural integrity of your bunk bed.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, as these can damage the finish.
- **Fastener Check:** Periodically (e.g., every 3-6 months) check all screws, bolts, and connections to ensure they remain tight. Re-tighten as needed to prevent wobbling or structural instability.
- **Wood Care:** Protect the wood from extreme temperature changes and direct sunlight, which can cause fading or cracking.
- **Slide Maintenance:** Keep the slide surface clean and free of debris to ensure smooth operation.

7. Troubleshooting

If you encounter any issues with your bunk bed, consider the following common troubleshooting steps:

- **Wobbling or Instability:** This is most commonly caused by loose fasteners. Re-check and tighten all screws and bolts throughout the entire bed frame. Ensure the bed is on a level surface.
- **Squeaking Noises:** Squeaking often indicates loose connections. Identify the source of the squeak and tighten the corresponding fasteners. Applying a small amount of furniture wax or lubricant to joints can also help.
- **Drawers Sticking:** Check for any obstructions in the drawer glides. Ensure the drawers are properly aligned within their tracks.
- **Missing Parts:** If you discover missing parts during assembly, do not attempt to substitute them. Contact MERITLINE customer support for assistance.
