Monarch Specialties I 6035Q

Monarch Specialties I 6035Q Queen Size Upholstered Platform Bed

Instruction Manual

INTRODUCTION

This manual provides detailed instructions for the assembly, operation, maintenance, and troubleshooting of your Monarch Specialties I 6035Q Queen Size Upholstered Platform Bed. Please read this manual thoroughly before beginning assembly to ensure proper setup and safe use of your new bed frame. Keep this manual for future reference.

set up in a modern bedroom.

SAFETY INFORMATION

Please observe the following safety precautions to prevent injury and damage to the product:

- Always assemble the bed frame on a soft, clean surface to prevent scratches.
- Ensure all bolts and screws are securely tightened before use. Periodically check and re-tighten as necessary.
- Do not exceed the recommended weight capacity for a queen-size bed.
- Keep small parts and packaging materials away from children during assembly.
- This bed frame requires a standard queen size box spring and mattress (not included). Do not use without proper support.
- Do not stand or jump on the bed frame.
- If any parts are missing or damaged, do not proceed with assembly. Contact customer support immediately.

PACKAGE CONTENTS

Verify that all components are present before beginning assembly. Parts and hardware are enclosed within the zippered compartment on the back of the headboard.

Part	Description	Quantity
Headboard	Upholstered headboard with chrome nail-head trim.	1
Footboard	Upholstered footboard with chrome metal legs.	1
Side Rails	Upholstered side rails connecting headboard and footboard.	2
Support Slats	Wooden slats for mattress support.	Set
Center Support Legs	Adjustable legs for central slat support.	3
Hardware Pack	Bolts, washers, nuts, and Allen key.	1

SETUP AND ASSEMBLY

Follow these steps carefully for proper assembly. It is recommended to have two people for assembly.

- Unpack Components:** Carefully remove all parts from the packaging. Locate the zippered compartment on the back of the headboard to find the hardware pack.
- Attach Side Rails to Headboard:** Align the side rails with the headboard brackets. Secure them using the provided bolts and washers. Do not fully tighten yet.
- Attach Side Rails to Footboard:** Connect the other end of the side rails to the footboard brackets. Secure with bolts and washers. Once all connections are made, fully tighten all bolts.
- Install Center Support Legs:** Attach the adjustable center support legs to the central support beams. Ensure they are adjusted to touch the floor once the bed is in its final position.
- Place Support Slats:** Lay the wooden support slats across the side rails, ensuring they are evenly spaced and secured if applicable (some models may have pre-drilled holes or velcro).
- Final Check:** Verify that all connections are secure and the bed frame is stable.

OPERATING (USAGE)

Once assembled, your Monarch Specialties I 6035Q bed frame is ready for use. Place a standard queen-size box spring and mattress (both sold separately) on top of the wooden slats. The bed frame is designed to provide stable support for your sleep system.

MAINTENANCE

Regular maintenance will help prolong the life and appearance of your bed frame:

- **Cleaning:** For the upholstered fabric, gently spot clean with a damp cloth and mild detergent if necessary. Blot dry. Do not use harsh chemicals or abrasive cleaners. For metal legs, wipe with a soft, dry cloth.
- **Tightening:** Periodically check all bolts and screws to ensure they remain tight. Re-tighten as needed to maintain stability.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight may cause the fabric to fade.
- **Avoid Moisture:** Keep the bed frame away from excessive moisture to prevent damage to the wood and fabric.

TROUBLESHOOTING

If you encounter any issues with your bed frame, refer to the following common problems and solutions:

- **Bed Frame is Wobbly:**

- Ensure all assembly bolts are fully tightened.
- Check that the center support legs are properly adjusted and making firm contact with the floor.
- Verify that the bed is placed on a level surface.

- **Squeaking Noises:**

- Re-tighten all bolts and connections.
- Ensure slats are properly seated and not rubbing against the frame.
- Check if the box spring or mattress is causing the noise.

- **Parts Missing or Damaged:**

- Do not proceed with assembly. Contact Monarch Specialties customer support immediately for replacement parts.

SPECIFICATIONS

Feature	Detail
Model Number	I 6035Q
Size	Queen
